DRAFT REGULATIONS AND ORDERS RELATING TO THE PUBLIC BODIES (JOINT WORKING)(SCOTLAND) ACT 2014

Are there any additional matters that should be included within the regulations?

Yes

No

If yes, please suggest:

The Joint Integration Board should be involved in Housing Policy as this would help to ensure that the proper housing was being built/let/adapted especially for elderly people being discharged from hospital.

Are there any further comments you would like to offer on these draft Regulations?

1. Regarding outcomes, strong robust monitoring should be imposed to ensure that early discharge from acute hospitals are the norm and every day that a patient has to wait for a "new" discharge package should be alerted to the Board.

The Joint Integration Board should be involved in Housing Policy as this would help to ensure that the proper housing was being built/let/adapted especially for elderly people being discharged from h.
