Introduction

Before agreeing to support a participant, Lead Partners should ensure the individual’s circumstances are assessed to identify whether they qualify for ESF support.

Suitable documentation must be obtained to evidence that:

- the participant is legally able to reside and (if relevant to the operation) work in the UK (See ‘Evidence’ section for details of accepted documentation)
- the project eligibility criteria is met in relation to the specific objectives of the relevant ESF Priority e.g.
  - Employability Pipeline – the participant has multiple barriers to employment, (Please note that if a participant is long-term unemployed, they are deemed to have multiple barriers – see the ‘Definitions: Employment Status / Barriers / Social Inclusion & Poverty Target Groups’ section for further detail)
  - Social Inclusion & Poverty – the participant is within one of the key target groups (low income, workless and lone-parent households – see ‘Definitions’: Employment Status / Barriers / Social Inclusion & Poverty Target Groups’ section for further detail)
  - Youth Employment Initiative – the participant is within the qualifying age range (16 – 29 years) and is NEET on entry.
  - Developing Scotland’s Workforce – the participant must provide evidence of their Qualification Levels on Entry (See ‘Evidence’ section for details of accepted forms of documentation)

This evidence must be obtained as part of the Participant Registration process – see ‘Eligibility – Evidence’ and ‘Definitions: Employment Status / Barriers’ section for details of accepted forms of documentation. It should be noted that Participants must not be recorded on EUMIS until documentation can be provided to evidence their eligibility.

Please note that it is not possible for this guidance to take all eventualities into account – the guidance is not exhaustive and it remains the responsibility of the Lead Partner to ensure that evidence is adequate and appropriately verified.

Eligibility evidence should (where possible) be obtained during the registration process.

Use of Statutory Public Registers

Information extracted from and certified via statutory public registers (e.g. DWP, SEEMIS, SQA) is acceptable for evidence requirements as long as the definitions used comply with those set out in the EC ESF Monitoring and Evaluation Guidance. This does not have to be via a Referral Form and can be used to evidence the information contained in the Registration Form provided:

- the information is certified (by the issuing institution) or sent via their dedicated mailbox;
- the certifying institutions are public (national or local) authorities with access to the national registers containing relevant data on Participants.

For the purposes of ESF, ‘certified’ is defined as:

- On headed notepaper (e.g. letter): the document must be signed and dated by a representative of the issuing institution.
- Not on headed notepaper (e.g. referral form): the document must be stamped (by the issuing institution) and dated.

Please note that it is important that the document is dated in some way – as this is the only way that the Managing Authority can verify that the information being provided is accurate at the date of registration.

**Participant Consent**

Lead Partner must ensure each Participant has a signed Registration Form.

Where an individual is under 16, signed consent must be obtained from their parents or legal guardian – this must be accompanied by a copy of a valid passport or photographic ID card (that contains a signature).

**Publicity**

It is important that the correct ESF logo is used on participant documentation and it is made clear to participants that they are being supported by ESF. Please refer closely to the appropriate publicity guidance ([https://beta.gov.scot/publications/esif-publicity-requirements-2014-2020/](https://beta.gov.scot/publications/esif-publicity-requirements-2014-2020/))

**‘Grand Total’ of Participants**

The Commission’s *Monitoring & Evaluation Guidance* makes it clear that it is acceptable for each Strategic Intervention to have a ‘grand total’ of participants, including those participants whose basic data relating to the common output indicators either could not be collected or is incomplete (Annex D, p15).

“A distinction is to be made between monitoring of participants on the one hand and eligibility of participants for financial support on the other. Whereas the former…requires a complete set of data on all personal, non-sensitive variables, it may not be a requirement for the latter. Hence, an incomplete set of data might not affect the participant’s eligibility to the support in general. However, managing authorities must be able to provide sufficient evidence that a person fulfils the eligibility criteria established for the respective operation/project…..” European Commission Monitoring and Evaluation Guidance, p10

**Supported**

Where a Participant is eligible for support, but the Lead Partner is unable to produce documentation to evidence their eligibility (e.g. sometime it is difficult to verify the date of birth of some individuals within the Roma community), the participant can be entered onto EUMIS after Registration to reflect the work being undertaken with them, but should not be marked as ‘Supported’ on EUMIS.;

**Unsupported**

Where a Participant is not eligible for support (e.g.. because they do not meet the eligibility criteria for that particular intervention) they should not be entered on EUMIS. Where a Participant is found to be ineligible (as a result of verification checks undertaken by either the Lead Partner or the Managing Authority), the ‘Supported’ function should be ‘unticked’ on EUMIS. In addition, the ‘Notes’ field in the ‘ESF Recipient’ tab of their Participant Record on EUMIS should be updated with ‘Ineligible’, to distinguish this individual from an eligible Participant whose eligibility could not be fully evidenced.

