Identification

Question 22: Should there be **no** legislative provision for GPs or local authorities to maintain a Carers Register in order to support the identification of carers?

Yes

No

Comments: It is good practice for GPs to maintain a record of carers and this is increasingly happening. There is concern that legislation in this area could have unforeseen results. RCGP has campaigned for recognition of the reducing % share of NHS funding that is available to GP. Despite this GPs are ever busier and much of the new activity is being focused on patients with complex and challenging problems. I would not be appropriate to prioritise a carers register, over and above other concerns.
