- Table 3: The word “will” rather replace the word “should” to ensure principles are upheld.

- All four options, if remaining true to the principles of this act and Human

Rights, should be offered to all people regardless of the reason for their care need. Extra support may require to be provided to help the access and manage SDS and this support could be funded by SDS. Legislation could be used to ensure individuals rights are upheld if problems arise. Person centred approach is critical to supporting people with drug and alcohol issues, and SDS would be an ideal vehicle for true person centred services to be provided.

Can you identify any financial costs or benefits to individuals, local authorities, health boards, providers or any other person or organisation affected by the guidance. In considering the costs and benefits you may wish to consult the Business Regulatory Impact Assessment published for the Social Care (Self-directed Support) (Scotland) Act available at the following hyperlink:

- i) age;**
- ii) disability**
- iii) gender;**
- iv) lesbian, gay, bisexual and transgender;**
- v) race, and;**
- vi) religion and belief**

Some advice to help you to answer this question - By “equality impacts” we mean whether or not the guidance will affect certain groups in a positive or a negative way.

In considering the impacts you may wish to consult the Equality Impact Assessment published for the Social Care (Self-directed Support) (Scotland) Act available at the following hyperlink:

Consultation Questionnaire

Draft Regulations

Consultation Questions

Question 1: What are your views on Part 2 of the draft Regulations (calculation, payment and termination of direct payments)?

Comments

Question 2: What are your views on Part 3 of the draft Regulations (appropriate/inappropriate circumstances for the employment of close relatives)?

Comments

Care should be taken to remain true to principles and "exceptional circumstances" MUST be considered. For example, where another service cannot be found due to rurality, or due to a person's special knowledge of the person in receipt of SDS.

Question 3: What are your views on Regulation 11 which deems individuals who are placed under a variety of criminal justice orders to be ineligible to receive direct payments?

For example, is it appropriate to impose the exclusions listed in Regulation 11? Are there any persons not listed in regulation 11 to whom it would be inappropriate to offer the option of a direct payment?

Comments

Again do people under criminal justice orders deserve any less help or person centred help than anyone else. Perhaps SDS could be viewed as an essential tool in rehabilitation of people on Orders.

Question 4: What are your views on restricting access to direct payments for those who are homeless, those who are fleeing domestic abuse or those who require support in relation to drug or alcohol addiction?

Comments

Again perhaps extra support needs to be funded to make this support possible, but again true person centred support could enable people move on in their lives.

Question 5: What are your views on restricting access to direct payments in relation to the provision of long-term residential care?

This question was raised during the initial consultations on a draft SDS Bill. The Scottish Government would like to invite detailed views before making a final decision prior to the laying of the Regulations before the Scottish Parliament. Should the restriction be removed from the final regulations, thereby allowing direct payments for residential care? Or should it be retained? Please provide reasons as to your support or opposition to requiring authorities to provide direct payments for residential care.

Comments

Individuals with a specific support need in residential care find it very difficult to access support for individuality eg 1 individual in a residential care setting say for cultural reasons wishes to partake an activity in the local community or beyond. Existing funding methods make it very difficult for a person to meet their needs and a DP may enable this to happen.

Question 6: The draft Regulations do not specify circumstances where the direct payment option should be unavailable for care and support to children/families. *Should* there be specific restrictions on choice of support in relation to children/families support (i.e. support provided under Section 22 of the Children (Scotland) Act 1995) and should these restrictions apply to the direct payment only, or to other options as well?

Comments

No.

Question 7: Do you have any further comments on the draft Regulations?

For example, are there any gaps in terms of the topics covered by the Regulations? Are there any major changes that you would recommend? Are there any topics that are more appropriate for statutory guidance rather than Regulations?

Comments

The importance of co-production could be emphasised as there is a difference between collaboration and co-production and without this the power imbalance that people in receipt of services remain the same.
