Subject: National Surveillance Camera Strategy - Vision, Mission and Objectives
Attachments: 2017 02 08 VISION MISSION & OBJECTIVES final.docx

Dear Advisory Council members and strand leads,

the SCC is very grateful for your further consideration of the draft vision and mission statements for his strategy, and of the draft objectives.

Taking account of the comments made during public consultation and the further views you have expressed, the SCC has now decided on a more concise wording for the 11 objectives upon which he originally consulted. The additional scrutiny you have provided has been very valuable in enabling him to formulate words which reflect both his ambitions and his intentions to make them a reality. A copy is attached for your information.

The SCC's strategy project team will continue to work in the coming weeks on developing delivery plans for each of the workstreams that sit under the objectives and to make preparations to launch the strategy and publish the delivery plans alongside it next month.

Advisory Council members may expect to see the delivery plans at the beginning of March.

With thanks and kind regards
Alastair