**Registration – Project Worker Assessments**

Project Worker assessments are extremely important and should address the Participant’s needs in relation to the intervention being proposed - assessments should therefore clearly outline the link between the needs or barriers of the Participant and the positive outcome that it is anticipated ESF assistance will generate.
These assessments may include a record of the individual’s eligibility / circumstances / lifestyle and should ideally be signed by the Project Worker and Participant – a Project Worker Assessment combined with a self-certified Registration Form (where self-certification forms part of the evidence requirements detailed in the ‘Definitions’ section) is always preferable to self-certification on its own.

Data Sets
Where a particular data set has been referred to in the guidance (e.g. SIMD index), it is acceptable to use information from a more up-to-date version of the same data set e.g. where the data set has been refreshed. Please note that this guidance document will not necessarily be updated to reflect changes to data sets.

Common Indicators
Annexes B and C of the European Commission’s Monitoring and Evaluation Guidance clearly lists the common indicators that must be reported for every participant supported in an ESF intervention.

Some of the common indicators are listed as “barriers” in our registration guidance and on EUMIS. – these have been clearly labelled in the ‘Definitions’ section of this guidance (any status or barrier with ** relate to the Common Indicators, with those with *** being treated as “other disadvantaged”).

It is imperative that Lead Partners collect all data relating to the common indicators when registering participants for ESF support, so that this information can be uploaded to EUMIS – this applies even where the data does not necessarily relate directly to the specific type of ESF intervention.

Lead Partners should therefore note that, although the collection of common indicators data should form part of the registration process, it is not necessary to physically evidence all this data (e.g. via documentary evidence) unless it forms part of the eligibility criteria for that intervention.

Following the publication of the EC ‘Omnibus’ Regulations in August 2018, indicators relating to ‘household situations’ (e.g. ‘Living in a jobless household’, ‘Living in a jobless household with dependent children’, ‘Living in a single adult household with dependent children’ etc) are no longer necessary in order to count a participant record as being ‘complete’ for reporting purposes. However, the Managing Authority would still like Lead Partners to continue gathering this data as it provides important information for both programme evaluation and Scottish Government statistics. Please note that an individual’s ‘household situation’ still needs to be collected and evidenced where it forms part of the eligibility criteria for an intervention (e.g. Social Inclusion & Poverty interventions).
Participant Files

The following documentation should be retained (where appropriate) on each Participant File:

**Referral Form**

A referral form can be used to evidence both mandatory information and other eligibility criteria (e.g. barriers to employment) where such information has come from a statutory public register (e.g. DWP, SEEMIS, MySQA) and has been verified (e.g. employment status). Therefore Referral Forms can be used as reliable evidence as long as:

- the definition of indicators in referrals comply with the definitions of the common indicators as set out in the European Commission “ESF Monitoring and Evaluation Guidance” document
- they are certified (by the issuing institution) or sent via their dedicated mailbox;
- the certifying institutions are public (national or local) authorities with access to the national registers containing relevant data on Participants.

**It should be noted that it is not mandatory to have a referral form in order to support a Participant** and there is no requirement for the referral form to be certified if it is not being used as evidence of eligibility.

A referral form (that has not come from a statutory public register) is not evidence of eligibility unless the supporting evidence documentation has been obtained and verified.

The form should include the following information:

- **Referral Agency details including:**
  - Agency Name
  - Agency Worker Name
  - Agency Worker Job Role
  - Office Address
  - Office Phone Number
  - Mobile Phone Number
  - Email Address

- **Participant details including:**
  - Name
  - Date of Birth
  - National Insurance Number
  - Address (including postcode) – please note Participants that (as per the National Rules on Eligibility of Expenditure) are employed (at the point of registration) can be eligible on the basis of the location of their employer / employment. The only exception to this is the Youth Employment Initiative where participants cannot be employed on entry.
  - Home phone number
  - Mobile phone number
  - Email address

- Employment Status

- Barriers / Disadvantages
• Details of Benefits (where appropriate) including:
  o Benefits currently being claimed

• Additional Information (where appropriate) including:
  o Length of time since Participant last worked (in years and months)
  o Date identified for referral to Work Programme
  o Description of progress made with referring agency
  o Details of all other agencies / services involved with the participant
  o Justification outlining why the participant has been referred

A referral form can be used to evidence both mandatory information and other eligibility criteria (e.g. barriers to employment) where such information has come from a statutory public register (e.g. DWP, SEEMIS, MySQA) and has been verified (e.g. employment status). Therefore Referral Forms can be used as reliable evidence as long as:

• the definition of indicators in referrals comply with the definitions of the common indicators as set out in the European Commission “ESF Monitoring and Evaluation Guidance” document
• they are certified (by the issuing institution) or sent via their dedicated mailbox;
• the certifying institutions are public (national or local) authorities with access to the national registers containing relevant data on Participants.
Registration Form

Lead Partners should ensure that when delivery agents or delivery organisations are collecting participant information that appropriate documentary evidence is retained. Personal characteristics which are necessary to determine the eligibility of the participant (D.O.B; Legally able to reside (and, if relevant to the operation, work); Address and Employment Status should be evidenced by supporting documents.

