2. OVERVIEW OF THE IMPLEMENTATION OF THE OPERATIONAL PROGRAMME (ARTICLE 50(2) AND 111(3)(A) OF REGULATION (EU) NO 1303/2013)

2.1. Key information on the implementation of the operational programme for the year concerned, including on financial instruments, with relation to the financial and indicator data.

Key themes and generic issues impacted across all the priority themes are summarised below:

- The financial performance across the ERDF programme continues to face challenges. Whilst the overall level of financial commitment across all Strategic Interventions and Operations within the programme is high, the performance of the programme in terms of the claims paid remains a continuing cause for concern. However both the Managing Authority and Lead Partners collaborated closely in efforts to improve the flow of claims through the system.
- Compliance continues to cause challenges to Lead Partners and the Managing Authority, across
 all priority areas. The complexity and robustness of documentary information required to fully
 verify claims is one aspect impacting on Lead Partners and the Managing Authority. Lack of
 robust, and appropriate, evidence to support the claim has also impacted on delivery of
 operations and the number of claims approved.
- It is also acknowledged that obtaining the required evidence is challenging, procurement documentation for example. Lead Partners have faced significant difficulties obtaining data and evidence to verify claims but have continued to make every effort to do so.
- Resource, the complexity and resource in terms of processing claims continues to challenge both Lead Partners and the Managing Authority. The verification process is complex and time consuming for all involved in the process. These challenges have resulted in delays in implementing strategic interventions and operations, impacting on physical and financial targets.
- Despite the substantial challenges facing Lead Partners and the Managing Authority, projects, outputs and services continue to be delivered across Scotland.

To support Lead Partners with the delivery of operations, the Managing Authority is providing advice and support to Lead Partners, working collaboratively to agree realistic timescales and milestones, undertake system and verification checks and to support, and encourage, Lead Partners to upload all eligible claims onto EUMIS.

3. IMPLEMENTATION OF THE PRIORITY AXIS (ARTICLE 50(2) OF REGULATION (EU) NO 1303/2013)

3.1. Overview of the implementation

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant
		problems and steps taken to address these problems
1	Strengthening Research, technological development and innovation	The two Lead Partners for this priority, Scottish Enterprise (SE) and Highlands & Islands Enterprise (HIE), are working with SMEs to support innovation to strengthen economic development. After some initial delays due to Lead Partners being unwilling to commence activity in the absence of formal offer letters this activity is now well underway. However, this is not yet reflected in performance reports as Lead Partners have been slower in submitting claims. In general Lead Partners have under-estimated the resource required to meet the compliance requirements of the Programme both in terms of evidencing expenditure and outputs. This has led to Lead Partners taking longer to evidence the activity that has been delivered and therefore it has taken longer for claims to be submitted and longer for the Managing Authority to verify expenditure and outputs in submitted claims before these can be paid. Although commitment levels are slightly below what we would be expected at this stage there has been significant work undertaken with Lead Partners during 2019 to address this situation. In particular an Innovation Challenge Fund has been approved with £20.9m ERDF and therefore commitment levels are now much higher and full commitment of this Priority is expected. Due to the slowness of claims being submitted financial performance in general is lagging behind where it should be at this stage in the Programme but the Managing Authority is working with Lead Partners to ensure that the submission of claims can be speeded up. Similarly the achievement of physical performance targets is also lagging behind and again this is due to the slowness of claims.
2	Enhancing access to, and use and quality of ICT	The Operational Programme originally envisaged two key elements under this priority - improved access to high speed fibre broadband, which has now been addressed by the Scottish Government and mobile broadband for areas within the Highlands & Islands that would not be serviced by the standard commercial and market driven roll out of services. This would improve access to mobile broadband, particularly in the more remote and rural parts of the region, thereby creating and enhancing access to technology and digital services for communities, businesses and visitors. Throughout 2018 and 2019 Scottish Government looked at a number of alternatives, unfortunately, with no success. The decision was taken to withdraw the operation as this would allow the funds to be re-cycled within the Highlands & Islands. The start of 2019 saw a considerable number of sites identified for mobile infill, initially there was a down turn in operator interest. However, due to the significant work carried out by Scottish Futures Trust and Scottish Government to develop a programme of work, sites have been commissioned and are now progressing well, operator interest has increased and there has been significant capital expenditure committed. The operation results

