April 2002- Standard

SCOTTISH EXECUTIVE FINANCE AND CENTRAL SERVICES DEPARTMENT EUROPEAN SOCIAL FUND GRANT APPLICATION FORM

APPLICANTS MUST REFER TO THE GUIDANCE NOTES BEFORE COMPLETING THIS FORM

Applicants should be aware that, if and when this, or any subsequently modified application, is approved the approved application form will become the first financial control document and will form the basis of any future monitoring or financial control inspection. For that reason, it is important that each section of the form is completed as accurately and clearly as possible and signed by your organisation's nominated, authorised signalory for ESF numbers.

SECTION 2 - PROJECT ELIGIBILITY

Applicants should note that any additional reports or annexes provided are at their discretion and may be considered during appraisal process but will not be scored.

2.1 Project Summary

Describe why the project is being carried out, what is being done and what are the forecast outcomes. Your answer should be sufficiently concise to be read as a stand-abne summary of the key aspects of the project as described in the detailed project description. Clear, plain English and the use of headings and paragraphs to emphasise the key features is advised. (3250 characters)

RATIONALE

The Leadership for Change pilot project is being carried out in response to consultation & research findings into limited existing services for professional development of senior managers of social economy organisations. (Learning at the Top, Mar 01 & Campaign for Leadership survey, Industrial Society, Feb 02). The identified, largely unmet need for continuous skills development (Skills Matter: VSNTO, 2000) is particularly evident in organisations working with deprived communities & those targeting excluded groups

During the project development phase (Sep 01-Mar 02) SCVO established a Leadership Advisory Group to fine-tune the purpose/scope of this pilot & explored through consultation events & surveys, the precise leadership development needs of the social economy. A need & wide interest for leadership development were identified. The project will enable managers & organisations to lead change more effectively & to implement innovative strategies for continued growth and sustainability

SCVO, Scottish Enterprise Dunbertonshire (SED), Glesgow (SEG), Lanarkshire (SEL), Renfrewshire (SER) and Scottish Enterprise National (SE), North & South Lanarkshire Councils, Leadership Trust, Scottish Leadership Foundation, Leaders at Work, SENSCOT.

Councils for Voluntary Service (CVS), (local voluntary umbrella organisations) & Social Inclusion Pertnerships(SIP) will also provide support to the project. This cross-sectoral experience/expertise has informed/added value to the design & delivery of the project TARGETING & ACTIVITIES

The project will deliver leadership training, networking, information & skills development for 30 managers of organisations working with excluded communities/groups, located in the SED, SEG, SEL & SER

It will deliver accredited & non-accredited training in a seamless & comprehensive package. Completion of training will allow beneficiaries to acquire a Managing People NEBSM certificate (Leveraging Leadership) fully complemented by further sessions in leadership, access to new & existing leadership networks & mentoring detabases, which allow cross-sectoral interaction & learning. The project will promote a culture of lifelong learning in social economy organisations to increase confidence & competitiveness & in turn, impact on local disadvantage and exclusion.

Beneficieries will be from eligible LEC areas, in eccordance with an egreed end transparent selection process, and those organisations targeting priority groups e.g. Black Minority Ethnic communities, women, (33% of beneficieries/organisations will be from SIP ereas).

Individual learning assessments, Personal/organisational action plans, NEBSM certificate, Graduation conference, Evaluation report

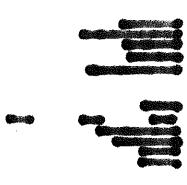

OUTCOMES/ IMPACTS

Beneficiaries will develop knowledge/skills to enable them to

Broaden, apply & cascade their vision of and skills re-leadership & entrepreneurship

Enhanced confidence & stretegic capacity to lead organisational competitiveness, effective change & innovative stretegies for growth & sustainability

Greater appreciation of other sector cultures, sharing best practice, new approaches to sustainability & allow for cumulative learning & avoidance of resource duplication.

¥

Detail how the project meets the strategic aims of the Programme. (3250 characters)

This project assists the fulfilment of the strategic aim of the Programme. GROWTH SECTOR

The project strengthens capacity of a growth sector by aiming to develop & ensure the sustainability & relevance of social economy organisations through leadership training. The opportunities are targeted at voluntary sector managers/ leaders, who can impact on the growth/sustainability of the social economy in the area. It is based on the formation & ongoing development of new networks commitment to innovation & development of new forms of leadership.

The Project will complement ERDF primarily through the Key Fund programme, e.g.

- Dunbartonshire & Lanarkshire, social economy organisations receiving Key Fund grants will have leadership training to encourage effective use of grants to further develop their organisations.

