Subject: Social Work Practice Learning West Scotland.
Importance: High

Good Morning Alan.

Learning Network West has facilitated practice learning in the west of Scotland for a number of years. We deliver the professional practice teaching award on behalf of the 13 local authorities in the west and have sourced and placed over 420 Social Work Students from five Universities in the last year.

We have seen significant trends and developments in practice learning in this time, some of which have been good while others have not been so.

I write to ask to meet with you to discuss the picture we see evolving in the west of practice learning and the issues and challenges we face in this field. The network is supported in its work with representation from the five Universities and 13 local authorities in a strategic practice learning group. Our meeting would include members from this group.

I look forward to hearing from you.

With regards and in anticipation
