10. EXECUTIVE SUMMARY

Agency letting main contract(s)

Please provide a description in about 150 words on what ERDF will be paying for. Full details of the project should be provided in section 11, (1000 characters)

The grant will contribute to:

The revenue finance will help sustain the existing 104 childcare places and assist in the creation of an additional 15 Out of School care places. The funding will also contribute towards securing our current staffing compliment of 36 posts and help create two new childcare posts.

In % terms this means ERDF is contributing 25% of our eligible costs, and in total project costs reflects a figure of ln ... 20.4%.

In maintaining it's contribution ERDF is assisting St Roch's in providing High Quality childcare, Enabling parents to gain access to Training Education and Emploment and subsequently affect the cycle of Deprivation within the North of the City.

11. PROJECT DESCRIPTION

Sections a to f. give you the opportunity to describe fully the project for which grant is being sought, while addressing the specific points necessary for the project to be appraised.

a. Describe in more detail the background and context of this project. (1625 characters)

Created in 1998, St Roch's Childcare Service evolved from the highly successful Royston Springburn Mobile Creche Initiative (1989 - 1998). This development arcse through percieved demand for affordable extended daycare for children of under 5 years of age and for an out of school care provision. The service is continually responding to community demand, resulting in an increase from the original childcare provision of 56 places to a current compliment of 104, increasing to 119 shortly.

(Regardless of this steady Development the project still maintains a waiting list of 76 places).

This continuous damand for development from the community has resulted in the management committee taking the decision to apply itself and it's senior staff to a development programme, which in time will culminate in the creation of a purpose built nursery with additional community facilities.

Always working in Partnership the project seeks to meet the High standards set by the Care Commission,Investors in People and other organisations and individuals who can contribute to a high quality service.

b. Provide a full description of the works. (1625 characters)

The project is a childcare facility set up to provide high quality affordable childcare for the North of Glasgow. This provision allows the parents to take advantage of employment, education and training. We provide childcare places for children in the following age groupings.

0 - 1 yrs (9), 1 - 2 yrs (9), 2 - 3 yrs (15), 3 - 5 yrs (31) and 5 - 12 yrs (55) - total 119 places. By it's very nature the work provides opportunity for parents to improve the quality of live for themselves and their children. The service provides high quality affordable childcare, works within the framework of Government Curriculum and strives to create a highly motivated and inspirational setting for children.

The project continually strives to work in partnership with all other relevant agancies and community groups, working reguarly in the community and consulting with parents and users in order to meet needs.

Employing 31 permanant posts and 5 sessiona staff the project is managed by a voluntary management committee, soon to become a Board. The day to day management is performed by an Officer in Charge and 2 Deptue Officers. Staff are highly motivated, well qualified and available to take part in extra curriculum training to keep standards high. Parents are regularly consulted as to their children's needs and play a major part in the management and development of the project. Delivered from 3 sites the management, practice, delivery and overall performance has to be handled with great professional skill. A recent acquisition to the project has been the inclusion of a Finance Officer.

c. Describe the mechanism for implementing the project including details of other funding partners and any in-kind contributions. (1625 characters)

St Roch's Childcare Service Management Committee are in the process of evolving and developing a Board of Directors. This Board will oversee current practice and new developments, and will have the legal safeguard of being a Co Ltd by Gaurantee. The project has a staff compliment of 36 people, including the new finance officer. Project management is conducted by an Officer in Charge and 2 Deputes. We are financed by a cocktail of funding as follows: £419,139. Childcare Strategy £226,734. Scotting Exec Partnership (3 - 5 yrs olds only) £46,384. Parental fees £374,079. NO F £39,980. and this application for £229,567 which is 25% of our eligible costs.

In ensuring that the service implements what it claims, a variety of audits, inspections and government monitoring takes place annually. This serivce has always attained the highest possible rating and shall continue to do so. ie Monitoring and evaluation by Childcare Strategy and SIP, Investors in People, HMI and Annual Inspection by the Care Commission.

d. What are the anticipated outcomes? (1625 characters)

To date ERFD contribution has assisted in the creation of 36 positions and 104 childcare places. This application will enhance the service by providing 2 additional childcare posts and 15 out of school care places. From April 2003

PHYSICAL OUTPRUTS

119 childcare places

38 employment positions

INTERMEDIATE RESULTS

2 part time positions (Play workers)

36 employment positions safeguarded

People into employment

93 families accessing childcare: 150 adults enabled to access employment, training or education.

No of jobless people securing employment

48 11

No of people securing training/education

79

No of people under 25 yrs securing employment

No of people under 25 yrs securing training/educatio 27

Other outcomes evidenced in the project are that of management committee development, changes in culture, personal and community change, material, emotional and personal development of adults associated with the project.

e. How does the project fit with Priorities/Measures of the Single Programming Document and selection criteria? (1625 characters)

Targeted towards the most disadvantaged families of the North Glasgow SIP area, the project currently, and during its new development phase, reflects an Equal Opportunities approach enabling adults to take advantage of Education/Training and Employment, thus creating the potential for new opportunitites which will release people from the Poverty Trap.

In targeting local people for Employment (unemployment currently recorded is 39.5% 4/10/2001) the opportunity to engage staff in professional and personal development contributes an immediate impact into the local community.

Throughout the lifetime of the project we have successfully recruited and trained local people and will continue to do so. We have accessed funding from Chilcare Strategy for NC<HNC< and SVQ training in childcare and will repeat this in 2003 and 2004. This is a valuable resource that enables us to continue with our ethos of providing opportunities for residents of the SIP area.

Currently the staff team compromises 18 ft, 12 pt, and 6 sessional staff, 14 live in the North of Glasgow, 8 of which live within the SIP area.

f. Demonstrate consideration of horizontal themes - equal opportunities and sustainable development, including environmental sustainability. (1625 characters)

Considering Horizontal Themes the Project can demonstrate innivation, sustainability, equal opportunities, information technology and the environment.

- * Provision of high quality, affordable childcare to local residents, addressing these amers.
- * Increased childcare places to 119
- Employment opportunitites to local residents.
- * Training opportunities for all staff, certified childcare courses through Childcare Strategy funding.
- * Management tatget of 100% qualified staff, (legislation requires 50%).
- * Maximise Working Families Tax Credit.
- Proactive in generating income, strategic planning for long term sustainability, (partnership working and letting of 10,000 squ mtrs in new centre Jan 2005).
- * Monitoring of performance in environmental issues and use of IT as a substitute.
- Legislative requirements

0 - 1 yrs 1 adutl to 3 children 1 - 2 yrs 1 adult to 3 children

2 - 3 yrs 1 adult to 5 children

3 - 8 yrs 1 adult to 8 children

1 additional member of staff for each 16 children

1 person in charge at each location

The most recent count of our waiting list reveals 21 requests for Out of School Care (3 for holiday cover) and 55 for 0 - 5yrs, a total 76.

b. Describe any results which cannot be quantified readily but which provide added value across the whole Programme. (3250 characters)

ERDF finance enhances capecity building at a local level in a number of ways. Gaining employment and job retention, accessing training/education, partnered by affordable childcare, support families in becoming less benefit dependant.

