CONSULTATION QUESTIONS

1. Are the vision and objectives as set out in sections 19 and 20 appropriate for Scotland's Sustainable Housing Strategy? Please answer Yes or No and provide fuller explanation if you wish.

Yes No

Comments

2. What do you think are the main barriers that prevent home owners and landlords from installing energy efficiency measures?

Comments cost and long pay back time

3. Please explain any practical solutions and/or incentives to overcome any barriers you have identified.

Comments Subsidise the costs of the solutions rather than provide means tested grants.

4. Given Scotland's diverse range of housing, what support is needed to enable people to get energy efficiency measures installed?

Comments Easy to understand information on solutions and cost/benefit for different types of housing.

5. (a) What specific issues need to be addressed in respect of improving energy efficiency in rural areas, particularly more remote or island areas?

Comments Funding support

5. (b) How should these be addressed?

Comments Provide subsidies to energy efficiency solutions

6. Taking into account the models and funding sources outlined in section 1.20-1.37, what role might local authorities and other agencies play in bringing about a step change in retrofitting Scotland's housing?

Comments Subsidised solutions would be more effective at a national rather than local level.

7. What role should the Scottish Government play in a National Retrofit Programme?

Comments Subsidised solutions would be more effective at a national rather than local level.

8. What role could the devolution of additional powers play in achieving more retrofit?

Comments no comment

9. What further action is needed to achieve the scale of change required to existing homes?

Commentsno comment

10. How can we make sure a National Retrofit Programme maximises benefits to all consumers (for example, older people, those from ethnic minorities, those with long term illness or disability)?

CommentsTo reach vulnerable groups where health is affected, there should be a service offering a free assessment and free upgrade of properties to a minimum level irrespective of income.

11. (a) Should the Scottish Government consider whether a single mandatory condition standard (beyond the tolerable standard) should apply to all properties, irrespective of tenure?

Yes No

11. (b) If so, how would that be enforced?

Comments This could be enforced at the licensing stage for landlords and at the selling stage for private owners.

12. (a) In box 6 we identify a checklist for maintaining a quality home. Do you agree with our proposed hierarchy of needs?

Yes No

12. (b) If you think anything is missing or in the wrong place please explain your views.

Comments no comment

13. Should local authorities be able to require that owners improve their properties, in the same way they can require that they repair them? For example, could poor energy efficiency be a trigger for a work notice? Please answer Yes or No and provide further explanation if you wish, for example on how this might work.

Yes No

Comments The owner may not have the funds to undertake specified improvements and may not be eligible for a grant.

14. Should local authorities have a power to enforce decisions taken by owners under the title deeds, tenement management scheme or by unanimity? For example, should they have explicit powers to pay missing shares of owners who are not paying for communal repair work, in the same way they can for agreed maintenance work ? Please answer Yes or No and provide further explanation, if you wish.

Yes No

Comments

15. Should local authorities be able to automatically issue maintenance orders on any property which has had a work notice? Please provide further explanation if you wish.

Yes No

Comments

16. Should the process for using maintenance orders be streamlined , and if so, how? Please answer Yes or No and provide further explanation, if you wish.

Yes No

Comments no comment

17. Should local authorities be able to: a. issue work notices on housing affecting the amenity, and b. require work such as to improve safety and security on properties which are outwith a Housing Renewal area? Please answer Yes or No and provide further explanation if you wish.

Yes No

Comments no comment

18. Should local authorities be able to issue repayment charges for work done on commercial properties, in the same way they can for residential premises? Please answer Yes or No and provide further explanation below, if you wish.

Yes No

Comments

19. What action, if any, do you think the Government should take to make it easier to dismiss and replace property factors?

Comments no comment

20. What action can be taken to raise the importance placed by owners and tenants on the energy efficiency of their properties?

Comments Provide information and subsidise energy efficiency measures.

21. Should the Scottish Government introduce minimum energy efficiency standards for private sector housing?

Comments no comment

22. How could we amend EPCs to make them a more useful tool for influencing behaviour change to improve energy efficiency?

