

Building information modelling in construction

Purpose

1. This construction policy note (CPN) draws attention to an earlier Scottish Procurement policy note (SPPN) on the implementation of Building Information Modelling (BIM) in Public Sector Construction Projects.

Key message

2. BIM should be used where appropriate on public sector construction projects above £2 million.

Target audience

3. This note is intended for all those contracting authority staff involved in the planning and delivery of public works projects.

Outline of Guidance

4. Guidance on BIM was published in [SPPN 01/2017](#) on 8 March 2017, this provided a tool to be used in assessing whether the use of BIM on public sector construction projects above the value of £2 million is appropriate.

Dissemination

5. Please bring this construction policy note to the attention of all those staff involved in the procurement or delivery of construction activities.

Contact

6. If you have any questions about this CPN please contact:
