

Saltire Tidal Energy Challenge Fund

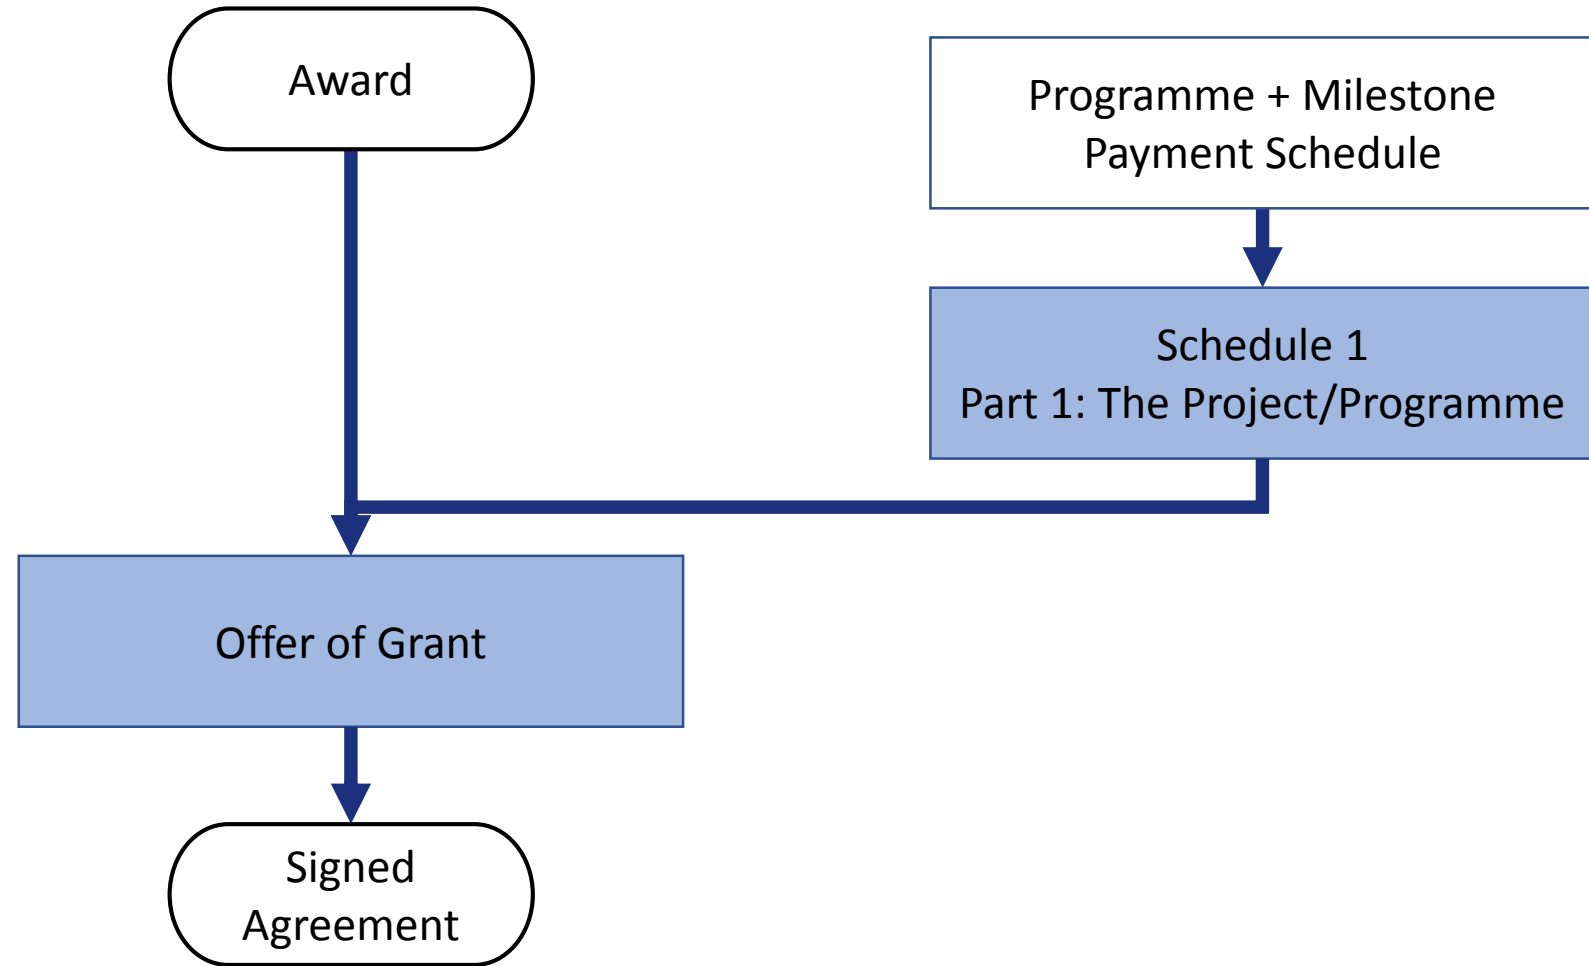

Tim Hurst - Managing Director Wave Energy Scotland

6 March 2019

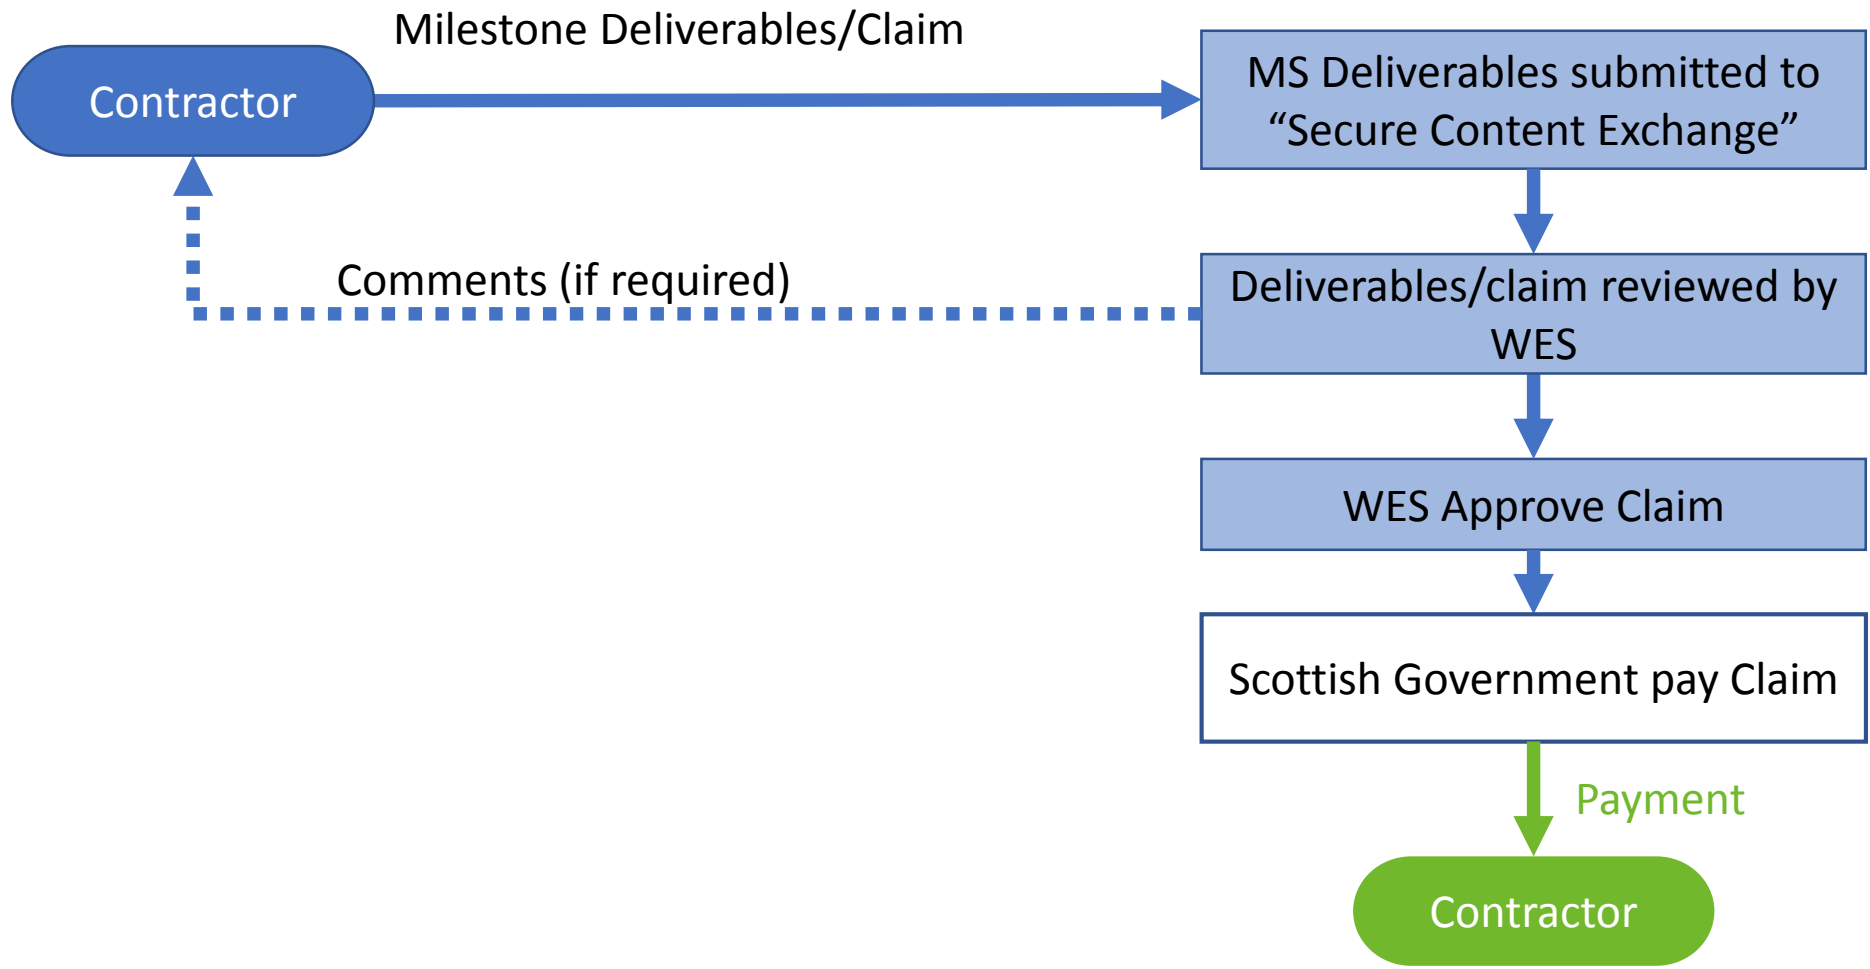

About Us

- A subsidiary of HIE and funded by the Scottish Government
- WES is driving the search for innovative solutions to the technical challenges facing the marine renewables sector
- Aim to produce reliable technology which will result in cost effective wave energy generation
- Ensure that Scotland maintains a leading role in the development of marine energy.
- We operate a competitive procurement technology programme.
- We support a range of projects focused on the key systems and sub-systems
- So far we've funded 86 contracts, invested £38.6M and been involved with 200 separate organisations, across 13 different countries