Additional family income results in a more healthy diet and local spending is increased.

Parent/guardian that can access the project are confident that the quality of service is excellent and value for money. This is also maximised by

Historically the availability of childcare hes been a bamer to a vast range of opportunities. By addressing this care issue childcare creates a more equal environment improving the quality of life for local residents and a mora positive image of the area.

13. ELIGIBLE PROJECT COSTS

Provide a breakdown of the eligible project costs for which ERDF grant is requested (please use the generic headings listed in Annex 3 of the guidance notes). Please ensure that Annex C to this form is also completed to provide a more detailed breakdown of some of the generic headings.

15. PROJECT FUNDING PACKAGE

This section should provide a comprehensive summary of the overall funding package for the project as detailed in the application form. Funding from sources other than ERDF is usually referred to as CO-FINANCE.

NOTES:

- For all CONFIRMED co-finance a copy of relevant approval documents should be appended to this form.
 For all ANTICIPATED co-finance evidence that the funding has been applied for and the decision making timetable should be sporal decision in full to the nearest £ sterling.
 All figures should be shown in full to the nearest £ sterling.
 Any contribution in kind must be clearly identified, discussed with the Programme Executive and be in line with European Commission guidance.

16. PROJECT JUSTIFICATION

This should cover the issues of demand, need and/or opportunity.

a. Justify the need for this project showing how the project complements, integrates with and enhances existing service provision.
 (3250 characters)

This project was established on the grounds of community and statutory organisations demands, Identified need in the arenas of childcare and after school care together with parental need in the forms of education/training/employment led to the projects Inception. Remitted to aid the regeneration of the area the main aims of the project are as follows.

- A) Provide high quality, affordable, flexible childcare.
- B) Enable access to, or sustain, education, training or employment for parents/guardians.
- Enpower local people through the development of a management committee and through the creation of new job

Continually operating with a waitingl list, demonstrates clear demand, committed to an integrated approach. St Roch's Childcare Service has met the need to develop and expand, and continues to do so. With a commitment to partnership working St Roch's has sought funding and co-operation through a cocktail of funding streams. ie SIP, Childcare Strategy, Scottish Exec Partnership 3 - 5 yrs, Area Budget, Parental Fees, Key Fund and ERDF contributions. St Roch's has established itself as an integral part of the North of Glasgow's Childcare Provision. Staff attend and take part in the local admissions panel, partnering head teachers and staff from other childcare establishments, statutory and voluntary alike.

Annually monitored and evaluated, the service has demonstrated a high level of commitment to quality childcare, but despite a variety of government policies still struggles to meet demand. (current waiting list 76). Working closely with other childcare establishments avoids duplication and fosters good co-operative practices between centres, departments and organisations. St Roch's continues to strive to develop a stragetic approach to providing childcare within the North of Glasgow.

Currently employing 36 staff and servicing 93 families within the local community St Roch's has become a major community resource for the people of the North of Glasgow. Recently due to demand, the organisation has received the backing of the local community, through parental meetings and local area strategy meetings to further pursue a New Build provision which will not only provide a base for high quality childcare but will service and enhanse a full range of community needs and demands. Clearly the credibility established by the project has come about through meeting its aims, so much so that the local people trust the organisation to play the lead in their initiative.

Version 29 10

b. Provide details of relevant market appraisals, evaluations or feasibility studies. For some types of projects you may be asked to provide copies of these documents. (3250 characters)

The project has always been in a position to take advantage of Studies appraisals and evaluations Since October 2000 several papers have been produced, all detailing the high quality of service delivery, and exposing the need for expansion due to community demand. Such papers include; 1) ST ROCH'S CHILDCARE SERVICE FEASIBILITY STUDY (NOV 2000) It found that the project thought Strategically with a long term view, sought to meet community demand, was well regarded by users and partners and was in a position to expand developing into three buildings. "All agencies canvassed in the Study held the project in high regard parents and partner agency managers were impressed by the service and have been encouraging further development. The report concluded;" Given the overwhelming level of response and interest in Development of this nature, and the variety of suggestions and ideas emerging from the community and workers..a priority should be the development of a STATE OF THE ART NEW BUILD." 2) ANNUAL INSPECTION EDUCATION. DEPT (AUG 2001) This report alluded to the quality of work and commented; "THIS SERVICE OFFERS QUALITY CHILDCARE,"it noted all policies and procedures were in place and recommended registration be continued. 3) BUISNESS PLAN CEIS (NOV 2001) In it's executive summary of the plan CEIS concluded; " Operating since 1998 St Roch's Childcare service has established itself as a centre of excellence delivering quality affordable childcare in one of the most deprived areas of Glasgow." the report also found.. "the service offers a range of provision across the full spectrum of childcare" and finally that a NEW BUILD facility with cross agency support is a logical next step for a "COMMUNITY OF OPPORTUNITY" and would match policy aspirations of social inclusion and regeneration for an area of high deprivation. 4) ERDF Evaluation (Aug 2001) This document concluded that with ERDF contribution the project had; "demonstrated their capacity to meet and sustain their project objectives, made a significant difference to the lives of the people of the North of Glasgow. Consideration needs to be given to the future direction of the organisation and it's relationship with the community. A high level of dependancy has been created between parents and children alike, and, with a growing waiting list

the service is more in demand than ever."

5) ERDF AUDIT (Jan 2002). In this paper, under Outputs/Impacts, the inspection officers reviewed the criteria for admission and Project Management's recording system and are content with the systems in place. The visiting officers were pleased to report that by the final claim stage all theoutputs/impacts had been achieved or exceeded." They also noted by way of a site visit that "the project was being developed in line with the application".

6) H.M.I. Inspection (Jan 2002). A wholly satisfactory document highlighting, centre management, relationships, quality of staff, interactions with children, parents, agencies and the community as well as, very effective leadership, high quality teamwork and good procedures for staff development and review.

7) Annual Inspection Care Commission(Aug 2002) Not Available to date.

All of the above show a favourable appraisal of the project.

