Second Proposed Action Programme

Updated May 2015

Contents

The Action Programme is set out in five sections:

1. Introduction

2. How to use the Action Programme

3. City wide transport proposals

- Including Tram, Edinburgh Glasgow Improvement Project (EGIP) and the Orbital Bus route.

4. Strategic Development Areas

- Proposals within the City Centre, Edinburgh Waterfront, West Edinburgh, and South East Edinburgh.

5. Elsewhere across the city

- Proposals in Queensferry, South West Edinburgh, other housing, economic and school actions, other active travel actions and other greenspace actions

6. Policies

- Actions to deliver the policies set out within the Plan.

2. How to use the Action Programme

The Action Programme sets out actions to help mitigate the impact of strategic and planned growth and to deliver the policies and proposals identified within the Proposed Plan.

Local Development Plan Policies Del 1 (Developer Contributions) and Policy Del 2 (Retrospective Developer Contributions) set out the Council's approach to the provision of infrastructure and improvements associated with development, taking account of current economic conditions.

Further guidance is also available in the Council's non-statutory guidance on Developer Contributions and Affordable Housing.

Strategic Infrastructure Actions

The Action Programme identifies strategic road, tram, school and public realm infrastructure improvements which are needed to support development across a wide area. Where multiple developments will need to fund the delivery of these actions, Contribution Zones have been established within which legal agreements will be used to secure developer contributions.

* denotes estimated costs at April 2015 which include modelled inflation and contingency for the life of the project.

Site-specific Actions

For each of the development sites identified within the Plan, the Action Programme identifies site specific transport, shopping and greenspace actions which are required to mitigate the impact of the development.

3. City Wide Transport Proposals

Action

Delivery

Edinburgh Tram (T1)

- The Plan safeguards long term extensions to the network connecting with the waterfront and to the south east.

Who: CEC

Timescale: Line 1a complete.

Edinburgh Glasgow Improvement Project (EGIP) (T2)

- The Edinburgh Glasgow Improvement Programme (EGIP) is a comprehensive package of improvements to Scotland's railway infrastructure.
- Within Edinburgh, the LDP identifies three long term safeguards to support the project:
 1. To support wider development to the West of Edinburgh adjacent to the airport, a new station will be established at Gogar.
 2. The Almond Chord to the south of Dalmeny will allow Glasgow and Dunblane services to access Edinburgh Gateway Station and will increase public transport accessibility to West Edinburgh from West and Central Scotland.
 3. Part of the Abbeyhill branchline to the east of the city centre is needed for new turnback facilities to allow reversing of trains.

Who: Network Rail

Timescale: 2019 onwards

Cost: Part of a £650m package

Funding: Transport Scotland

Rail Halts at: Portobello, Piershill and Meadowbank (T3)

- LDP Safeguard. Required to ensure development does not prejudice future re-use of existing abandoned halts. Re-introduction of passenger services is not currently considered viable by the rail authority but this may change.

Who: Network Rail

Timescale: No timescale for delivery

Cost: Not identified

Funding: Not identified

South Suburban halts (T3)

- LDP Safeguard. Required to ensure development does not prejudice future re-use of existing abandoned halts. Re-introduction of passenger services is not currently considered viable by the rail authority but this may change.

Who: Network Rail

Timescale: No timescale for delivery

Cost: Not identified

Funding: Not identified

Orbital Bus Route (T3)

- The Orbital Bus Route will create an east-west public transport link across the city. A disused railway line between Danderhall

Who: SEStran, CEC, Midlothian, East Lothian,

and the City Bypass at Straiton is safeguarded in the LDP for appropriate public transport use or use as a cycle / footpath.

Transport Scotland

Timescale: No timescale for delivery

Cost: Not identified

Funding: Not identified

4a. City Centre Strategic Development Area

The proposed plan provides support for four major development opportunities in the City Centre (Proposals CC1 – CC4). With the exception of Quartermile where development is well underway, the plan sets out key development principles to guide any new or revised proposals on these important sites.
