Importance: High

[REDACTED]

I have had a conversation with our in-house Buildings experts, please see below, we endorse your plan to do the works ASAP.

In addition the Collections Care team here would require to know if you are moving any NTS items out to storage for the next few months, so do let me know what is being moved where.

[REDACTED]

With kind regards

Dear [REDACTED]

Following our recent discussions, I would recommend that immediate action is taken to investigate the cause/s of movement and repairs are completed to any damaged historic fabric, using appropriate materials and finishes, once the cause has been identified and addressed.

I am aware of several recent, unexpected plaster falls from historic ceilings and would suggest prompt action would be prudent.

Let me know if I can assist further.

Regards,

[REDACTED]
