

1a. The See Hear Strategy outlines a Care Pathway. Is it appropriate?

yes

1b. Does the Care Pathway meet your needs?

No because it doesn't include national services which I access all the time.

2a. The strategy outlines Principles and Service-users' expectation (pages 4 and 5) Do you agree that these are vitally important?

~~Yes~~ I can't find them

2b. Do you think any principles or expectations have been missed out?

I can't find them

3a. The strategy identifies Areas for Action and Recommendations. Do you agree with these?

Training to GPs, Heathworkers, Consultants, schools & colleges, youth groups by deafblind people I agree with sharing information

3b. Do you think there are other Areas for Action or Recommendations which should be included

All areas should be equal i.e. Glasgow & Aberdeen all have similar services available to deafblind people.

4. Do you have any comments on current sensory impairment services?

They should work together

5. What difference will the See Hear strategy make to your life?

Make accessing information more difficult

7. Any comments you wish to add which are not covered by the previous questions?