Self-declaration will be acceptable in certain limited circumstances (e.g. inactive individuals; individuals living in jobless households; no or limited work experience; etc.). Any clarification should be sought from the Managing Authority.

Participants must meet the appropriate eligibility criteria and should be either a legal resident of the UK or be eligible to take up paid employment in an EU state. If the Participant is a refugee or asylum seeker, the appropriate guidance must be followed and documentation checked accordingly.

The form should include the following information:

- **Project Details** including:
  - Project Name
  - Project Reference Number
  - Date of Registration
  - Details of Referring Agency (where appropriate)
  - Work Programme Eligibility Check (where appropriate)
  - Start Date

- **Participant details** including:
  - Name
  - Client Registration Number
  - Key / Project Worker
  - Date of Birth
  - National Insurance Number
  - Current nationality
  - Place / country of birth
  - Address (including postcode)
  - Home phone number
  - Mobile phone number
  - Email address

- **Description of project expectations** e.g.
  - What is the single most important thing stopping you from getting the work you want?
  - What do you hope to get out of working with the project?
  - What are your long-term goals?
• Employment Status i.e.
  • Unemployed
  • Long Term Unemployed
  • Economically Inactive
  • Inactive, not in education or training
  • Employed (including self-employed)

In addition, details should be provided outlining the timescales involved e.g.

  • Long-term unemployed **
  • Looked after young person ***
  • Low income employed ***
  • Low income (social inclusion and poverty only) ***
  • Low skilled ***
  • Material Deprivation ***
  • Mental health issues ***
  • Migrants, people with a foreign background, minorities (including marginalised communities such as the Roma) **
- No or Limited work experience ***
- Primary carer of a child/children (under 18) or adult ***
- Primary carer of older person ***
- Refugee ***
- Substance related conditions ***
- Underemployed ***

- **Details of Benefits** e.g.
  - Job Seekers Allowance
  - Education Maintenance Allowance
  - Carers Allowance
  - Income Support
  - Incapacity Benefit / ESA
  - Housing Benefit
  - Working Tax Credit
  - Council Tax Benefit
  - Disability Living Allowance / Personal Independence Payment
  - Child Tax Credit
  - Child Benefit
  - Childcare element of WTC
  - Universal Credit
  - Other

- Highest Level of the ISCED **Qualification Levels** (1 to 8) on Entry. Please note that EUMIS records an individual's highest level of qualification / education attainment at registration rather than their highest certificated qualification level (although often these equate to the same ISCED level). As recorded in the qualifications table within the ‘Scottish Qualifications and UNESCO ISCED Levels’ section, ISCED Level 1 is equivalent to completing primary school education – therefore most Participants will generally have a minimum of ISCED Level 1.

- Additional Information (where appropriate) e.g.:
  - Length of time since Participant last worked (in years and months)
  - Whether the Participant is a ‘Workforce Returner’
  - Details of any other agencies/services that the Participant is engaged with
  - Description of Participants Skills and attributes
  - Does the Participant have an active ILA account?
  - Does the Participant have a valid driving licence and/or access to transport

The form should also include an **Equalities Monitoring** section including:

- **Age**
  - Below 25 Years of age
  - Above 54 years of age

- Does the Participant consider themselves to have a disability?

- Extension of employment
Monitoring and Evaluation of Participant Data

More detailed guidance on monitoring and evaluation of participant information is contained within the European Commission “Monitoring and Evaluation of European Cohesion Policy – European Social Fund” guidance document available on the ESFD website.

However, the following should be considered:

- Lead Partners should ensure that delivery agents or delivery organisations comply with all Data Protection legislation when gathering and storing information.
- If a participant enters and leave the same operation several times during one or several reporting years, data relating to this participant should be recorded, stored and reported only once. The start date and information relating to output indicators should always refer to the first participation (i.e. not changed upon re-entry). The exit date should however be updated to reflect the final exit date and any other previously recorded result indicators should be updated accordingly.
- If a participant leaves one operation and registers with a different operation, the individual can be considered / recorded as a new participant.
- The total number of participants can be calculated by totalling the number of participants within the common output indicators relating to the individual's employment status i.e. unemployed (including long-term unemployed), inactive and employed (including self-employed) – only one of these categories can be picked for each participant.
- Common immediate result indicators should only relate to results achieved in the 4 week period after the participant has exited the operation.
- Common longer-term results should only relate to results achieved 6 months after the participant has exited the operation.
Eligibility – Evidence

The following is a list of accepted (and preferred) evidence which **may be required** depending on the type of SI being delivered – please note that only one piece of evidence from each list is required. In addition, it is acceptable to gather documentation that can evidence more than one aspect of eligibility e.g. a passport provides evidence of an individuals’ ‘Right to live and work’ and their ‘Date of Birth’ / ‘Age’. This is not an exhaustive list and a common-sense approach should be applied by Lead Partners the items in the list should not be interpreted as the Managing Authority stating that the evidence provides absolute proof of the eligibility condition. The Managing Authority’s objective is to achieve a reasonable degree of assurance that the participant qualifies for support, without imposing a significant burden on the participant or refusing support to those most in need.

