INTRODUCTION
- **Purpose**: A one-stop-shop street design guide to gaining planning and RCC (stage 1)
- **Status**: SPG [alongside …]
- **Scope**: Where this applies:
  - Residential streets
  - Mixed-use streets
  - Inter-urban/ rural roads

SCOPE
- Map extents and main places within local authority
  - Emphasise streets as primary shared public spaces

POLICY FRAMEWORK
- National
  - Urban design
  - NRDG
  - PANs/
    - green infra.
- Local
  - LDP
  - + other SG on design, e.g:
    - greenspace
    - historic env

PROCESS WITHIN [………]
- Pro-active planning: [our LDP, design frameworks/ briefs and masterplans says... about streets]
- Development Management: Approach to aligning consents
  - Expected info from developers.
  - Processing agreements
  - Checking quality of streets in [..]

TYPES OF NEIGHBOURHOOD & STREETS WITHIN [………..]
- Neighbourhood centre
- Rural village street
- 20th century suburb
- Urban High Street
- Mixed-use/regeneration
- Pre-1914 suburb
- Recently built streets
- Special [e.g., Waterfront]

STREET LAYOUT
- Achieving appropriate traffic speed
- Junction types and arrangements
- Streets for people (incl. shared spaces)
- Emergency & service vehicles (incl. bin lorry tracking)
- Integrated parking
- [Details any 'departures from SCOTS' NRDG]

STREET DETAIL
- Drainage (incl. green infrastructure)
- Utilities
- Planting
- Materials (incl. maintenance)
- Reducing clutter (incl. signs and lining)
- [Details any 'departures from SCOTS' NRDG]

APPENDICES – Beyond streets [e.g., Building lines/ plots and boundaries]

- ...distinct character and specific circumstances of place
- ...don’t repeat national guidance
- ...language is for multi-disciplinary use/ easy to find on website
- ...created and used by planners and roads engineers
- ...illustrate design-led options not fixed standards

Start with ‘FIVE BENCHMARKS’ as terms of reference.
