E-cigarettes – use in enclosed public spaces

17. Do you believe that the Scottish Government should take action on the use of e-cigarettes in enclosed public spaces?

Yes ☒ No ☐

18. If you answered 'yes' to Question 17, what action do you think the Scottish Government should take and what are your reasons for this?

In line with tobacco products there should be a ban on "smoking" in public places. There are a number of reasons for such a ban to be imposed, firstly it ensures a consistent approach and thereby reinforces the fact that the use of these products is considered to be an issue of public safety / health. Secondly given that some products produce "smoke" it will make it much easier for the management of the space to control and monitor.

19. If you answered, 'no' to Question 17, please give reasons for your answer.

20. Are you aware of any evidence, relevant to the use of e-cigarettes in enclosed spaces, that you think the Scottish Government should consider?

Equality Considerations

43. What issues or opportunities do the proposed changes raise for people with protected characteristics (age; disability; gender reassignment; race; religion or belief; sex; pregnancy and maternity; and sexual orientation)?

44. If the proposed measures are likely to have a substantial negative implication for equality, how might this be minimised or avoided?

45. Do you have any other comments on or suggestions relevant to the proposals in regard to equality considerations?

Business and Regulatory Impacts Considerations

46. What is your assessment of the likely financial implications, or other impacts (if any), of the introduction of each of these proposals on you or your organisation?

Given that many businesses that sell e-cigarettes may not have been involved in age restricted products there is likely to be a cost of implementation for both businesses and regulators. Until an assessment of the numbers of premises involved in the sale of these products is conducted it is not possible to calculate nor estimate what the financial implications would be.

47. What (if any) other significant financial implications are likely to arise?

48. What lead-in time should be allowed prior to implementation of these measures and how should the public be informed?

There should be a public, including business, information campaign advising of the changes and then a period of at least 6 months after the legislation is passed.

49. Do you have any other comments on or suggestions relevant to the proposals in regard to business and regulatory impacts?

As a party to the World Health Organization's Framework Convention on Tobacco Control (FCTC), Scotland has an obligation to protect the development of public health policy from the vested interests of the tobacco industry. To meet this obligation, we ask all respondents to disclose whether they have any direct or indirect links to, or receive funding from, the tobacco industry. We will still carefully consider all consultation responses from the tobacco industry and from those with links to the tobacco industry and include them in the published summary of consultation responses.