As stated in the ‘Introduction’ section, information extracted from and certified via statutory public registers (e.g. DWP, SEEMIS, SQA) is acceptable for evidence requirements as long as the definitions used comply with those set out in the EC ESF Monitoring and Evaluation Guidance.

Please note that where an individual’s qualifications are pre-1995, and they are unable to obtain any evidence from SQA, a signed registration form will be considered acceptable evidence.

The SQA website states: “MySQA only holds information from 1995 to present day. To obtain qualifications prior to 1995 you can order a Replacement Certificate at www.sqa.org.uk/eshop. There is a fee for this service…” [https://www.mysqa.org.uk/cs8/content/help.action#Can I view qualifications prior to 1995?](https://www.mysqa.org.uk/cs8/content/help.action#Can I view qualifications prior to 1995?)

Replacement certificates can be obtained for participants as part of the percentage of indirect costs.

In addition it is possible to apply for an individual’s Scottish Candidate Number online using the following link: [http://www.sqa.org.uk/sqa/38676.html](http://www.sqa.org.uk/sqa/38676.html)

Scottish Qualifications and UNESCO ISCED Levels

In 2015, the Organisation for Economic Co-operation and Development (OECD) produced the policy profile on education in the UK report [http://www.oecd.org/publications/education-policy-outlook-2015-9789264225442-en.htm](http://www.oecd.org/publications/education-policy-outlook-2015-9789264225442-en.htm). The report presents comparative analysis of education policies and reforms across the OECD Countries and comparative insight on policies and reforms on selected topics. Following the publication of the report, the Scottish Government has reviewed the mapping of Scottish qualifications against the ISCED Levels. The most notable change being that no Scottish qualification maps to ISCED Level 4. In addition, the European Commission also updated the definitions of each of the levels in June 2015 and a descriptor has been added to the attached document for ease of reference.

**ISCED 1** – Primary School Education

Youth Employment Initiative (YEI) – Compliance (Wage Subsidy Scheme)

The following is the minimum level of compliance that must be undertaken by Lead Partners administering a YEI scheme:

**Letter**

- Each employer should be issued with a Letter / Contract by the Lead Partner confirming the following information (for each young person recruited as part of the scheme): The name and address of the employee;
- The employee's date of birth;
- Confirmation of the employee’s legal residency / ability to take up paid employment in an EU State (please note that it is not necessary to provide documentary evidence with the letter – as this should have been collected by the Lead Partner as part of the registration process);
- Job Title;
- Employment start date;
- Details of the wage rates being applied;
- Details of the proposed number of hours worked per week;
- Details of the number of weeks that wage subsidy will apply;
- Employment end date;
- The method and frequency of payments (i.e. weekly via BACs);
- Details outlining the status of the organisation;
- Declaration section – the employer must sign and return a copy of the declaration. In addition, the signed declaration should be counter-signed by the local Authority to confirm the eligibility of both the company and the employee.

Each employee should be issued with a Letter by the employer containing the following information:

- The name and address of the employee;
- The employee's date of birth;
- Confirmation of the employee’s legal residency/ability to take up paid employment the UK in an EU State;
- Job Title;
- Employment start date;
- Details of the wage rates being applied;
- Details of the proposed number of hours worked per week;
- Details of the number of weeks that wage subsidy will apply;
- Details of the employer’s holiday entitlement;
- Details of the employer’s sickness entitlement;
- Employment end date;
- The method and frequency of payments (i.e. weekly via BACs);
- Publicity – a statement should be included advising the employee of the involvement of European funding;
- Declaration section – the employee must sign and return a copy of the declaration. In addition, the signed declaration should be counter-signed by the Local Authority to confirm the eligibility of both the company and employee.
Wage Subsidy – Pipeline and YEI

Publicity

Both the employer and employee must be made aware that the scheme is funded by the European Social Fund.

Publicity guidance is available on the European Structural and Investment Funds website using the following link: https://beta.gov.scot/publications/esif-publicity-requirements-2014-2020/.

In addition, copies of the ESF logo can be downloaded from the European Structural and Investment Funds website using the following link: http://www.gov.scot/Topics/Business-Industry/support/17404/2007-2013PublicityInfo/PublicityGuidancefor2014-2020

National Minimum Wage

Information about the appropriate rates payable can be accessed via the following link: https://www.gov.uk/national-minimum-wage-rates

In certain circumstances, an employer may opt to pay more than the National Minimum Wage (or the National Living Wage – where an individual is over 25 years of age) , however, the amount claimed should generally be capped at the appropriate national minimum wage rate. However, as per the National Rules on Eligibility of Expenditure (page 25) “with prior approval of the MA, it may be acceptable to exceed the minimum”. Please refer to Section 5, Questions 10 and 11 of the ESF Participant Data and Evidence FAQ for further detail.

