

CONSULTATION QUESTIONS

NUTS boundaries are used for reporting of regional statistics to Eurostat and those statistics are used to inform regional policy. The Scottish Government is proposing to make minimal changes beyond aligning existing NUTS boundaries to Local Authority Boundaries.

Do you have any comments on the Scottish Governments proposals for NUTS 2 regions?

We would generally support the proposal to amend the NUTS 2 regions to match with local authority boundaries

Do you have any comments on the Scottish Governments proposals for NUTS 3 regions?

We would generally support the proposal to amend the NUTS 3 regions to match with local authority boundaries.

Eurostat have requested we consider merging the Highlands & Islands with North Eastern Scotland to create a new area that's closer to the recommended population thresholds. The Scottish Government plan to request that these areas should be allowed an exemption under Article 3 (5) of the NUTS Regulations, i.e. because of particular geographical, socio-economic, historical, cultural or environmental circumstances, especially in the islands and the outermost regions.

Please provide any evidence in favour of or against an exemption under Article 3 (5) of the NUTS Regulations for Highlands & Islands and North Eastern Scotland NUTS 2 areas?

We would agree with the Scottish Government position and have no further evidence to offer.

Eurostat have suggested that the Scottish Governments proposals for NUTS 3 should include merging Moray with Argyll & Bute Local Authority to create an area that meets their recommended population ranges.

Please provide any evidence in favour of or against an exemption under Article 3 (5) of the NUTS Regulations for the proposed Moray and Argyll & Bute NUTS 3 areas?

We would agree with the Scottish Government view and can see no merit in a non-contiguous NUTS 3 area.
