

Consultation Response on Self Directed Support Regulations and Guidance

- Founded in 1980, Cornerstone has grown rapidly to become one of Scotland's largest charities and voluntary sector social care organisations, employing over 1600 staff.
- Cornerstone provides a wide range of care and support services to over 2000 adults and children across 20 local authority areas in Scotland.

Cornerstone's aim is "to enable the people we support to enjoy a valued life".

We have been active members of the Coalition of Care and Support Providers in Scotland for many years and were happy to be involved in the consultation response which was provided on behalf of their members.

In summary, we welcomed the opportunity to be involved in this consultation on the above and are happy that the CCPS response reflects the views of Cornerstone

Thank you for the opportunity to comment.

Hazel Brown
Regional Director
