HOSFGN/002: Property Thresholds Guidance

This guidance note sets out the property thresholds for the Scottish Government Home Owners Support Fund (HOSF) for 2015/16.

Content

- 1. Relevance
- 2. Setting of Thresholds
- 3. Exceptions
- 4. Determining the Open Market Value
- 5. Property thresholds in each local authority area

1. Relevance

The value of the properties accepted into the scheme must be no more than the maximum levels we have set in this guidance note. This is because any homeowner with a property above these thresholds may potentially be able to downsize. This value will be determined by our independent surveyors.

The property thresholds in this guidance note apply to applications made to the Home Owner's Support Fund from 1 April 2015 to the 31 March 2016 (inclusive) for the following HOSF schemes:

- Mortgage to Rent
- Mortgage to Shared Equity

2. Setting of Thresholds

The thresholds are based on an assessment of current housing market conditions within each local authority area and will be reviewed annually. All thresholds are equal or higher than the respective OMSE thresholds used by HOSF prior to 2015.

3. Exceptions

Where a property value exceeds the relevant threshold, the homeowner may still be eligible for assistance if, as a result of a physical or mental health problem they can demonstrate a specific housing need, requiring them to remain in their property.

4. <u>Determining the Open Market Value</u>

The Open Market Value of the property is determined by our independent surveyors, initially as a desktop valuation and then a survey of the home. There is no appeal process.

The survey report is tailored for use in the Scheme. Copies are sent to relevant parties **ONLY** when required to complete specific stages of the purchase. The survey report is the property of the Scottish Government and has no purpose outside the Scheme. Applicants will only be sent a copy with an offer letter, if issued. It is not available to applicants or advisors upon request.