-specific support for leaders in West Dunbartonshire who are accessing support through the Social Enterprise programme.

In Lanarkshire the Community Economic Regeneration team (Key Fund), priority is given to community capacity building & development of the social economy.

-Ayrshire Management Centre, delivering the accredited element of the programme received finance from ERDF in 1994-96 Programme.

STRATEGIC OBJECTIVES

The project contributes to the 4 strategic objectives by:

- contributing to the "innovative capacity & competitiveness" of the region through the implementation of a skills development programme aiming to improve the sustainability & growth of organisations within the sector

- promoting "greater economic & social cohesion" by building the capacity of organisations that provide necessary service to some of the most excluded communities/individuals. There are 22 SIPs in the project area. Increasing capacity/sustainability across the sector will help reduce barriers, which perpetuate exclusion & ensure access to opportunities for individuals/organisations in areas of greatest need.

-assisting in the "protection & the enhancement of the environment" -facus on the sustainability of project resources will result in continued learning & cascading of knowledge beyond the life of the project. The project will expose social economy managers to a leadership network that will continuously update & raise awareness on, among other issues sustainable use of resources.

-contributing to the "promotion of equal opps" by addressing/reducing disparities relating to gender, ethnicity & ability.

KEY PŘINCIPLÉS

Meets the 5 key principles:

Partnership - commitment to a cross-sectoral partnership approach from design to delivery & evaluation integration—complementing & adding value to the wider policy & operational framework within the region. It fits particularly with the national Social Justice Agenda, & Scottish Enterprise Social Justice Action Plan

Targeting—areas of greatest need to maximise access to opportunity & reduce barriers to learning Innovation—draws on learning from previous projects & other sectors, & seeks to pilot these in bespoke Quality—through monitoring/evaluation. There is accreditation. It will use & raise awareness of quality tools such as IIP, SCVO Big Picture, EFQM Excellence Model

Version 24 3

Does this project complement a recognised area strategy? (1625 characters)
Social economy organisations share commitment to local area strategies. The project will complement local strategies for support to the social economy & boost the capacity of managers/organisations to engage constructively with key partners and to implement innovative strategies for sustainable growth. The project complements these strategies:
SCOTTISH ENTERPRISE STRATEGY It links with SE strategy, "Greater entrepreneurial dynamism & creativity" theme (under Scottish Executive "Smart Successful Scotland") which provides social economy "organisations with a degree of commercial development" with quality business advice. It fits current plans for social economy market segmentation & links with the "Social Justice Action Plan" as key workforce development client group.
SER, SED, SEL & SEG STRATEGIES LECs have ensured complementarity with their collective & respective local enterprise stratagies. Project links with:
-West Dunbartonshire (WD) SIP Strategy to support the social economy -WD Community Learning Plans & WD Community Plan
-Lanarkshire's Routes to Economic Inclusion recommendations; Changing Gear (local economic development framework) for "engaging with the social economy", Key Funds strategy & community economic regeneration aim
-N & S Lanarkshire councils' corporate & community plans, & strategic themes of the 5 Pan Lanarkshire SIPs
-Ranfrewshire Community Plan & the LEC strategy for supporting lifelong learning & tackling barriers facing disadvantaged areas
-SEG's new strategy supporting implementation of the Social Economy Business Support model

Version 24

2.2 Fit with Priority and Measure Selection Criteria

Detail how this project meets the relevant selection criteria for this Priority and Measure as set out in the Guidance Notes.

(3250 characters)

The project fits with P1.3 in the following ways:

It supports the skills & employment needs of a growth sector – the social economy. The voluntary sector in Scotland is large & growing rapidly, providing jobs & a diverse range of services. Research by SCVO's Research Unit over a number of years has provided an estimate of the size of the sector compared to others of the economy. With an income of £2.01 billion, the sector represents over 3% of Scotland's GDP, equivalent to Scotland's agricultural output. Recently, there has been a sizeable overall increase (10% growth) in the estimated income of the sector. The project will target senior managers of organisations which meet the criteria of SMEs. All the beneficiaries will work for small, independent, locally based organisations & employ fewer than 250 staff EQUALITIES

The project reflects a commitment to equalities & aims to address & reduce disperities relating (principally) to gender, athnicity & ability. It will do this both through a mainstreaming approach which will systematically incorporate equalities considerations into all aspects of the project (targeting, design & delivery) & through positive action measures address perticular barriers or lack of capacity. Beneficiries will also deal with equalities as a key issue for effective leadership during workshops. See Section 4.1

SKILLS DEVELOPMENT & SUSTAINABLE LEARNING OPPORTUNITIES

The project has been developed in response to consultation & research findings into the skills/employment needs of managers working in the sector. The leadership skills & capabilities that project beneficiaries & their organisations develop through this project will increase their capacity to compete affectively in a rapidly changing environment. It will improve organisation sustainability by encouraging an enterprising approach to managing change. Cascading of leadership development within organisations will help achieve improved awareness & commitment to continued skills development.