In addition, any accompanying National Insurance / Superannuation contributions should be recalculated on a pro-rata basis. Information relating to the correct National Insurance rates can be accessed via the following link: https://www.gov.uk/national-insurance-rates-letters

In addition, a National insurance contributions calculator can be accessed via the following link: http://nicecalculator.hmrc.gov.uk/Class1NICs1.aspx

Please note that the National Living Wage is a statutory minimum that employers must pay to individuals aged 25 and over.

In order to verify wage subsidy costs, the following information/documentation must be made available when requested:
Payment between Employer and Employee

Individual paid via Payroll
- Payslip from employer or other appropriate payroll documentation (clearly displaying: Gross Salary; Employer’s National Insurance; Employers Pension cost and Net Pay);
- Where appropriate, BACS or BACS breakdown (clearly showing Net Pay and BACS total);
- Employers Bank Statement (clearly showing the individuals Net Pay or the BACS total);

Individual paid via Petty Cash
- Payslip from employer or other appropriate payroll documentation (clearly displaying: Gross Salary; Employer’s National Insurance; Employers Pension cost and Net Pay);
- Employer bank statement showing withdrawal of cash from bank (or ATM statement); petty cash book or record management system showing cash being paid in and list of petty cash payments which should clearly show employee name, date of payment and payment amount (net pay).

Individual paid via a Third Party
- Documentation from Third Party (i.e. a payroll provider) clearly evidencing defrayal.

Payment between Lead Partner and Employer
- Invoice/Proforma from employer requesting payment – each individual employee should be itemised separately.
- Where appropriate, Lead Partner BACS or BACS breakdown.
- Lead Partner Bank Statements (clearly showing payment to employer or the BACS total);
Definitions: Employment Status / Barriers / Social Inclusion & Poverty Target Groups

The European Commission Monitoring and Evaluation Guidance for Programming Period 2014-2020 sets out clear definitions for Common ESF indicators. This document supplements this guidance.

Please note that some benefits (e.g. Jobseekers Allowance etc.) will be replaced as a result of the roll-out of Universal Credit – however, similar evidence will be required to evidence this depending on the individual’s UC Labour Market Regime (see Annex B: Labour Market Status Evidence Table – Universal Credit section for additional guidance).

Please note that any status or barrier with ** relate to the Common Indicators with those with *** being treated as “other disadvantage”.

When using any dataset to evidence a barrier it should be the one which is live at the time of registering a participant that is utilised.

Information extracted from and certified via statutory public registers (e.g. DWP, SEEMIS, SQA) is acceptable for evidence requirements as long as the definitions used comply with those set out in the EC ESF Monitoring and Evaluation Guidance.

Employability Pipelines

Please note that if a participant is categorised as being long-term unemployed (see below for definition and evidence requirements), they are automatically deemed to have multiple barriers to employment and are only required to evidence that they are long term unemployed - there is therefore no requirement to evidence an additional barrier (although all additional barriers to employment should still be noted on the participant’s registration form).

If a participant is not categorised as being long-term unemployed, a minimum of two barriers to employment must be appropriately evidenced (see below for definitions and evidence requirements). The evidence requirement is therefore dependent on whether the barrier is being used as one of the two barriers required to be eligible for support or simply as an ‘additional’ barrier i.e. where the two required barriers have already been correctly evidenced (other additional barriers to employment should still be noted on the participant’s registration form – without the need for further documentary evidence.

Registration – Project Worker Assessments
Project Worker assessments are extremely important and should address the Participant’s needs in relation to the intervention being proposed - assessments should therefore clearly outline the link between the needs or barriers of the Participant and the positive outcome that it is anticipated ESF assistance will generate.

The main focus of the pipeline is to assist individuals with multiple barriers to employment (and who are the furthest away from the labour market) to progress into or through employment - Lead Partners can therefore work with individuals who are ‘working age’ or around 6 months prior to the individual reaching ‘working age’. For the purposes of ESF, the ‘working age’ is the same as ‘the minimum school leaving age’ – since this is generally the earliest point that an individual can leave full-time education. Where someone is in full-time education, they should be recorded as ‘Economically Inactive’, regardless of whether they have a part-time job. | **Homeless or affected by housing exclusion** | In the absence of a national definition for "homeless or affected by housing exclusion" the term should be understood according to the ETHOS (European Typology of Homelessness and Housing Exclusion) definition which is derived from the physical, social and legal interpretation of what a ‘home’ means. It classifies the following four living circumstances as homelessness or extreme forms of housing exclusion:  
- Rooflessness (people living rough and people in emergency accommodation),  
- Houselessness (people in accommodation for the homeless, in women's shelters, in accommodation for immigrants, people due to be released from institutions and people receiving long-term support due to homelessness),  
- Insecure accommodation (people living in insecure tenancies, under threat of eviction or violence), and  
- Inadequate housing (living in unfit housing, nonconventional dwellings e.g. in caravans without adequate access to public utilities such as water, electricity or gas or in situations of extreme overcrowding). | Confirmation from Local Authority Housing service.

