

## CONSULTATION QUESTIONS

### Progress and Challenges

**Q.1 Do the findings of the evaluation broadly reflect your views about services for people with learning disabilities/carer?**

Yes  No

Please provide any comments, evidence and/or examples here Access  
to learning (post school) ie College courses could perhaps include  
greater choices. Otherwise, pretty good.

**Q.2 Can you give examples, either locally or nationally, of what you think has worked well over the last 10 years of *The same as you?***

Please provide any comments and/or examples here

Ability to access information and advice. Involvement  
in local community and interaction with the general  
public has been positive

**Q. 3 Can you give examples of issues in current work and/or policies that still need to be addressed?**

Please provide any comments and/or examples here

**Good Practice – Organisations**

**Q. 4 Can you provide examples of what you have done over the last 10 years, within your organisation, to improve services and access to services within your local area?**

Please provide any comments and/or examples here

Boyn is a member of the organisation 'ENABLE'.  
We enjoy weekly meetings.

### Good Practice - Individuals

**Q.5 What have you done, as an individual, to make positive changes within your local area?**

Please provide any comments and/or examples here

Committee Member with ENABLE.  
Help with Swimming training for  
DISABLED SWIM GROUP

### Future Priorities - Healthcare

**Q.6 What still needs to be done to ensure that people with learning disabilities have access to better and more appropriate healthcare?**

Please provide any comments and/or examples here

Our experience of Healthcare for Bryn has been excellent and we can find no area which we feel needs improvement

### Future Priorities - Education

**Q.7 What still needs to be done to ensure that people with learning disabilities have access to better educational opportunities?**

Please provide any comments and/or examples here

As ever, I'm aware funding constraints apply. Every Organisation is asking for financial increases. We recognize this is a specialist area and perhaps courses for lay people, trained by experienced staff could be a possibility.

### Future Priorities – Independent Living

**Q.8 What still needs to be done to ensure that people with learning disabilities are able to live independently?**

Please provide any comments and/or examples here

Trained support carers acting as home managers providing back up should it be required. Some people, may of course prefer to remain within a family group while still retaining independence at a level appropriate to their individual needs.

## Future Priorities – Employment

**Q.9 What still needs to be done to ensure that people with learning disabilities have access to better employment opportunities?**

Please provide any comments and/or examples here

This is a financially driven work society. Most companies can support a few disabled employees but there is an underlying reality related to (a) the nature of the disability (b) the amount of extra support required to maintain a worker (c) Society's willingness to absorb less able people into the work place.  
So - probably greater publicising regarding the potential of many disabled people.

## Future Priorities

**Q.10 What other future priorities do we need to focus on?  
(Please list these in order of importance with the most important first)**

Please provide any comments and/or examples here

HEALTHY LIVING Choices/health/activity/Diet/  
perhaps with special rates/fees for disabled access to  
Sports/Gym facilities  
Education - on going - after school.  
Ensuring appropriate and caring support for  
those requiring additional care.