The project will meet the needs of organisations to prepare to manage new funding arrangements (e.g. available through The Social Investment Scotland initiative which introduces the potential for 3rd sector organisations to access funding through loans & business support) by increasing their professionalism & awareness of the economic environment & changes outside the sector.

The project will also assist in the promotion & use of ICT both as a valuable resource for promoting services, reaching new users & as a practical & flexible vehicle for the delivery of training/learning. Continuous support & liaison will be captured through the project's web pages that will link to the new Voluntary Sector Portal site – further enhancing ICT use across the sector & exposing employees to the benefits of e-commerce.

INNOVATION
The scope & purpose of the project was informed by all partners on the Leadership Advisory Group & through research/consultation with social economy managers in the programme erea. 'Exploring Leadership' events during the development phase & input from LECs, The Leadership Trust, SCVO & Social Entrepreneurs Network Scotland (SENSCOT), further refined the innovative approach to this pilot project.

Version 24 5

E

If your project is aimed at target ESF beneficiary groups, describe the problems experienced by these groups in entering or competing in the labour market. (3250 characters)

Evidence from the Government's Skills for Scotland Strategy document, shows general agreement that an investment in employee skills development will enhance the competitiveness of the labour market & organisations across all sectors & ensure a greater level of transferable skills.

A key outcome of the project will be to encourage social economy managers to recognise workforce training as an investment rather than a cost by providing positive job-related learning opportunity. The pilot will strengthen the link between learning & employment - which is one of the action plans in the Government's National Skills Agenda document: Opportunity & Skills in the Knowledge-Driven Economy.

THE SOCIAL ECONOMY

SCVO facilitated workshops in Inverness, Dundee end Edinburgh (Feb 2002) to secure input from the social economy to the EQUAL Theme D Strengthening the Social Economy development process. The report of these workshops identified the barriers to sector development that have implications for management and leadership:

A lack of stretegic approach and short sightedness

-Fregmentation and poor partnership working

- -Gaps in capacity lack of leadership, professional & managerial skills, entrepreneurial attitude & skills, staff development
- -Leck of strategic training for the sector

LEADERSHIP DEVELOPMENT - WEST SCOTLAND

The Leadership Advisory Group facilitated a consultation exercise to explore leadership development needs of social economy organisations during the development phase of the project. Results from the 'Exploring Leadership' seminars & survey show that:

-leadership development is considered vital to organisations and is required throughout the sector -leadership development needs are not currently being met through existing programmes -barriers to leadership development include poor attitudes to training, lack of opportunity for pertnership, limited resources, etc.

-93% indicated interest in participating in a leadership development programme.

Through consultation with the social economy, it has been identified that the sector's lack of stretegic focus, lack of recognition by other sectors, fregmentation and funding/finance pressures result from gaps in the sector's capacity. Whereas operational skills were viewed as good, leadership, professional and managerial skills were seen to be lacking.

Target beneficiaries for this project will be 30 managers of social economy organisations that serve the most deprived communities in Objective 2 eligible areas. The project will impact on the region (in the context of the social economy) to increase capacity of the sector to find innovative and sustainable solutions to deprivation & exclusion. The pilot project aims to establish a leadership development network to address the needs of managers & leaders in the social economy, in turn contributing to the general employee skills development, further strengthening the capacity of the sector.

Describe what national and local skill shortages, labour shortages, areas of occupational growth market opportunities and employers needs the project will address. Justify how the evidence presented in your application matches a need in the area (regional and / or local) and is best served by the specific projects/Affgred. (3250 characters)

The project eims to deliver leadership development to 30 social economy managers in the SED, SEL, SER, & SEG areas in response to evidence of the gap that exists, which impacts on the capacity for organisations to effectively serve their clients, (section 2.3 above)

PROFILE OF COMMUNITIES SERVED BY BENEFICIARIES

Beneficiaries' organisations serve communities of interest including New Deal participants, (facing both labour market & social/personal problems), minority ethnic, women & people with disabilities. This project will contribute to the capacity of the sector to find innovative solutions to deprivation and exclusion among the communities served. The project area has suffered from the decline of heavy industry. Unemployment & low levels of economic activity characterise the area. GDP per capita is below the UK level, only 92% for the region & as low as 68% for Dunbatonshire. Half of Scotland's deprived districts are in Glasgow & there are significant concentrations throughout the project area, Neerly half of Social Inclusion Partnerships (SIPs) are in the project area, where long-term unemployment rates are higher (43%) than in the West of Scotland & UK. Within these SIPs unemployment has declined more slowly than elsawhere, while young (18-25 years) & long-term unemployed make up a higher proportion of the entire region.