The project has always been linked to the local SIP strategic plan, and more recently the new action plan, and of course by the North Glasgow Ten year plan. More specifically linkages can be identified in Aid regeneration of the area, Provision of high quality Childcare and Partnership working. Within the local community the project plays an active part in Capacity Building, through parental involvement, community meetings and management committee responsibilities and training. Gatting People back to work is a core aim of the project, living at the heart of our aims and objectives. Developing Community Partnerships and raising Interest in Well functioning environments has become a major thrust and argument in the development of our new building, and, as relationships develop further with groups, such as the area strategy group and the local bowlers league (to mention but two), so to does our skill in partnership and well functioning communities. The project, by it's very nature, links into the Executives social justice challenge to end poverty within 20 years and with its finger on the pulse re Best possible Start policies and actions, the project is well positioned and versed in National and Local Strategies, as highlighted in our latest HMI Inspection.

d. Explain how this project integrates with other EC funded projects. Include any reference to the performance of previous EC funded projects. (1625 characters)

The project actively strives to integrate with other EC funded projects in the following ways;

St Roch's provides childcare to students who access courses funded by ESF monies, for example; Central college of commerce, College of Building and Printing, North Glasgow College, Stow College, Ethnic Minorities Enterprise centre, Govan Initiative and One Plus. We provide student placements to ESF funded projects and colleges such as, Rosemount Lifelong Learning, Nautical College, and North Glasgow College.

Project staff have and ere continually ancouraged to access European funded courses in Childcare, Personal Development, and NEBS Management at a variety of colleges including North Glasgow, Nautical and Langside.

Access to other European funded initiatives are available to the project through Glasgow North Limited and a variety have been taken up in the arenas of First Aid, Developing Policies and Procedures and Health and Safety.

We have also taken advantage of Key fund, Phases 1 & 2 and the finance evailable has provided access to partnership working with other professional bodies such as Architects, Surveyors and Organisational Consultants enabling the project to advance it's development programme effectively and with integrity.

17. NEED FOR GRANT

a. Will the project proceed without the grant?

Yes • No

b. Please supply information below to justify the answer given above. Please provide detail of any other additional justification for the need for grant, for example to improve the quality of the project or to increase the scale of the project. (3250 characters)

In order to continue operating the project must secure this grant. The award will be £229,567, 25% of eligible costs. If there were to be any reduction or withdrawal it would impose extreme financial pressure on families already living in one of the poorest areas of the city.

It would also disavow us of our key aim of providing " Affordable "childcare. The project exists to support the most vulnerable of people and to create the arena for adults to begin to realise their potential through Education, Training and Employment. In all cases the line between real hardship and potential future improvement is constantly evidenced in the project, with the most minor of changes in users circumstances, we see people struggle to keep their heads above water on a daily basis. Any change in grant aid would inevitably have to be reflected in charges and would have devistating affects on the community.

Many of the projects successes have obviously been linked to the ERDF contribution, not only has the direct contribution been of great significance, but the fact that the project has secured European funding has enhanced our relationship with other funders and partners and lent cudos to our projects status, to withdraw or reduce would seriously impair our effectiveness.

The fact that a fruitful relationship exists between the project and ERDF has added to the project's confidence in it's bid to expand and develop its services, as detailed in our business plans and feasibility study. We have gone to the public, confident in our relationship, to consult and seek advice on the best way forward, knowing that partnership arrangements are the best way forward when dealing with social inclusion and reduction in poverty issues, we have been honest and in integrity, explaining to people the potential funding routes for Capital and Revenue monies. We have ancouraged and recruited local people to take part in in order to progress their own communities. They have actively participated in public meetings and training week - ends and events, and given freely of their time, secure in the knowledge that real support is available in the form of funding bodies such as ERDF.

Much work has been done by staff and community alike, not only to sustain a well respected and valued community resource, but to build on it and create other equally excellent services around it, to change would have a very lasting and damaging effect on the inroads already built. We need to retain the current level, as indicated above, in order to deliver the service and build upon it's success.

18. ECONOMIC SUSTAINABILITY Has a Business Plan been enclosed? No If No, why has a business plan not been enclosed? (1625 characters) Provide details of how the project will continue after ERDF funding has ceased. For capital projects please provide details of the arrangements for ongoing management. For revenue projects provide details of ongoing funding arrangements. (1625 We were initially dependant on the grant to a level of 50%, and currently 37.43%. In conjunction with seeking grants we are continuing to work towards a more self sustaining provision. This has been achieved by attracting SIP £419,139. Childcare Strategy £226,734. NOF £39,980. Scottish Exec (3- 5 yrs olds only) £46,384. Parental fees £374,079 and finally £229,567 ERDF which is 25% of eligible costs. Furthermore the letting of 10,000 sq mtrs of commercial space from January 2005 within the New Build will attract a further £135,000 resulting in fees and rent providing 40% of the Total Revenue Project Costs with the opportunity to increase as we market the remaining resources.

19. EQUAL OPPORTUNITIES

Applicants are required to demonstrate that they have considered equal opportunities at all stages of the design of the project, and how it has been structured to ensure that equal opportunities will be mainstreamed throughout the project's aims and operation. The following questions are intended to allow applicants to describe the processes by which they have considered the equal opportunities implications on the design of the project and the evaluation of its objectives and outcomes.

a. Describe any potential barriers to access and participation to this project you have identified, for example, for women, ethnic minorities and people with disabilities, and how you made that assessment. (3250 characters)

Access is a major issue for this project, and it is three fold in the nature of it's limit's, one is in location, with it proving particularly difficult for wheelchair bound citizens to enter, the second is by the limit of spaces currently available and the third is poverty itself.

No limit is placed on people by nature of their ethnic background or social circumstance, nor are there any barriers in place to discriminate against gender, however it is difficult to recruit male staff into childcare and this by it's very nature places restrictions on the project which is committed to delivering a holistic experience to the children attending the service.

A potential barrier exists within the community of Royston it's self and this is the attitudinal barrier of discrimination. Whilst the area is developing into a multi cultural society, with a variety of differing cultures emerging, old prejudices die hard and the project, and Indeed it's partner agencies, need to be ever aware of potential flash points and triggers. Admissions are operated through North Glasgow's Admissions panel, which obviously works to the current equal opportunities legislation, but the project must keep it's finger on the pulse of local community feelings and be seen to be an honest and fair service, both as an employer of local people and deliverers of a much needed service.

The project will continue to monitor these barriers, active and potential, and seek to reduce them wherever and whenever possible. Continuous training and maintaining Investors in People status will help this process, as will the moving to a New Build, immediately eradicating the wheelchair access problem and reducing the waiting list.

b. How will this project as proposed address these issues, and evaluate the outcomes against the equality objectives of the project and the Single Programme Document? (3250 characters) By securing funding we will maintain our capacity to offer our service at an affordable price, ensuring access to childcare on low incomes, the project will continue to operate as an equal opportunities driven organisation, both for staff and users. We will continue our practice of community consultation and community involvement in the overall development of the service, in particular the New Build initiative. The project will continue it's Pilot work in the Integration of Children of Asylum seekers, learning from the experience and bringing that learning forward into the community. Staff training will continue, as will the recruitment of male staff in particular. The project will continue to operate across the spectrum of peoples within the community, advocating equality and practicing it within it's centres. Partnership working will be continued with greater emphasis being placed on equality as a means to furthering inclusion.