| **Long-term physical illness / condition**  | As the definition of the indicator in Annex C of the Commission guidance specifically refers to “registered disabled” it is recommended that persons considered to be disabled but who are not registered are counted as “Long-term physical illness / condition” and not as “Participants with disabilities”.  
“In this respect, it may be helpful to note the definition of the United Nations Convention on the Rights of Persons with Disabilities which considers disabled people to be those with “long-term physical, mental, intellectual, or sensory impairments which in interaction with various barriers may hinder their full and effective participation in society on an equal basis with others.””  
(European Commission Monitoring and Evaluation Guidance: Annex D)  
The Equality Act (2010) states that ‘long-term’ is defined as a period of 12 months or more.

| Looked after young person *** | Under the provisions of the Children (Scotland) Act 1995, 'Looked After Children' are defined as those in the care of their local authority. The majority will come into one of these categories:  
  - Looked after at home  
  - Looked after away from home  

http://www.gov.scot/Topics/People/Young-People/protecting/lac/about  

This definition also includes young people leaving care up to and including the age of 25. Children and Young People (Scotland) Act 2014

or  

Referral from recognised agency/service who can reasonably be considered to have an accurate knowledge of the participant’s circumstances. (DWP, Local Authority service, specialist services such as Barnardos, Scottish Throughcare and Aftercare Forum, etc.) |
| Low income employed ***      | “Income below 60% of the national median equivalised disposable income after social transfers.”  

(European Commission Monitoring and Evaluation Guidance: Annex D)  

The Scottish Government Analytical Services Division uses the following methodology:  

Total household income (after taxes, benefits and earnings of all household members) is equivalised to take account of household size e.g. a household with two adults and three children would need greater resources than a single adult. The poverty threshold is 60% of the UK median – a ‘reference household’ is a couple with no children.  

http://www.gov.scot/Resource/0045/00454875.pdf | A signed registration form is acceptable  

In addition, evidence should be retained to demonstrate that the Operation (e.g. a Project Key Worker) has assessed whether the information provided in the Registration Form is accurate e.g. copy of household income assessment by money adviser. Please note that it is not necessary to provide additional evidence of household income.  

(If the individual is in receipt of benefits, they may wish to provide the following also:  

Award letter detailing In-work benefits i.e. Working Tax Credits, Income Support (if less than 16 hours a week), Child Benefit, Housing Benefit).

Social Inclusion & Poverty - Target Groups

Please note that although Social Inclusion & Poverty Inclusion deals with households, participants should be registered and entered on EUMIS on an individual basis (where appropriate). Participants must be able to demonstrate that they are within one of the key target groups of Workless, Lone Parent or Low Income households. There is no requirement for individuals to have multiple barriers to employment, however, it is expected that many of the participants will have additional barriers / disadvantages (over and above the main target groups) and this information should still be collected on registration forms and MI Systems (along with the other common indicators).

Please note that a “household” is defined as:
- a housekeeping unit or, operationally as a social unit:
  - having common arrangements
  - sharing household expenses or daily needs
  - is a shared common residence

A household includes either one person living alone or a group of people, not necessarily related, living at the same address with common housekeeping i.e. sharing at least one meal per day or sharing a living or sitting room.”

*Note: The table is a summary of the definition and evidence required for the target group of Lone Parent Households. The definition provided includes the age criteria for 'adults' (18 years and over) and the specific age range (0-17 and 18-24 for inactive dependents) as well as the requirement for at least one parent to be present. The evidence required includes a signed registration form, evidence of the operation's assessment of the information provided, and documentation of the participant's circumstances (e.g., award letters for benefits). Additional evidence may include referrals from recognized agencies or services.*
ANNEX A: Acceptable Evidence (01/01/15 – 31/03/17)

The following should be noted for participant information collected in 2015 and 2016 (and up to 31 March 2017).

General
- Disclosure forms should not be used to evidence any information recorded in the Registration Form and must not be forwarded to the MA.
- Where documentation can be presented that provides a narrative about the Participant, the MA may accept this in lieu of evidence listed in the ‘Eligibility – Evidence’ section of the guidance. This will be considered on an individual basis and should only be used in exceptional circumstances.

Registration Form
- A Registration Form is a basic requirement to be able to evidence participant eligibility.
- The Registration Form must adhere to the information recorded within the Participant Guidance. In addition, forms should be signed by the participant as a minimum and, where possible, a Case Worker. The MA will accept unsigned Registration Forms where a narrative can be provided via other documents e.g. a signed Action Plan. The participant must be made aware that they are receiving ESF support and appropriate logos must be used.
- Lead Partners should consider whether using generic Registration Forms (e.g. forms that are not specifically created for ‘ESF’ or relate to another source of funding) meet the basic requirements detailed in the Participant Guidance. Lead Partners should note that it may be difficult e.g. to evidence additionality or to ensure that the Participant is aware they are receiving ESF funding where generic forms are used.
- Where errors are made on the Registration Form, e.g. the employment status of ‘Unemployed’ is selected when ‘Inactive’ is actually the correct status, a file note should be added outlining the error, the reason the error was made, how the error has been rectified and confirmation that the correct information has now been recorded on both the Lead Partners Management Information System and EUMIS.

