Yes ☒ No ☐

2. Should age of sale regulations apply to:

a. only e-cigarette devices and refills (e-liquids) that contain nicotine or are capable of containing nicotine, or

b. all devices / refills (e-liquids) regardless of whether they contain or are capable of containing nicotine?

a ☒ b ☐

3. Whom should the offence apply to:

a. the retailer selling the e-cigarette

b. the young person attempting to purchase the e-cigarette

c. both

a ☒
b ☐
c ☐

4. Should sales of e-cigarettes devices and refills (e-liquids) from self-service vending machines be banned?

Yes ☐ No ☒

5. Should a restriction be in place for other e-cigarette accessories?

Yes ☐ No ☒

6. If you answered “yes” to question 5, which products should have restrictions applied to them?

Comments Just the liquids. And I would suggest to allow for the legal guardian or a doctor to give explicit permission to purchase. It would be harmful to the health of adolescents to deny them this less harmful alternative, if they already are addicted to smoking. NRTs (which can be dispensed by the NHS to 12 year olds even without parental consent) have proven to be less useful as substitutes than modern ecigs. And since the NHS doesn't need to pay for them, it would also reduce public health costs.

Proxy purchase for e-cigarettes

7. Should the Scottish Government introduce legislation to make it an offence to proxy purchase e-cigarettes?

| e. Nominal pricing (marketing a product by selling at a low price) | e <input type="checkbox"/> |
| f. Point of sale advertising (advertising for products and services at the places where they were bought) | f <input type="checkbox"/> |
| g. Events sponsorship with a domestic setting | g <input type="checkbox"/> |

11. If you believe that domestic advertising and promotion should be regulated, what, if any, exemptions should apply?

Comments If you insits on regulation advertising for fear of “renormalizing smoking”, then just ban ads for the “things that look like cigarettes with a light at the end”. This disposable junk is mainly produced by the tobacco industry. Allow ads for modern devices that can't be confused with tobacco cigarettes.

E-cigarettes – use in enclosed public spaces

17. Do you believe that the Scottish Government should take action on the use of e-cigarettes in enclosed public spaces?

Yes ☐ No ☒

18. If you answered 'yes' to Question 17, what action do you think the Scottish Government should take and what are your reasons for this?

Comments

19. If you answered, 'no' to Question 17, please give reasons for your answer.

CommentsThe reasons given for smoking bans are the possible dangers of second hand smoke. Contrary to the claim of “not enough studies”, there have been many attempts to find something harmful in the exhaled vapor. They all failed to produce medically significant results. So, until there is irrefutable proof of significant amounts of unavoidable toxins in the exhaled vapor, there is no reasonable base for a ban.

20. Are you aware of any evidence, relevant to the used of e-cigarettes in enclosed spaces, that you think the Scottish Government should consider?

Equality Considerations

43. What issues or opportunities do the proposed changes raise for people with protected characteristics (age; disability; gender reassignment; race; religion or belief; sex; pregnancy and maternity; and sexual orientation)?

CommentsNo opportunities.

Forcing elderly smokers into a puritanic mold is despicable. Especially when they are helpless to avoid this kind of brutality. The same applies to sick smokers in hospitals. Forcing them to suffer withdrawal or lengthy trips and exposure to the outdoors is simply cruel and can be much more dangerous to their health than smoking.

Or do you consider smokers to be “stinking sub-human weaklings”, that should suffer for their sinful habits?

44. If the proposed measures are likely to have a substantial negative implication for equality, how might this be minimised or avoided?

CommentsJust say “NO”. Stop the addiction to control every aspect of life.

45. Do you have any other comments on or suggestions relevant to the proposals in regard to equality considerations?

49. Do you have any other comments on or suggestions relevant to the proposals in regard to business and regulatory impacts?

As a party to the World Health Organization's Framework Convention on Tobacco Control (FCTC), Scotland has an obligation to protect the development of public health policy from the vested interests of the tobacco industry. To meet this obligation, we ask all respondents to disclose whether they have any direct or indirect links to, or receive funding from, the tobacco industry. We will still carefully consider all consultation responses from the tobacco industry and from those with links to the tobacco industry and include them in the published summary of consultation responses.

Comments Contrary to the allegation of conspiracy theorists like MEP Paul Murphy, I'm just one of many concerned regular citizens. Not some kind of "astroturf". I have receive nothing, nor will I accept anything. Especially not from any tobacco industry. All my statements are my own opinion.