 The project operates it's Equal Opportunities Policy in line with local authotity guidelines and terms and conditions of service as an equal opportunity employer.

2. The Project adopts the broader Scottish view that has been adapted to include women, people with disabilities and ethnic minorities.

3. As a service provider the project does not discriminate between one and two parent families, historically childcare places in Glasgow local authority provision have been primarily for single parent families.

4. Firm action is adopted with regard to Gender inclusion i.e. we actively seek to encourage male participation.

5. Equal opportunities are spelt out clearly in the projects induction materials.

The project monitors its equal opportunity position by:

1. Ensuring that in our service provision our curriculum covers all areas of child development including, an awareness of different cultures, religions and environments, and that within the supply of resources and training, staff are able to provide an extensive programme covering all aspects of equality. (Annual Inspections verify this)

2. Employees Personal Development plans and Performance are monitored regularly through planned supervision, team meetings and training events.
St Roch's Childcare Service Equal Opportunities Statement reads as follows:

" Through the commitment of fair and just treatment to all involved within and outwith the project we aim to ensure that no person recieves less favourable treatment on the grounds of race, religion or disability. We also aim to challenge any racist or sexist comments or remarks, and through education, to encourage all our children to have a better understanding of each others cultures, children with special needs, and to value each other, rerspecting that everyone is unique and may have different ideas and beliefs which should be respected."

20. THE ENVIRONMENT

a. What EC Directives or UK legislation is relevant to the project? What measures will be taken to meet or to exceed these regulatory standards? (3250 characters)

The organisation continues to strive to meet all relevant Health and Safety Legislation and have recently accessed appropriate statff training to allow us to complete Risk Assessments. in terms of paying attention to environmental and cost factors St Roch's continues to reduce paper waste through the use of E mail technology, and reuse stationary products, such as, plastic wallets, paper clips etc. Attention is given to the reduction in the use of electricity and a watching brief is in place to minimise waste of any kind, including water. We are about to take this a step further as the 5 - 12 yr olds that attend Out of School Care are preparing to research the re-cycling of paper within the project.

- b. Describe, and wherever possible quantify, the project's positive and negative impacts on the environment in terms of the aims of the Programme, attaching the non-technical summary from the Environmental Assessment if one has been carried out. Explain the methods and techniques which will be used to monitor and assess impacts, with particular reference to:
- (a) Wildlife and nature conservation
- (b) Changes in land use, buildings or re-use of vacant and derelict land
- (c) Use of resources, including use of local raw materials, energy and water
- (d) Effects on air, water and soil quality
- (e) Modes and volumes of passenger and freight transport which will be generated by the project
- (f) Waste disposal, including waste minimisation and recycling
- (g) Training people in environmental management skills appropriate to the project (3250 characters)
- (a) Wildlife: Although we are actively discouraged from having any type of animal within the project we are very aware of the benefits to childrens' all round development when they have access to a range of animals and insects.

Observations of visits to parks, deep sea world, zoo, pet shop, etc record the positive play and learning experienced by the children. Children clearly find outings enjoyable and stimulating as they participate in the planned acivities that follow with great enthusiasm. Our programme for out of school care included an outdoor residential camp at Fordell Firs, Dumfermline. Summer 2002 a group of 24 children, 5 parent volunteers, and 5 staff took part in, and are hopefull that we can repeat the experience next year. The trip was subsidised by Glasgow Playscheme Association and a £40 charge for each child.

- (c) We have increased our OSC provision to 40 and it will rise to 55 in 2003. Staff recruitment, selection and training has resulted in an excellent team of qualified and committed staff. Children continue to use the computers in the 3 5 & 5 12 yr age range. They participate with enormous enthusiasm and knowledge. We find the use of computers to be very cost effective as many of the packages have sound and bright colour and a member of staff can provide a learning activity for a number of children without any costs unless their intention is to produce a hard copy.
- (d) Resources used by the project are safe for use by young children. ie non-toxic paint and materials as well as re-cycled paper and equipment we purchase must have safety marks.
- (e) We own a 17 seater diesel minibus and it is used primarily for OSC but the younger children also have access to it prior to 2.30 pm each day. Outings are planned to provide for the maximum number of children to travel with the required number of staff, which varies according to age. This reduces the number of journeys required whilst providing educational opportunities for the maximum number of children. During school closures via Glasgow Playscheme Association we have access to 2 bus passes. Each allows 8 children and 2 adults to travel free of charge. Summer 2002 OSC children went on 29 trips using the passes these included beaches, swimming, adventure playgrounds, ice-skating, go-carting, cinema, museums etc.
- (f) Waste is reduced by the use of IT, including e mail and internet. Out of school care staff have included in their development plan a project that will research the re-cycling of waste paper within the project.

c. Where the project will have negative impacts in terms of the issues in 20b., please detail the steps taken to minimise, monitor and manage these impacts. Please provide details of any environmental advice taken from SNH, SEPA, Local Authorities and/or other agencies. (3250 characters) We are unware of any negative impacts we would cause. We are however increasingly aware of the effects and impacts that can have an effect on the invironment and therefore strive to educate staff and children in how best to elieviate them where we can. As January 2002 and time to build our New Centre approaches we will seek advice from professionals at all stages as to planning for an environmentally friendly and accessable building.

Version 29 20

RESPONSIBILITY OF APPLICANT (LEGAL & STATUTORY REQUIREMENTS FOR APPLICANTS)

21, PLANNING		
Is planning permission required?	Yes	○ No
If Yes, has full planning permission been obtained?	○ Yes	O No
If full planning permission has been obtained, indicate date of approval.		
If full planning permission has still to be obtained, which of the following issues has the planning authoresolved before the project can proceed? Conflict with planning policy Access errangements Discharges to air or water Other (please specify)	ority indi	cated need to be
If planning permission is not required, a. Is the project consistent with the approved Structure Plan and Adopted Local Plan for the area?	○ Yes	♦ No
b. Will it require to be ootified to the Scottish Ministers?	() Yes	○ No
Is listed building consent required?	⊖ Yes	♠ No
If Yes, indicate the date on which listed building consent was obtained.		
If listed building consent has still to be obtained, please indicate: a. When the application was/will be submitted. b. When a decision is expected.		
22. TENDERING ARRANGEMENTS		
a. Please confirm that all Public Procurement, Works, Supplies and Services Directives have, or will be, complied with.	() Yes	○No ⑥N/A
b. Has the project gone out to tender?	⊖ Yes	® Na
If Yes, have the contracts been advertised in the Official Journal of the European Communities	○ Yes	O No
If the cootracts have been advertised in the Official Journal, please indicate: a. Advertisement number b. Date (Please supply a copy of the advertisement)		
If No. please provide reasons and details of the tendering arrangements anticipated. (1000 characters)		

c. For projects with contracts above the thresholds for advertising, please submit a completed Public Procurement Questionnaire, copies of which can be obtained from the Programme Management Executive.

d. For projects where no contracts are above the thresholds for advertising, a signed declaration form must be completed and sent to the appropriate Programme Management Executive (from where copies of the form can be obtained).

