No

4. If yes, please suggest:

~~5. Are there any further comments you would like to offer on these draft~~

Our suggestions relate to the outcomes proposed. We would like to see a strengthening of the outcome measures in relation to working in partnership with service users and carers to buttress co-creation; for example: 'Health and Social Care Services work in partnership with their local populations to ensure an appropriate match of patients and carers to services offered in relation to assessed needs: service users and carers are actively involved in the planning, commissioning, design, delivery and evaluation of services'.

5.

We would like to see:

- (i) more emphasis on strong support for mental health and wellbeing at all levels of need,
- (ii) continued support for access to evidence-based psychological therapies based on needs assessed in the local population.
- (iii) Powerful anti-stigma/anti-discrimination statements especially about mental health e.g as employers we adopt practices which support people with mental health issues to work effectively where possible