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems and steps taken to address these problems
		and outputs will not be realised until the end of the programme.
3	Enhancing the Competitiveness of SMEs	Business growth, leadership and internationalisation support is being delivered across all areas of Scotland. This is being delivered through the Enterprise Agencies, Scottish Enterprise (SE) and Highlands & Islands Enterprise (HIE), and Local Authorities delivering additional Business Gateway activity. Although some Lead Partners commenced the business competitiveness delivery in 2015 this is not yet reflected in the performance reports. There has been some caution for Lead Partners claiming support to enterprises and they were not including all support delivered within submitted claims as they were not confident about the evidence they were required to demonstrate resulting in performance and spend being much lower than expected by this stage in the Programme. The Managing Authority has worked with Lead Partners to ensure that they are aware of the evidence requirements. This is now starting to have an impact as claims are starting to include more activity. However performance does still lag behind and this will take a while to improve due to the initial delays. Financial commitment levels for this Priority are as expected at this stage of the Programme and full commitment is expected. Expenditure targets are showing good progress for this stage in the Programme. Activity targets are lagging behind slightly for the More Developed region. However, now that Lead Partners are more confident with regard to the evidencing of outputs performance in this area should start to improve.
4	Supporting a shift towards a low carbon economy in all sectors	The ERDF Programme includes a number of Investment Priorities supporting the shift to a Low Carbon Economy. The Scottish Government lead on development, demonstrating and piloting of new technology, or innovative uses of existing technology, by public bodies and SMEs. Support under this thematic objective is non-financial and/or grant support to shift to a Low Carbon Economy and for Circular Economy support to SMEs. Progress under this priority continues to be good in terms of the range of activity supported. Under this Thematic Objective Phase 2 applications have seen approvals for additional spend for some lead partners and for others approved spend from Phase 1 spread over Phase 1 and Phase 2 as activity and spend has been slower than expected. As part of this re-profile and through experience gained from Phase 1 Lead Partners have adjusted achievements/outputs with some increasing and some being reduced, the initial achievements/output targets were set based on estimates in Phase 1. There remains a lag between delivery and claims: spend and outputs reported tend to understate actual progress at the project level. As activity and value of claims have increased Lead Partners have been slower in submitting claims. In general Lead Partners have under-estimated the resource required to meet the compliance requirements of the Programme both in terms of evidencing expenditure and outputs. This has led to Lead Partners taking longer

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems and steps taken to address these problems
		to evidence the activity that has been delivered and therefore it has taken longer for claims to be submitted and
		longer for the Managing Authority to verify expenditure and outputs in submitted claims before these can be paid.
5	Preserving and protecting the environment and promoting resource efficiency	The Natural and Cultural Heritage Fund, led by Scottish Natural Heritage launched at the start of 2019. The Fund will support opportunities to conserve, protect and promote natural & cultural heritage assets in the Highlands & Islands. It was anticipated that we would see the reporting of costs and outputs filter through towards the end of 2019. However, due to the stringent project selection and assessment process, it was towards the end of 2019 that the nine successful projects were notified. Therefore, we will start to see the reporting of costs and outputs towards the end of 2020 and beyond. Due to the level of interest in the fund Scottish Natural Heritage were successful in obtaining additional ERDF funding to support a further five projects.
		Scottish Natural Heritage also lead on Green Infrastructure and projects funded through the challenge funds, which continues to progress well. Despite good physical progress, the rigorous pre-claim check carried out by the Lead Partner has resulted in a delay in claim submission, however, by working closely with the Lead Partner we have ensured that claims are now being submitted timeously and advances in both expenditure and outputs are being achieved and recorded.
		The final element, Resource Efficiency which is led by Zero Waste Scotland, continues to perform well, there was a slower start in the early years of the programme than initially envisaged. This has picked up with ZWS meeting their non-financial achievements/outputs in Phase 1 of the programme, their grant support achievements however, have been less than expected. ZWS carried out a re-profile for Phase 2.
6	Technical Assistance	The TA priority axis funds the funds the functions of the MA and the AA. Within the MA, this supports three strands of activity: • Three thematic teams (Smart, Sustainable and Inclusive) have day-to-day responsibility for management of approved operations. The teams work closely with the lead partners responsible for delivering operations under their area of the programme. This includes assessing and making proposals on applications for funding to the MA Approval Panel, comprised of team leaders across the MA; checking, verifying and paying claims for funding; and carrying out monitoring visits in line with the Monitoring and Control System. • The Programme Performance Team is responsible for carrying out quality checks on approved operations and claims; managing the EUMIS IT System; and maintaining and reviewing the Monitoring and Control System. • The Governance and Stakeholder Engagement Team supports the management of the programme, including as secretariat for the Programme Monitoring Committee and co-ordinating preparation and submission of the

	Implementation Reports; and delivery of the Communications strategy and Monitoring and Evaluation Strategy.