23. STATE AID POLICY			
Does the project involve any State Aids?	○ Yes	No	() De Minimi
If Yes, please provide the following details:			
Amount of aid	-		
Confirm that the aid is within the relevant ceiling	⊜ Yes	○ Na	
Is the aid approved?	() Yes	⊕ No	
If the aid is approved, a. Approval number b. Date	Ī		***
If the aid is not approved, a. Aid number assigned by the Commission b. Date of notification to the Commission	[
Please explain why the aid is not approved. (3250 characters)		,,	

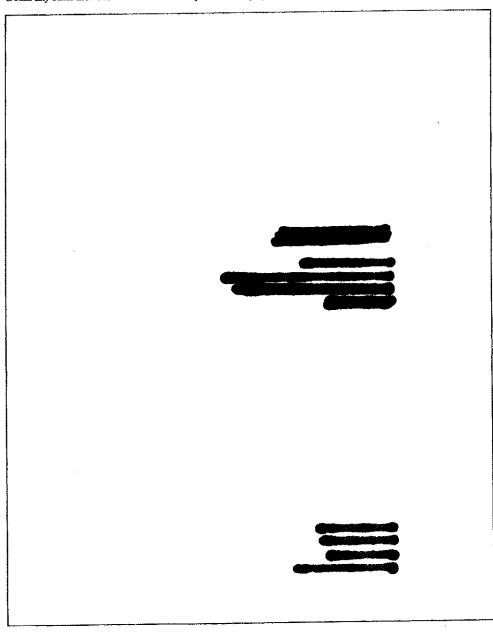

24. PUBLICITY REQUIREMENTS

NOTE TO APPLICANTS: It is a condition of grant that the ERDF contribution to this project is publicised in accordance with EC Council Regulation No. 1159/2000 of 30 May 2000.

Please indicate which of the following forms of publicity will be implemented:

- ☐ a. Prominent Site Signage During Works
- P b. Permanent Plaque on the Premises
- |▼.c. Specific Press end Madia Releases
- F d. Acknowledgement in all Media Releases
- [₹] e. Acknowledgement in all Project Documentation
- f. f. Other (please specify in box below)

Detail any other methods that will be used to publicise the project and any ERDF award. (3250 characters)

25. CERTIFICATION

To be signed by a Designated Officer of each Applicant Organisation using the following page if necessary in the case of Multi Agency Applications.

PROJECT TITLE ST ROCH'S CHILDCARE PROVISION 0 -12 YEARS PROVISION

I certify that the information contained in this application is correct and confirm that this project will be carried out as described, and that the grant requested is the minimum necessary for the project to proceed.

I confirm that this organisation will undertake regular monitoring of the project to ensure it conforms with the application and the Regulations and that adequate management and financial sofeguards, including internal audit procedures, exist.

I will inform the Programme Management Executive and the Scottish Executive immediately of any changes to the project.

I ocknowledge that this project will be subject to regular monitoring and undertake to keep adequate records for this purpose. I also acknowledge that the European Commission, the European Court of Auditors, and/or the Scottish Executive may carry out on the spot checks.

I undertake to repay on demand, to the Scottish Executive, ony grant paid, if the European Commission, the European Court of Auditors and/or the Scottish Executive decide after investigation that the project has not been carried out in accordance with the application and/or the European Regional Development Fund Regulations.

11. PROJECT DESCRIPTION

Sections a. to f. give you the opportunity to describe fully the project for which grant is being sought, while addressing the specific points necessary for the project to be appraised.

a. Describe in more detail the background and context of this project. (1625 characters)

A review of services was cerried out in 99/00 by Unemployed Initiative Group (now ONTOWORK) which highlighted the opportunity for development of services. A Business Plan for the period 2000 -2003 was compiled in conjunction with partners (WDC, SED, WDP, Employment Services, Learning Works Etc). Subsequently, an epplication for ESF in July 2001, supported by SED was successful, this created 3.5 jobs and enabled enhanced service delivery. The Increase in services necessitated larger premises and these were identified by WDC. There were considerable conversion costs as the premises were previously used as a Betting Office and hed become rundown. An application for funding to WDP Partnership to convert the building was successful with an award of £40,000.00 being granted.

The Business Plan of Ontowork was compiled in line with the Social Inclusion Strategies of WD Partnership, the Anti Poverty and Lifelong Leaming Strategies of WD Council and the Regeneration Strategies of SE Dunbartonshire.

b. Provide a full description of the works. (1625 characters)

Removed all existing fixtures and fittings, demolished walls to form open plan office.

Installed structurel steel beams, all floors and cellings brought to same level.

Constructed Training and Interview rooms, Offices and Reception area.

Removed structurally defective roof and replaced with Plastisol metal roof.

Upgraded electrical wiring, installed 20 electrical points.

Instelled additional radiators.

Fitted basic kitchen units.

Removed brickwork and timber tiling, instelled double glazed windows and roller shutters.

Painted and decorated, laid carpets, lino as required.

Altered entrance to toilet.

Built concrete wheelchair ramp and installed handrails.

All erchitectural and CDM functions.

Erection of signege to include very visible logos on windows.

ter identifying sultable premises, various funding options were considered and an application pported by SE Dunbartonshire and WD Council was made to WD Partnership. A grant of 10000 was awarded leaving a shortfall which was covered by an in kind contribution from WD puncil and Ontowork.			
Nocel firm Hey, Lough Davis, were engaged to oversee the building/conversion process, tender locuments, planning applications, all architectural and CDM functions.			
What are the anticipated outcomes? (1625 characters)			
ntowork have created a training room to accommodate 14 people. To date it has been utilised r delivery of Steps to Excellence 6 day training course, Employability courses. More recently a nall (4) suite of computers has been added to deliver 1 to 1 and group training.			
ne training room has also been used by other organisations such as Women's Aid and Citizens dvice Bureau for training purposes and Loch Lomond Shores Ltd and Women's Aid for cruitment purposes.			

