

New landing controls for crab & lobster fisheries in Scotland

With effect from 12 May 2024

Lobster

(*Homarus gammarus*)
Prohibition on landing berried (egg bearing) lobster

Brown / Edible Crab

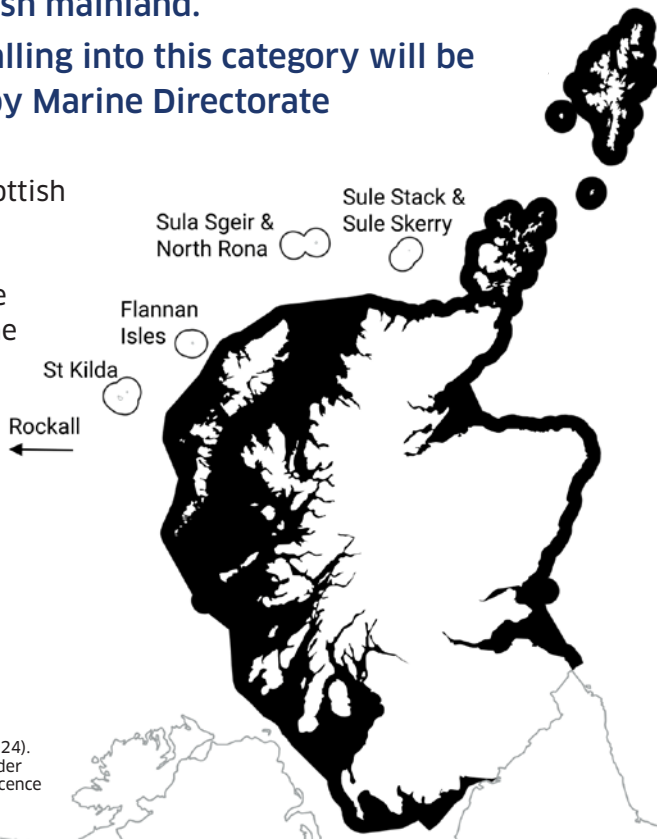

(*Cancer pagurus*)
Prohibition on landing berried (egg bearing) brown crab

Restriction on vessels landing more than 200t of brown crab and lobster

- Controls are being applied to restrict creel fishing activity within 6 nautical miles of Scotland's coastline.
- If your vessel is over 12 metres in length and you have recorded catches over 200 tonnes of crab and lobster in any 12 month period since 2020 you must work outside of 6 nautical miles from the Scottish mainland.
- Vessels falling into this category will be notified by Marine Directorate

Any part of Scottish inshore waters (0-6 nautical miles), with the exception of the inshore waters surrounding St Kilda (Hirta and Boreray), Flannan Isles, Rockall, Sula Sgeir, North Rona, Sule Stack, and Sule Skerry

Scottish Government (2024).

Existing controls

Berried velvet crab

It is prohibited to land a berried (egg bearing) velvet crab.

V Notched lobster / crawfish

It is prohibited to fish for or land a lobster or crawfish that bears a v notch, or that has been mutilated to obscure a v notch.

'Crippled' female lobster

It is prohibited to land a 'crippled' female lobster (missing one or both claws) caught in the inshore waters of the Outer Hebrides.

Further information