LEADERSHIP DEVELOPMENT IMPACT ON LABOUR MARKET

The social economy is a valuable source of new jobs. Based on the growth in the general charities (1996-98) there is approximate growth of 7,000 new jobs in the sector each year (SCVO research Unit 2000). Its substantial capacity and potential as a direct employer offers those facing exclusion, a route into employment (e.g. ND volunteering experience), contributing to meeting the demand for filling jobs in the labour market, predicted to increase, in the West of Scotland region, between 2001-2010 by: Retail/Catering +4,500 jobs

Public services +7,100 jobs Financial services +35,600 jobs Other services +2,000 jobs

In the project area the service sector is growing - public services are the biggest employer. The public sector from where the project beneficiaries originate is forecast to provide the second highest additional jobs by the end of the decade. Most of the jobs will be in professional, management & administration. These factors are predicted to contribute to a continued shift in the structure of the labour market, resulting in the demand for effective training to meet the demand for these skills & requiring organisations to be flexible & lead on effective recruitment strategies. The project aims to benefit from growth in the service sector providing effective leadership to progress labour market opportunities & to create sustainable enterprises, enhancing the sustainability of jobs & organisations.

Developing the leadership skills of managers of social economy organisations is a key development opportunity which meets an urgent need for SMEs across all sectors, to improve competitiveness to meet the challenges of a global, increasingly knowledge based economy & to increase the importance of sustainability & growth to continue to provide innovative solutions to economic & social regeneration.

Name the key source documents used in compilation of your labour market justification. No more than 4 documents should be listed and should be directly relevant, current and reflect the regional and local case for your project.

2.4 Project Added Value

Is ESF grant essential for the implementation of this project?

Yes 😜 No

What added value will be produced by the award of ESF grant? Your answer should refer to the types of activity covering ESF
and added value as detailed in the guidance. (1625 characters)
The Leadership for Changa project is a 15 month pilot covering the LEC ereas of Lenarkshire, Dunbartonshira, Ranfrewshire and Glasgow.
The project will support 30 managers from voluntary sector organisations to go through a programme of training and support. WITHOUT ESF SUPPORT, THE PROJECT WILL NOT PROCEED.
The pilot is new and additional to the current activities that SCVO and partners can deliver to Objective 2 target areas and communities. Additionality can be demonstrated as follows: * A unique fusion of agencies/sectors to enable access to an innovative range of learning opportunities not previously available to the target group * An integrated training package with trainers/facilitators * Cross-sectoral design and delivery structure facilitating good practice exchange *cross-sectoral structure which builds in sustainability and commitment to leadership skills
·
Does the project involve match funding from Government Programmes,
e.g. TFW / New Deal/ EZ? Your answer should refer to the guidance for

definition of added value in relation to Government Programmes. If Yes, provide details where relevant (1625 characters)

Version 24

2.5 Good Value

Please give a brief good value statement and detail the good value considerations undertaken in the project's development. (1625 characters)

SCVO is committed to good practice, seeking bast value through competitive procurament. This project augments SCVO's established experience of working with specialist consultancy support. Direct costings for the project are based on actual costs of previous projects with similar activities and support measures.

Project costs, including staffing levels, reflect the extensive and integrated training package, guidance and lieison function and the impact they are designed to effect. The external facilitator budget reflects the costs of securing the expertise necessary to guide social economy managers through organisational, cultural and economic change. Learning materials and resources from the pilot may be utilised during and beyond the life of the project. Costs also reflect quality and properly accessible and

serviced venues for effective delivery.
Good value will be achieved by securing the following:

Outputs

30 voluntary sector managers undertaking a series of structured training workshops designed to meet their personal and organisational development

requirements Minimum of 24 managers from an expanding sector (social economy) gaining a NEBSM Modular Cartificate in Management

Impacts

Increased awareness & skills in Leadership within the sector

A nominal charge is made to beneficiaries to strengthen commitment, participation and retention. The project will promote lifelong learning and will ensure the widest possible access across the sector. Support measures will also improve accessibility and participation.