. . . .

e. How does the project fit with Priorities/Measures of the Single Programming Document and selection criteria? (1625 characters) Ontowork provide services that are community based and are the first point of contact for people some way from the labour market. It encourages Lifelong Leaming to address skill shortages by providing current lebour merket end training opportunities. Ontowork have a training policy and staff members are encouraged to develope. An example of this would be a staff member undertaking CIPD training to develop and enhance courses delivered by Ontowork. Ontowork work in partnership with local organisations such as JOBLINK to co-fund certificated courses e.g. forklift and HGV license. To meet E-Commerce objectives, Ontowork have created a small computer suite which clients are encouraged to use. All clients requesting a CV are offered an E.mail address. Ontowork provide innovative solutions for clients such as Thos. Int. assessment, a 5 day employability course and Personal Development seminars. Ontowork work with WD Pertnership to realise the Social Justice Agenda of the Scottish Executive by Improving the ability and confidence of SIP residents to apply for work and attend interviews, increased opportunities to benefit from workbased training, increased confidence and self esteem improved ability to solve problems and realise personal goals.

f. Demonstrate consideration of horizontal themes - equal opportunities and sustainable development, including environmental sustainability, (1625 characters)

Ontowork operate the Equal Opportunities Policies of WD Council. Ontowork have contacted WD Council to register an interest in assisting Asylum Seekers due to arrive in the area 03/04. A range of support measures are in place through the Lift Off Fund such as grants to pay for child care when SIP clients have job interviews or attend Ontowork courses.

Ontowork ensures sustainability of work or training opportunities by providing current accurate information on these opportunities. The Thos Int assessment ensures that clients are directed to jobs inline with their work skills. Ontowork operate in partnership with local organizations to

information on these opportunities. The Thos Intrassessment ensures that clients are directed to jobs inline with their work skills. Ontowork operate in partnership with local organisations to ensure support measures are appropriate to the clients need. An example of this would be cross referral of clients and ensuring clients are given advice on financial implications of the uptake of work or training, e.g. Back to Work Benefits.

In the conversion of premises, Ontowork appointed a specialist organisation to ensure all EC directives and UK legislation were compiled with. Reviews of environmental issues are reviewed on a quarterly basis. Ontowork recycle all paper waste, plastic bottles in conjuction with Greenlight Recycling. Ontowork recruit clients on to Greenlight Recycling ILM project. In the maintenance of courtyard/small garden area, available environmentally friendly products are used.

Ontowork have purchased the Focus Managers guide to reducing energy bills which advises on lighting, heating, boilers and electrical issues. An example of the advice being implemented would be the purchase of slimline fluorescent tubes being installed.

Version 12

12. PROJECT MONITORING

a. Please complete the following tables, aggregating the proposed Physikal Outputs and Intermediate Results the project/scheme/Programme expects to deliver along with details of how and when each of these indicators will be monitored. Please first complete Annex B, which will show the annual targets for each Physical Output and Intermediate Result.

Ontowork offer services which are accessed by SIP residents at a stage appropriate to them.e.g.clients who have been long term unemployed would start with Confidence Building and personal Dévelopment Courses, clients who are job ready utilise the CV and job match services.

b. Describe any results which cannot be quantified readily but which prohide added value across the whole Programme. (3250 characters)

Networking is a strength of Ontowork and this enables Ontowork to refer clients to services more appropiate to their need e.g. clients with drug/alcohol issues and referred to the Alternitives project, although Ontowork keep in touch on a monthly basis. 70% of our clients reach us by recommendation of previous clients.

The statistics of the first quarter, April to June 03, show that 22 SIP clients moved into work with 8 clients sustaining a job. 9 personal development workshops were delivered, 8 confidence building sessions took place, 12 clients undertook interview skills training, 19 clients received Guidance on training, 14 applications were made to the LIft Off Fund.

Job searches amounted to 2500, a core of 60 clients receive this service on a daily basis.

13. ELIGIBLE PROJECT COSTS

Provide a breakdown of the eligible project costs for which ERDF grant is requested please use the generic headings listed in Annex 3 of the guidance notes). Please ensure that Annex C to this form is also completed to provide a more detailed breakdown of some of the generic headings.

DAȚE OF SITE ACQUISITION

This section should provide a comprehensive summary of the overall funding package for the project as detailed in the application form. Funding from sources other than ERDF is usually referred to as CO-FINANCE.

- For all CONFIRMED co-finance a copy of relevant approval documents should be appended to this form.
 For all ANTICIPATED co-finance evidence that the funding has been applied for and the decision making timetable should be appended to this form.
 All figures should be shown in full to the nearest £ sterling.
 Any contribution in kind must be clearly identified, discussed with the Programme Executive and be in line with European Commission guidance.

16. PROJECT JUSTIFICATION

This should cover the issues of demand, need and/or opportunity.

 Justify the need for this project showing how the project complements, integrates with and enhances existing service provision. (3250 characters)

Ontowork was developed from a strategic review of services where all key local stakeholders identified gaps in provisions for assisting longterm unemployed, socially excluded individuals improve their job prospects and gain sustainable employment. Ontowork has created a continuum of services ranging from outreach through assessment to guidance and job search match.

Outreach is a key strand of services to engage herd to reach groups. Ontowork delivers its services through a range of locations such as the Cerman Centre, Skypoint Social Inclusion Centre and local community centres. Ontowork has pertnership arrangements with organisations such as Womens Aid, Healthy Living Initiative, Confidence Building and Personal Development courses in tandem with these organisations acts as an introduction to the organisation. Ontowork has identified the Thomas International Assessment tool which highlights the work skills of the client and directs them to job and training opportunities they are most likely to sustain. Key words and phrases are extracted from the assessment for insertion in the clients CV and job application forms.

Ontowork delivers training on an outreach and inhouse basis. All training is delivered either as an individual seminar or as a pre-employment course. Many clients are a long way from the labour market and in line with Futureskills Scotland Employers Survey, Ontowork concentrate on personal development skills training. Training offered to clients and partner organisations include: Steps to Excellence (6 day) confidence building course, communication, barriers to progress, assertiveness, team working, team management, dealing with conflict, decision making, CV preparation and interview skills.

Ontowork offer 1-1 support to clients through its Information Guidance on further education, training or job opportunities and by linking with the Citizens Advice Bureau to assist accessing Family Tax Credit and other money advice. Each client has a Personsal Action Plan which charts their route to training or employment.

Ontowork have a small computer suite where 1-1 tuition takes place.

The Job Access Service links SIP clients to jobs by matching the client to opportunities evailable via local and national newspapers and Internet recruitment sites, compiles CVs, delivers videod mock interviews and offers aftercare support when a client obtains a job.

Support services offered to clients via the Lift Off Fund include childcere/travel to interview costs, 1st months travel after obtaining a job, essential clothing ,tools, short training courses e.g. Rail Track Safety. Ontowork co-fund training applications such as HGV license and RGIT certificates with organisations such as Joblink and Action Team for Jobs.

At the first contact with Ontowork a progression route is agreed with the client.

There are four main strands to services, Assessment, F.Educ/Training and employment guidence, Jobs Access, Confidence building/Personal Development The client enters into services at their agreed level. An example of this would be clients some way from the labour markret accessing Personal Development training, moving on to information on training or employment and ultimately Jobs Access Services.

