

CONSULTATION QUESTIONS

NUTS boundaries are used for reporting of regional statistics to Eurostat and those statistics are used to inform regional policy. The Scottish Government is proposing to make minimal changes beyond aligning existing NUTS boundaries to Local Authority Boundaries.

Do you have any comments on the Scottish Governments proposals for NUTS 2 regions?

The proposal to include the whole of Argyll and Bute within the Highlands and Islands NUTS 2 area is clearly a sensible change, as the area is not included in for instance the Glasgow & Clyde Valley SDP area or a range of other administrative boundaries.

Do you have any comments on the Scottish Governments proposals for NUTS 3 regions?

Equally removing Helensburgh and Lomond from the area covering East and West Dunbartonshire, makes sense and addresses an anomaly which has existed since the last Local Government Reorganization.

Eurostat have requested we consider merging the Highlands & Islands with North Eastern Scotland to create a new area that's closer to the recommended population thresholds. The Scottish Government plan to request that these areas should be allowed an exemption under Article 3 (5) of the NUTS Regulations, i.e. because of particular geographical, socio-economic, historical, cultural or environmental circumstances, especially in the islands and the outermost regions.

Please provide any evidence in favour of or against an exemption under Article 3 (5) of the NUTS Regulations for Highlands & Islands and North Eastern Scotland NUTS 2 areas?

No Comment

Eurostat have suggested that the Scottish Governments proposals for NUTS 3 should include merging Moray with Argyll & Bute Local Authority to create an area that meets their recommended population ranges.

Please provide any evidence in favour of or against an exemption under Article 3 (5) of the NUTS Regulations for the proposed Moray and Argyll & Bute NUTS 3 areas?