3.2. Common and programme specific indicators (Article 50(2) of Regulation (EU) No 1303/2013)

Priority axes other than technical assistance

Priority axis	1 - Strengthening Research, technological development and innovation
Investment	1b - Promoting business investment in R&I, developing links and synergies between enterprises, research and development centres and the higher education sector, in
Priority	particular promoting investment in product and service development, technology transfer, social innovation, eco-innovation, public service applications, demand
	stimulation, networking, clusters and open innovation through smart specialisation, and supporting technological and applied research, pilot lines, early product validation
	actions, advanced manufacturing capabilities and first production, in particular in key enabling technologies and diffusion of general purpose technologies, as well as
	fostering investment necessary for strengthening the crisis response capacities in health services

4. SYNTHESIS OF THE EVALUATIONS

Synthesis of the findings of all evaluations of the programme that have become available during the previous financial year, with reference of name and reference period of the evaluation reports used

The current Monitoring and Evaluation strategy was approved in 2020 and is published onlin
(https://www.gov.scot/publications/esif-monitoring-evaluation-strategy-2014-2020/).

Evaluation to Date

To date, three evaluations have been carried out on the programme:

- Ex-ante Evaluation
- Both Youth Employment Initiative Evaluations
- Early mid-term review

Ex-ante Evaluation

The formal ex-ante evaluation was completed in November 2016 (https://www.gov.scot/publications/esifformal-evaluations/) ahead of the approval of the programmes. The work included the Equalities Impact Assessment, Strategic Environmental Assessment and Ex-ante Assessment of Financial Instruments. This has informed the development and implementation of the Ops and the selection of operations within each Programme.

Youth Employment Initiative

The first evaluation was completed in 2015 and the second in December 2018 (https://www.gov.scot/publications/yei-evaluation-report-2014-2020/). The most recent evaluation did not seek to provide recommendations, but identified a number of lessons learned or wider points for consideration.

The report was considered by the Youth Employment Initiative Territorial Committee when it met on 9 March 2019. The committee agreed with the report and noted five points in particular:

- The need for clear guidance on compliance from the outset, noted in the evaluation at points 5,6 and 8.
- Difficulty in gathering evidence of long-term results.
- The need to upskill small employers with regards to the compliance regime.
- Issues with online banking and the information that is presented/accepted.
- Different compliance regimes with other programmes (e.g. Scottish Employer Recruitment Initiative), noted in the evaluation at points 1 and 2.

Based on the evaluation, and ongoing stakeholder engagement work, the MAL

- Will note the need to be aware of the challenges of timing and aligning European and national policy initiatives in designing future programmes.
- Have taken into account the need to minimise the time from application submission to formal offer of grant to recipients in the 2018 MCS review.
- Have reviewed and revised processes for reviewing, revising and publishing guidance to lead partners, and revisions and support for the EUMIS IT system.
- Have introduced regular "lead partner events" to increase dialogue with lead partners.
- Are engaging with lead partners to ensure guidance and rules on evidence requirements are clear and appropriate.

Alongside this, we will engage with lead partners to confirm the final outcomes of the programmes and identify good examples of the support provided and publicise these in line with the Communications

Strategy.
Early Mid-term Evaluation
In November 2016, the Joint Programme Monitoring Committee (JPMC) agreed to bring forward the midterm review and the recommendations were agreed by the JPMC at the June 2017 meeting (https://www.gov.scot/publications/jpmc-minutes-june-2017/).
The recommendations agreed were to:
 Request changes to both the ERDF and ESF programmes Allocation the additional H&I allocations for ERDF to Priority 5 (Protecting the Environment) and ESF for Priority 3 (Investing in Education, Training and Vocational training) Request an increase in the Programme co-finance rates Change to National Rules to allow apportioned staff costs following confirmation with Audit and EC Consider eligible opportunities for digital skills, employability, mental health and financial engineering for social enterprises and, where appropriate, seek new interventions thereafter.
Based on this, revised Operational Programmes were submitted and agreed by both DG Emploi and DG Regio in late 2017.
Forthcoming Evaluations
The Monitoring and Evaluation Strategy was reviewed during 2020 and approved through Written

Procedure by the Programme Monitoring Committee (PMC) in March 2020. The identified evaluations have not been taken forward due to the impact of Covid-19.