Version 12 10

provide copies of these documents. (3250 characters) Ontowork emerged out of a detailed consultation process which included a one day workshop while all learning, training and employment agencies in West Dunbartonshire were given the opportunity to input into the development of Ontowork. An ewayday with staff, Management Comittee and funders ensured that the project fit with the Social Inclusion strategies of West Dunbertonshire Pertnership, West Dunbertonshire Councils Joint Economic Strategy, Anti-Poverty strategy and lifelong learning strategy, the All Age Guidance bid by Careers Service and the Community Regeneration strategies of Scottish Enterprise Dunbartonshire. The current delivery of personal development training is a result of Futureskills Scotland Employer survey.

b. Provide details of relevant market appraisals, evaluations or feasibility studies. For some types of projects you may be asked to

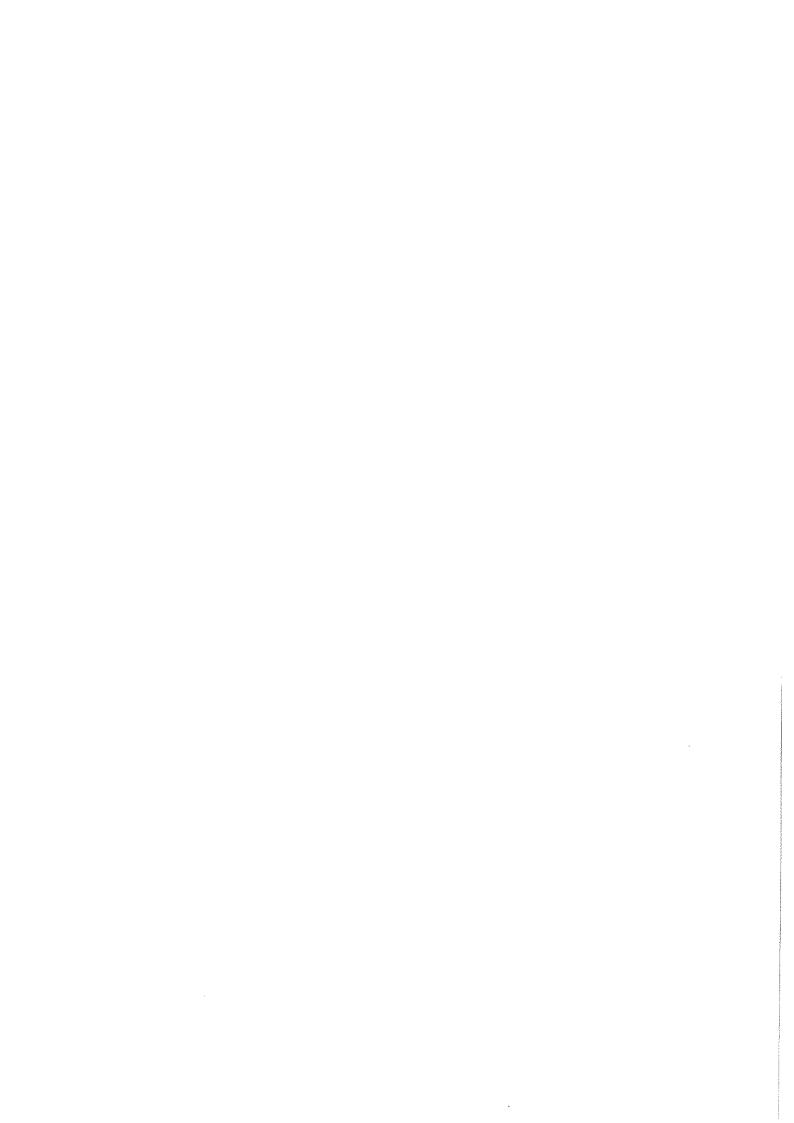

17. NEED FOR GRANT

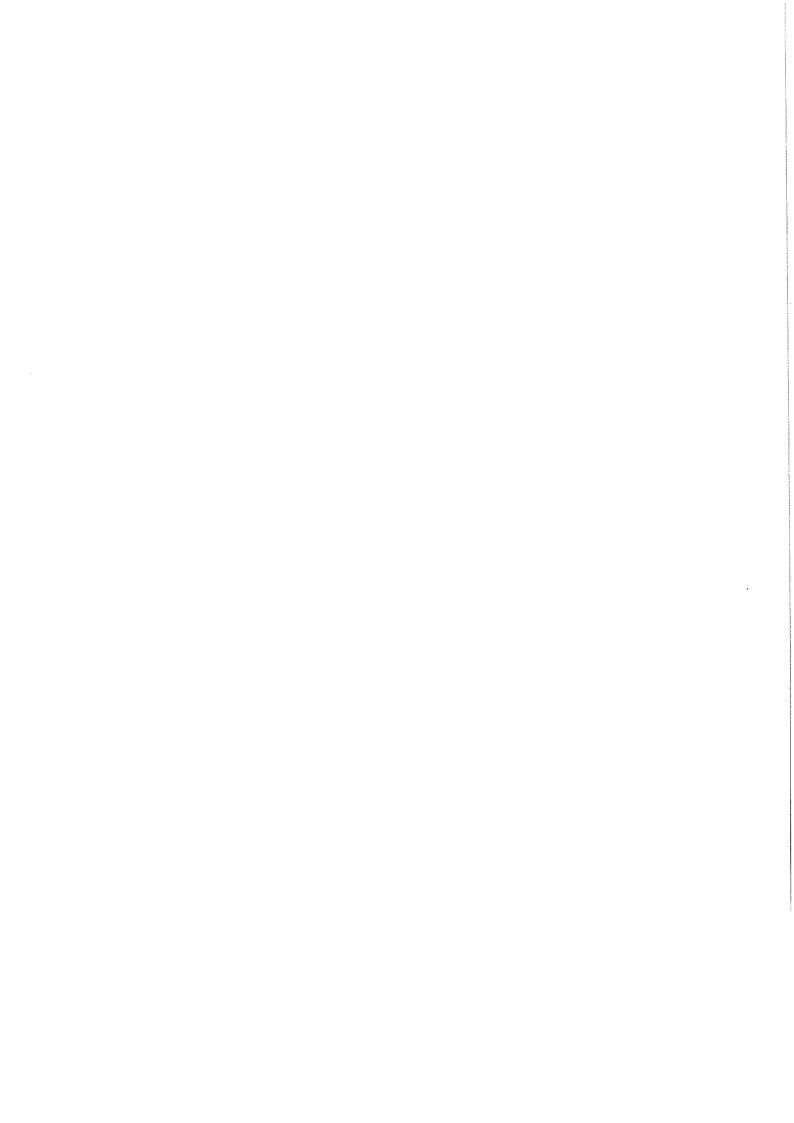

a. Will the project proceed without the grant?

