[redacted]

I have made some amendments to the attached letter for your consideration.

Also the applicants final question should be treated as a SAR as they are requesting their own information, you should send this on to the DPA team who will follow it up.

Kind regards

Subject: FOI 18-00965 Response to request for review of original response

Hello

I was assigned as the reviewer for this case. I have now completed my review of the response and I think the initial decision should stand with no modifications. The text of the original request is included in the attached response.

The request is very wide-ranging and at least two elements of it would require a full search of all information held by the Scottish Government, which would cost more than £600 to comply with.

My understanding of the process is that I clear my conclusion on the review with the FOI unit ahead of clearance by our Director and SPADS. The deadline for this case is 4 June – apologies that I have not shared this with you sooner, both I and the person who dealt with the original request have been on leave at different times since the review was assigned to me.

[redacted] – I am on leave on Tuesday, but could you pick up any further work to be done on this if there are any comments, or otherwise send it on to Stephen for clearance?

Many thanks  
[redacted]