Comments no comment

23. Are there other key principles that we ought to consider when looking at the possible introduction of regulations?

Comments no comment

24. How could regulation be used to support the uptake of incentives?

Comments no comment

25. In section 2.68 we identify design options for the standard. Do you have any views on the options set out in that report? Are there other options that we should be considering?

Comments no comment

26. Do you agree that any regulations for private sector housing ought to reflect the energy efficiency capacity of the property and/or location, as is proposed for the social sector?

Yes No

Comments

27. If you agree with Q26, should houses of the same type in the social and private sectors be expected to meet the same standard?

Yes No

Comments no comment

28. Are there other specific issues we need to consider in introducing regulation on the energy efficiency of the home for particular groups of people, for example older people, those with disabilities, people from minority ethnic communities?

Comments no comment

29. Should we consider additional trigger points to point of sale or rental? If so, what?

Yes No

Comments no comment

30. Should rollout of any regulation across the owner occupied and PRS sectors be phased or all at once? If you think that rollout should be phased how do you think this should be done?

Yes No

Comments no comment

31. What other issues around enforcement do we need to think about when considering how different approaches to regulation might work?

Comments no comment

32. In sections 2.76-2.79 we suggest that one way of regulating would be to issue sanctions.

(a) Do you think that sanctions on owners should be used to enforce regulations?

Yes No

(b) Should owners be able to pass the sanction or obligation on to buyers?

Yes No

Comments

33. The Scottish Government does not intend to regulate before 2015. The working group will consider what options for timing of any regulation might be appropriate, but, given all the points set out in sections 2.80-2.81, from when do you think it might be appropriate to apply regulations?

Comments no comment

34. (a) In Section 3.4 we describe the range of legislative and policy levers that we believe are available to help us transform the financial market such that it values warm, high quality, low carbon homes. Do you agree that this is the full range of levers?

Yes No

34. (b) Can you suggest any other ways to help transform the market for more energy efficient, sustainable homes?

Comments no comment

35. What changes would be required to current survey and lending practice to enable mortgage lenders to take account of the income from new technology or savings on energy bills?

Comments no comment

36. Section 3.15 lists a range of challenges that may prevent the benefits of a more sustainable, energy efficient home being fully recognised in its value. What further challenges, if any, need to be addressed?

Comments no comment

37. (a) Sections 3.16-3.22 set out the action that Scottish Government is currently developing to encourage greater recognition of the value of sustainable homes. Do you agree that this action is appropriate?

Yes No

37. (b) What further action is needed to influence consumers and the market?

Comments no comment

38. What steps can we take to ensure that we design and develop sustainable neighbourhoods?

Comments Engage the NHS in the planning system.

39. Section 4.10 sets out the main challenges to address in taking forward our aim of new build transformation. What further challenges, if any, need to be addressed?

Comments no comment

40. What action is needed to increase the capacity for developing and bringing to market innovative methods of construction?

Comments no comment

41. What further changes to the operation of the Government's affordable housing supply programme would help to enable it to champion greener construction methods and technologies in the medium term?

Comments no comment

42. What further action is needed to influence the construction industry to make greater use of innovative methods to deliver more greener new homes?

Comments no comment

43. (a) Has Chapter 5 of this consultation identified the key challenges to ensuring Scottish companies have the skills to take advantage of the opportunities expected to be on offer?

Yes No

43. (b) If not, What other challenges are there?

Comments no comment

44. What further action is needed to ensure there is appropriate investment in skills and training to meet these opportunities?

Comments no comment

45. How can the construction industry be made more aware of the potential funding and support for skills and training development opportunities and engage effectively with those providing training to ensure that it meets their current and future needs?

Comments no comment

46. How do we ensure that skills and training opportunities are provided on an equitable basis to all groups in society?

Comments Strengthen links between local businesses and secondary schools via direct involvement of businesses in the curriculum.

47. Apart from training and skills opportunities are there any other issues that should be addressed to make employment in construction and other industries becomes more representative?

Comments no comment

48. Please describe any specific difficulties relating to skills and training that apply to those in remote and island areas and your view on how these may be addressed.

Comments no comment