Common Indicators

Disability or Long-term physical illness/condition
- The Participant Guidance makes clear that a signed registration form is acceptable for the participants registered in 2015 and 2016 and it is not necessary to provide an additional Project Worker assessment also.

Education
- A signed registration form is acceptable for Employability and Social Inclusion & Poverty only unless ‘Low Skilled’ is being used as one of the two main barriers to employment. Please note that where participants are funded under ESF Priority 3, Lead Partners must provide evidence to demonstrate the qualification levels of the individual at registration.
Employment Status

- **Employed** – the evidence should comply with the information recorded in the ‘Definitions’ section of the Participant Guidance.
- **Inactive** – a signed registration form is acceptable to evidence this status. Where participants have been registered in 2015 and 2016 the Participant Guidance makes clear that it is not necessary to provide an additional Project Worker assessment.
- **Long-term Unemployed** – the evidence should comply with the information recorded in the ‘Definitions’ section of the Participant Guidance. Where this is not possible, it must be demonstrated that a reasonable attempt has been made to evidence the ‘length of unemployment’. In cases where the Lead Partner is still unable to provide this evidence a signed registration form may be used together with the evidence of the attempts. The Lead Partner must also demonstrate that the individual is ‘Unemployed’ in line with the ‘Definitions’ section of the Participant Guidance.
- **Unemployed** – the evidence should comply with the information recorded in the ‘Definitions’ section of the Participant Guidance.

From Rural Areas

- The evidence should comply with the information recorded in the Participant Guidance. Where a reasonable attempt has been made to evidence the Participant’s ‘address’ and the Lead Partner is still unable to do so, a signed registration form is acceptable provided the postcode is in the correct format.

Homeless or affected by housing exclusion

- The evidence should comply with the information recorded in the Participant Guidance.
- ‘Sofa-surfing’ – a signed registration form is acceptable.

Living in a Jobless Household

- The Participant Guidance makes clear that a signed registration form is acceptable for the participants registered in 2015 and 2016 and it is not necessary to provide an additional Project Worker assessment.

Living in a jobless household with dependent children

- The Participant Guidance makes clear that a signed registration form is acceptable for the participants registered in 2015 and 2016 and it is not necessary to provide an additional Project Worker assessment.

Living in a single adult household with dependent children

- The Participant Guidance makes clear that a signed registration form is acceptable for the participants registered in 2015 and 2016 and it is not necessary to provide an additional Project Worker assessment.

Migrants, people with a foreign background, minorities (including marginalised communities such as the Roma)

- The evidence should comply with the information recorded in the Participant Guidance.
Other Eligibility Criteria

Address
- Evidence should comply with the information recorded in the Participant Guidance. Where this is not possible it must be demonstrated that reasonable attempts have been made to evidence the Participant’s ‘address’. In cases where Lead Partner is still unable provide this evidence, a signed registration form is acceptable along with evidence of the attempts provided the postcode is in the correct format.
- The MA may accept a Driving License (full or provisional) as evidence of address.

Age
- Employability and Social Inclusion & Poverty only: In addition to the acceptable forms of evidence highlighted in the Participant Guidance, for participants registered in 2015 and 2016 the MA will accept evidence of a National Insurance Number as proof that the individual is of ‘minimum working age’. Where the Lead Partner is unable to provide documentation confirming the National Insurance Number the MA will accept a signed registration form provided the National Insurance Number is recorded in the correct format. In addition, the MA will accept evidence that the individual is receiving benefits as proof of age. Please note that YEI participants must be between 16 and 29 years of age and Lead Partners must provide evidence to demonstrate the age of the participant at registration.

Legally able to reside (and, if relevant to the operation, work) in the UK.
- In addition to the acceptable forms of evidence highlighted in the Participant Guidance, for participants registered in 2015 and 2016 the MA will accept evidence of a National Insurance Number as proof that the individual is able to live and work in the UK. Where the Lead Partner is unable to provide documentation confirming the National Insurance Number the MA will accept a signed registration form providing the National Insurance Number has been recorded in the correct format. In addition, the MA will accept evidence that the individual is receiving benefits as proof of the right to reside and work in the UK.

‘Low Skilled’
- The evidence should comply with the information recorded in the ‘Eligibility – Evidence’ and ‘Definitions’ section of the Participant Guidance. Where a reasonable attempt has been made to evidence the individual’s qualifications and the Lead Partner is still unable to do so this information can be evidenced by a signed registration form.

How to use this table – including screenshot evidence and joint declarations.

This table sets out evidence that can be used to verify eligibility (in relation to labour market status) for people in receipt of Universal Credit and who wish to join ESF.

It should be remembered that **eligibility relates to the date the individual joins the ESF operation** – so the dates used in any evidence should indicate that they at least cover the date that the individual joined. UC benefits are often paid on a monthly cycle – so it may take some time before any receipt of benefit appears on the individual’s UC account. It is possible that an individual applying for ESF is genuinely unemployed – but this is not fully reflected in the account / latest screenshot because they have only recently become unemployed. In this instance, in the absence of any other available evidence, a brief record of the individual’s personal circumstances (including details of their unemployment) be kept alongside a signed self-certification and that the relevant UC screenshot evidence be collected as soon as possible after it appears in the account.