b. Please supply information below to justify the answer given above. Please provide detail of any other additions justification for the need for grant, for example to improve the quality of the project or to increase the scale of the project (3250 characters) This project was submitted under the reserve list strategy agreed by the Western Scotland Programme Monitoring Committee, The Scotlish Executive and European Commission in June 2003.	t.
If successful, this funding would be used to enhance our current training facility and to work with West Dunbartonshire Pertnership to deliver specific training to Socially Excluded individuals.	- Passage - 1

19. EQUAL OPPORTUNITIES

Applicants are required to demonstrate that they have considered equal opportunities at all stages of the design of the project, and how it has been structured to ensure that equal opportunities will be mainstreamed throughout the project's aims and operation. The following questions are intended to allow applicants to describe the processes by which they have considered the equal opportunities implications on the design of the project and the evaluation of its objectives and outcomes.

a. Describe any potential barriers to access and participation to this project you have identified, for example, for women, ethnic minorities and people with disabilities, and how you made that assessment. (3250 characters)

Through networking with local statutory and voluntary agencies and 11 years experience of

working with clients looking for education/training or work, Ontowork have identified the lbarriers as:-
Access to current local and national labour market information
Acess to information on training courses outwith mainstream provision
Lack of confidence/self esteem/Personal skills
Access to finencial information/assistance
Childcare
Addictions
Mental & Physical Health Issues
Literacy & Numeracy
Outdated Skills
Gender imbelance

b. How will this project as proposed address these issues, and evaluate the outcomes against the equality objectives of the project and the Single Programme Document? (3250 characters)

To address the barriers facing the client group Ontowork provide a range of practical solutions and support measures.

Access to current labour market information

Ontowork offer a quality information service to clients by providing local and national newspapers, accessing relevent websites and by participating in appropriate networks.

Access to Information on courses

Networking with local organisations, Ontowork provides current information on training opportunities being delivered by organisations such as One Plus, Healthy Living Initiative. Ontowork are founder members of the newly formed West Dunbartonshire Training and Employment Connections and a website is currently being designed which will advertise the availability of local courses and ultimately clients can sign up for a course via the site.

Lack of confidence/self esteem/personal development

Ontowork offer the Steps to Excellence 6 day confidence building course to clients and through other organisations, Personal Development seminars - barriers to progress - communication - dealing with conflict - decision making - assertiveness - customer care.

Access to financial information/assistance

When clients obtain a job or training place, financial concems arise. Ontowork have an arrangement with the local Citizens Advice Bureau who advise on Back to Work benefits, student loans etc. Clients are also encouraged to discuss with the CAB any other issues eg debt they may have. This enhances the clients ability to sustain a job or training place. When clients obtain a job or training interview, Ontowork can fund travel and childcare through the Lift Off Fund.

Long term unemployed clients face financial difficulties in obtaining essential clothing or tools. The Lift Off Fund would be granted to allow the purchase.

The Lift Off Fund would fund renewal of certificates which had lapsed eg HGV licence.

Childcare

For clients ettending courses run by Ontowork, childcare costs are met through ESF funding.

Addictions/Mental & Physical Health Issues

Clients with addiction and mental health issues are outwith Ontowork's area of expertise, but referral arrangements are in place with organisations such as Alternatives (addiction issues) and SAM-H, Stepping Stones and Workable for mental health issues. Contact is maintained with client. Ontowork premises are fully accessible and Ontowork have a partnership arrangement with OPENING to access Specialist advice in preparing training materials for sensory impaired clients.

Literacy & Numerecy

Ontowork work closely with CLAN, WD Council initiative. Staff have received Spotter/Referral training from the initiative. All training materials are regularly reviewed for Literacy issues.

Gender Imbalance

Ontowork actively promote opportunities to males within the local growth areas of Tourism Hospitality as well as promoting technology training to women.

Ontowork increases the number of women accessing leaming and employment by working in pertnership with local groups such as Women's Ald and Gingerbread.

Ontowork have monthly monitoring systems in place and operate a planning-doing-reviewing

c. Describe the procedures in place to ensure your organisation meets its obligations as an employer, and as a service provider, under the appropriate equal opportunities legislation. (3250 characters)

To meet our needs as an employer, Ontowork have a Staff Handbook detailing Terms & Conditions of Employment, Grievance & Disciplinary procedures, Health & Safety Policy, Staff Tribunal Policy, Maternal/Peternal Leave Policies. Ontowork has adopted the Equal Opportunities Policies of West Dunbartonshire Council.

Staff have undergone training in Equal Opportunities delivered by the Citizens Advice Bureau. Spotter/Referral Training by WDC Adult Literacy Team. Speakers at Staff Meetings have included Alternatives (drug/alcohol issues), Stepping Stones (mental health issues).

Ontowork Staff Handbook has been used as an example of good practice. Ontowork aperate a Time Off In Lieu system and are seeking advice on Family Friendly Written Policies.

All training materials, are examined for gender and literacy issues.

Ontowork actively promote opportunities for employment in the Tourism and Hospitality to male clients who would traditionally disregard these opportunities.

Female clients are encouraged to take up technology training.

Version 12

20. THE ENVIRONMENT

a. What EC Directives or UK legislation is relevant to the project? What measures will be taken to meet or to exceed these regulatory standards? (3250 characters)

	All EC directives and UK legislation have been complied with and all appropriate certificates have been issued by Planning Dept. of West Dunbartonshire Council. The relevant legislation applied to the conversion is: Building Scotland Act and Regulations Town Planning Act Disabilities Scotland Access Guide	
	No hazardous materials were used.	
ŀ		
-		
ĺ		
L		

b. Describe, and wherever possible quantify, the project's positive and negative impacts on the environment in terms of the aims of the Programme, attaching the non-technical summary from the Environmental Assessment if one has been carried out. Explain the methods and techniques which will be used to monitor and assess impacts, with particular reference to:

- (a) Wildlife and nature conservation
- (b) Changes in land use, buildings or re-use of vacant and derelict land
- (c) Use of resources, including use of local raw materials, energy and water
- (d) Effects on air, water and soil quality
- (e) Modes and volumes of passenger and freight transport which will be generated by the project
- (f) Waste disposal, including waste minimisation and recycling
- (g) Training people in environmental management skills appropriate to the project (3250 characters)

at in gl	tractive sense, the improvement of the building has increased the physical tractiveness of the locality. The ceilings of the premises have been lowered and a plastisol sulated roof has been installed thus reducing heat loss and reducing energy costs. Double lazing has been Installed. Drainage has been upgraded. The courtyard/small grassed area regulary maintained with environmentally friendly products. Ontowork work with size an light Recycling in recycling office waste.