6 ISSUES AFFECTING THE PERFORMANCE OF THE PROGRAMME AND MEASURES TAKEN (ARTICLE 50(2) OF REGULATION (EU) NO 1303/2013)

(a) Issues which affect the performance of the programme and the measures taken

The main issues affecting performance of the ERDF Programme relate to the complexity of the compliance requirements and the additional evidencing required, particularly around the provision of support to SMEs in order to meet programme requirements. This has impacted on the lead partners ability to submit timeous claims. The Managing Authority has been working closely with Lead Partners to ensure that the compliance requirements are fully understood and Lead Partners are now feeing more confident with regard to evidencing outputs.

Programme Suspension

In May 2019 the ERDF programme was placed in "pre-suspension" due to audit issues. Subsequently the programme moved to full suspension in February 2020.

In the period of pre-suspension the Managing Authority sought to reassure Lead Partners that it would continue to pay duly verified claims and that the programme, unlike the situation with respect to the ESF Programme, did not need to convert to adopting a Standard Scale of Unit Costs approach.

(b) An assessment of whether progress made towards targets is sufficient to ensure their fulfilment, indicating any remedial actions taken or planned, where appropriate.

Some lead partners have assessed the performance of their operation and working with their Portfolio and Compliance Manager (PCM) have submitted change requests to revise their expenditure and outcomes downwards. These change requests have been reviewed, discussed and approved by the Managing Authority Approval Panel (MAAP).

The Managing Authority continues to work with Lead Partners to ensure that claims can be submitted as quickly as possible and that outputs are recorded on the EUMIS system. In addition to quarterly lead partner events regularly cover compliance requirements. The Growth teams regularly hold portfolio meetings with lead partners to discuss issues such as progress with performance and verification standards. In addition Lead Partner meetings relevant to the respective teams are held on a quarterly basis to discuss performance management and address common issues and concerns.

7. CITIZEN'S SUMMARY

A citizen's summary of the contents of the annual and the final implementation reports shall be made public and uploaded as a separate file in the form of annex to the annual and the final implementation report

You can upload/find the Citizen's summary under General > Documents in the SFC2014 application

I. Identification of the programme and priority or measure from which supportunds is provided (Article 46(2)(a) of Regulation (EU) No 1303/2013)		
1. Priority axes or measures supporting the financial instrument, including fund of funds, und the ESI Fund programme.		
1.1. Priority axis supporting the financial instrument under the ESI Fund programme	1 - Strengthening Research, technological development and innovation

PART B

REPORTING SUBMITTED IN YEARS 2017, 2019 AND FINAL IMPLEMENTATION REPORT (Article 50(4), 111(3) and (4) of regulation (EU) No 1303/2013

- 11. ASSESSMENT OF THE IMPLEMENTATION OF THE OPERATIONAL PROGRAMME (ARTICLES 50(4) AND 111(4) OF REGULATION (EU) NO 1303/2013)
- 11.1. Information in Part A and achieving objectives of the programme (Article 50(4) of Regulation (EU) No 1303/2013)

Priority axis 1 - Strengthening Research, technological development and innovation
Priority axis 2 - Enhancing access to, and use and quality of ICT
Priority axis 3 - Enhancing the Competitiveness of SMEs
Priority axis 4 - Supporting a shift towards a low carbon economy in all sectors
Priority axis 5 - Preserving and protecting the environment and promoting resource efficiency
Priority axis 6 - Technical Assistance
11.2. Specific actions taken to promote equality between men and women and to prevent discrimination, in particular accessibility for persons with disabilities, and the arrangements implemented to ensure the integration of the gender perspective in the operational programme and operations (Articles 50(4) and 111(4), second subparagraph, (e) of Regulation (EU) No 1303/2013)
11.3. Sustainable development (Articles 50(4) and 111(4), second subparagraph, (f) of Regulation (EU) No 1303/2013)
11.4. Reporting on support used for climate change objectives (Article 50(4) of Regulation (EU) No 1303/2013)
Priority Amount of support to be used for climate Proportion of total allocation to the

axis	change objectives (EUR)	operational programme (%)
4	80,775,369.86	67.54%
5	25,845,348.99	50.47%
Total	106,620,718.85	23.57%