With regards to screenshots evidence, physical hard copies should be printed-off and countersigned / dated by the individual participant and Project Worker as part of a joint declaration.

Background Information on UC Online Accounts

Universal Credit Online accounts help individuals:

- keep a record of the actions they have undertaken to prepare or look for work;
- communicate with work coaches (messages can be sent via the system – and individuals can read their work coaches replies);
- report a change of circumstance;
- provide details about a health condition or disability;
- see details on how much UC benefits payments;
- record (claimant) commitments – what the individual has agreed to do.

UC Online Account: ‘To-do list’

Things that an individual need to do whilst applying for / on Universal Credit are set out in the ‘to do’ list section of the UC online account. These could be things that need to be done to complete a claim or things the individual has agreed to do as part of their claimant commitment.
Tasks that have been completed in the `to-do` list are moved from the `to-do` list to the `journal`.

**UC On-line Account: `The Journal`**

The journal keeps a record of everything that the individual has done whilst claiming Universal Credit.

The journal can be used to send / receive messages to work coaches and a record of the online conversation are stored on the journal.

Individuals should use the journal to tell their work coach of actions they have taken such as: job-applications; job interviews; and any training undertaken. CVs can also be stored on the journal.

**UC On-line Account: Payments**

The online account will show details of Universal Credit payments – including an explanatory breakdown of payments.
Payments: Contains a monthly statement, detailing UC payments and details of any earnings.

My commitments: Contains the latest claimant commitment.

Journal: Details of activities undertaken and changes declared.

Your next payment is due in 12 days.

How much you'll get will depend on your circumstances from 1 July 2018 to 31 July 2018.

Your commitments

This is what you've agreed to do in order to receive Universal Credit.

It's important that you understand that in return for your Universal Credit payment you're agreeing to look for extra work.

You'll need to do everything you reasonably can to increase your earnings. Your work coach will help you agree your commitments.
Example Commitment for:

- Working enough
- No work related requirements

My commitments

Accepted on 26 July 2018.

I'll use my online account to report changes to my circumstances.

Using my online account

I'll sign in to my online account often to:

- complete all activities in my to-do list
- report changes to my circumstances promptly, including changes to work

If I can't get online, I'll report any changes by calling 0800 328 5644 (Textphone: 0800 328 1344).
**Example Commitment for: Light Touch**

Glossary of some of the UC terms used in Annex B

- **Universal Credit Personal Account – Full Service**
  
  Universal Credit full service is available to all claimants in certain areas of GB. Claimants will have an [online UC account](#) to manage their claim. Eventually, all claimants will have access to full service / account.

- **Conditionality Group**
  
  A claimant’s circumstances will place them in a particular ‘conditionality’ group and an associated labour market regime which defines the level of support they can expect to receive, and the framework of what can be expected of them.

  There are 4 conditionality groups:
  - All work related requirements
  - Work preparation requirements
  - Work-focused interview requirements only
  - No work-related requirements

- **Labour market regime**
  
  On making a new claim, every claimant is automatically allocated to a labour market regime based on their individual and household circumstances. The regime that a claimant is allocated to is reassessed as circumstances change.

- **Claimant Commitment**
  
  Claimants are expected to complete and accept a tailored `commitment' which sets out what they have agreed to do in order to prepare for and look for work – or increase their earnings if they are already working.
• **AET – Administrative Earnings Threshold**

The AET has been introduced to help highlight those claimants with no income, or on a very low income below AET, so they can receive the most intensive support. It is set at individual level and at household level.

• **CET – Conditionality Earnings Threshold**

The Conditionality Earnings Threshold (CET) ensures that claimants earnings above a certain level will not be asked to carry out work-related activity. The CET is calculated on an individual basis, by multiplying the National Minimum Wage (NMW) by the claimant’s expected hours. Individuals earning above the CET threshold are placed in the ‘working enough’ regime.

• **MIF – Minimum Income Floor**

The MIF is an assumed level of earnings for a gainfully self-employed claimant, and is based on the earnings the DWP expect a claimant with similar circumstances to achieve. It is designed to encourage and incentivise individuals to increase their earnings through developing their business, and is applied if earnings are below that level (and the individual is not in a business start-up period). Individuals who are subject to MIF will not be subject to work search or availability requirements, allowing them to concentrate on making a success of their business and maximising their returns up to and beyond the level of the MIF.

• **Work Capability Assessments (WCA) / Limited Capability Work Related Assessment (LCWRA)**

Universal Credit claimants may be asked to attend a WCA to find out if their health condition or disability affects their ability to work. A decision-maker will use the outcome of the WCA to decide if the claimant:

- is fit for work
- has limited capability for work – this means the claimant will not have to look for work, but will need to take steps to prepare for work
- has limited capability for work and work-related activity – this means the claimant will not be asked to look for or prepare for work
