

**ANNEX E - CONSULTATION QUESTIONS**

NUTS boundaries are used for reporting of regional statistics to Eurostat and those statistics are used to inform regional policy. The Scottish Government is proposing to make minimal changes beyond aligning existing NUTS boundaries to Local Authority Boundaries.

I do not agree with the proposal to realign Cumbrae and Arran with South West Scotland. The idea that two islands should be separated from the rest does not make sense – the socio-economic, cultural and historical circumstances of these island has much in common with the Highlands and Islands region in which it currently resides. In South West Scotland, circumstances are different. I would be very concerned to hear this was being overlooked for the wrong reasons. The implications for Cumbrae would be disastrous given the fragility of this island, which is increasingly threatened by closure of facilities and employers.

Eurostat have requested we consider merging the Highlands & Islands with North Eastern Scotland to create a new area that's closer to the recommended population thresholds. The Scottish Government plan to request that these areas should be allowed an exemption under Article 3 (5) of the NUTS Regulations, i.e. because of particular geographical, socio-economic, historical, cultural or environmental circumstances, especially in the islands and the outermost regions.

Eurostat have suggested that the Scottish Governments proposals for NUTS 3 should include merging Moray with Argyll & Bute Local Authority to create an area that meets their recommended population ranges.