11.5. Role of partners in the implementation of the programme

- 12. OBLIGATORY INFORMATION AND ASSESSMENT ACCORDING TO ARTICLE 111(4), FIRST SUBPARAGRAPH, (a) AND (b), OF REGULATION (EU) NO 1303/2013
- 12.1. Progress in implementation of the evaluation plan and the follow-up given to the findings of evaluations

				1				
Status	Name	Linnd	Voor of finalizing evaluation	Two of evaluation	Thematic objective	Topic	Lindings (in asso of evenuted)	L'ollow up (in acco of evecuted)
Status	rvaine	Fund	Year of finalizing evaluation	Type of evaluation	Thematic objective	1 ODIC	Findings (in case of executed)	Follow up (in case of executed)

12.2. The results of the information and publicity measures of the Funds carried out under the communication strategy

13. ACTIONS TAKEN TO FULFILL EX-ANTE CONDITIONALITIES (ARTICLE 50(4) OF REGULATION (EU) NO 1303/2013) (MAY BE INCLUDED IN REPORT TO BE SUBMITTED IN 2016 (SEE POINT 9 ABOVE). REQUIRED IN REPORT SUBMITTED IN 2017) OPTION: PROGRESS REPORT

SECOND SUBPARAGRAPH, (A), (B), (C), (D), (G) AND (H), OF REGULATION (EU) NO 1303/2013)
14.1. Progress in the implementation of the integrated approach to territorial development, including development of regions facing demographic challenges and permanent or natural handicaps, integrated territorial investments, sustainable urban development, and community led local development under the operational programme
14.2. Progress in the implementation of actions to reinforce the capacity of Member State authorities and beneficiaries to administer and use the Funds
14.3. Progress in the implementation of any interregional and transnational actions
14.4. Where appropriate, the contribution to macro-regional and sea basin strategies
As stipulated by the Regulation (EU) No 1303/2013, article 27(3) on the "content of programmes", article 96(3)(e) on the "content, adoption and amendment of operational programmes under the Investment for growth and jobs goal", article 111(3), article 111(4)(d) on "implementation reports for the Investment for growth and jobs goal", and Annex 1, section 7.3 on "contribution of mainstream programmes to macroregional and sea-basin strategies, this programme contributes to MRS(s) and/or SBS:
 □ EU Strategy for the Baltic Sea Region (EUSBSR) □ EU Strategy for the Danube Region (EUSDR) □ EU Strategy for the Adriatic and Ionian Region (EUSAIR) □ EU Strategy for the Alpine Region (EUSALP)

14. ADDITIONAL INFORMATION WHICH MAY BE ADDED DEPENDING ON THE CONTENT AND OBJECTIVES OF THE OPERATIONAL PROGRAMME (ARTICLE 111(4),

14.5. Progress in the implementation of actions in the field of social innovation, where appropriat	e
14.6. Progress in the implementation of measures to address the specific needs of geographical areas most affected by poverty or of target groups at highest risk of poverty discrimination or social exclusion, with special regard to marginalised communities and persons with disabilities, long term unemployment and young people not in employment including, where appropriate, the financial resources used	

PART C REPORTING SUBMITTED IN YEAR 2019 AND FINAL IMPLEMENTATION REPORT (Article 50(5) of Regulation (EU) No 1303/2013)

15. FINANCIAL INFORMATION AT PRIORITY AXIS AND PROGRAMME LEVEL (ARTICLES 21(2) AND 22(7) OF REGULATION (EU) NO 1303/2013)

Information on and assessment of the programme contribution to achieving the Union strategy for smart, sustainable and inclusive growth.

SMART, SUSTAINABLE AND INCLUSIVE GROWTH (OPTION PROGRESS REPORT)

16.

17. ISSUES AFFECTING THE PERFORMANCE OF THE PROGRAMME AND MEASURES TAKEN — PERFORMANCE FRAMEWORK (ARTICLE 50(2) OF REGULATION (EU) NO 1303/2013)

Where the assessment of progress made with regard to the milestones and targets set out in the performance framework demonstrates that certain milestones and targets have not been achieved, Member States should outline the underlying reasons for failure to achieve these milestones in the report of 2019 (for milestones) and in the final implementation report (for targets).