SECTION 3 - DETAILED PROJECT DESCRIPTION

3.1 Content

Outline the skills / other content of the project, including details of core skills as outlined in the guidance notes. (3250 characters)

The project will deliver leadership training, information & skills development opportunities for 30 managers whose organisations are working with excluded communities & groups & are located within the eligible areas. Support & liaison from project team & facilitators/trainers & mentors will ensure optimum attendance & participation from beneficiaries. Information bulletins & web resources will ensure continued learning between modules.

The project will deliver an intensive package of accredited & non-accredited training in a seamless & comprehensive package. Completion of the training will allow beneficiaries to acquire a NEBSM certificate in "Managing People", fully complemented by further training in leadership, access to new & existing leadership networks & mentoring databases, across sectors.

Development Phase (Oct 2001-March 2002)

The development phase saw the formation of the Leadership Advisory Group which had & will continue to have a key role in the design, delivery & review of the project. Three 'Exploring Leadership' seminars aimed at consulting on the leadership needs of managers in the social economy across Western Scotland took place between October 2001 & March 2002. Additional consultation was carried out using a questionnaire. Information from this consultation phase was evaluated in a report & used to inform the content and design of the project. Benchmarking of existing leadership programmes also took place during this phase. Expert advice of practioners in the field of leadership here in Scotland (Scotlish Leadership Foundation, Leaders at Work & The Leadership Trust) was sought in the design of the programme. These organisations will continue to have a key role in the delivery of the project & support to the beneficiaries.

PROJECT CONTENT OUTLINE

YOU, YOUR ORGANISATION/TEAM - Looking Forward

- -Induction
- -Effective leadership
- -Stakeholder analysis, environmental scanning & spotting development opportunities
- -Relationship building & maintenance, power, trust, influence & negotiation

YOU, YOUR ORGANISATION/TEAM - Looking Inward

- -Teamwork
- -Time management & delegation
- -Managing change, including team & individual development, coaching skills, nurturing innovation
- -The leader in you
- -Recruitment & selection, incl. Interviewing skills, equal opportunity considerations, strategic recruitment
- -Pertormance management & measuring leadership effectiveness
- -Stress management

YOU, YOUR ORGANISATION/TEAM - Looking Outward

- -Sustaining for growth, mapping the future
- -Leadership for change
- -Image, impact & being the confident you
- -Post-programme review
- -Graduate conference

The programme will involve formation of peer learning groups, use of mentoring support & will facilitate the use of ICT & formation of a leadership network for the sector & one that taps into other existing leadership networks (e.g. Scottish Leadership Foundation's 'Women's Voice Network, for women in leadership).

Equality of opportunity & issues of sustainability will be key themes, which will run through the delivery of all project activities. There will also be specific focus on equalities & sustainability in the context of leadership.

Version 24 14

3.2 Structure / Delivery

Outline how the project will be structured and delivered. You should include details of the duration, mode of attendance, method of training (1625 characters)

The project will be delivered over 15 months & will be informed by results of consultation of the sector & development work undertaken by SCVO & partners on the Leadership Advisory Group.

ERDF funded & Local Enterprise Company venues will be used for the delivery of project activities. Formal delivery will mainly be done in 2 cohorts of 15 beneficieries each in their local erea to promote good attendance & minimise travel. Some sessions will bring all beneficieries together to facilitate networking.

Delivery of the modules will be shared by Scottish Leadership Foundation, Leaders at Work, The Leadership Trust & Ayrshire Management Centre. Mentoring support will be through existing mentoring programmes e.g. the Lanarkshire Business Support Group, Scottish Business in the Community, Dunbertonshire Business in the Community & SENSCOT members.

The programme will deliver 208 hours of training/support over 15 months:

Formal participatory workshops 11 sessions -119 hrs

Work-based assignment -14 hrs

Mentoring sessions & peer learning groups carried out in non-formal sessions (face-to-face, Email, telephone, & video conferencing) – 40 hrs

Programme review against learning goals & after care support to foster continued learning & peer support opportunities -11 hrs

Graduete conference to share the outcomes of this pilot project, promote & share leadership development with a wider audience -7 hrs

Additional support will be provided by SCVO and will involve 17 hours over 15 months. This includes support for development of personal Action Plans that link to organisational plans.

3.3 Beneficiary Activities

3.4 Recruitment / Initial Assessment

If your project is involved with training and skills development, how will recruitment and initial assessment of beneficiaries be undertaken? Please detail any identification of individual needs and / or action planning involved in the project. (1625 characters)

Through the 'Exploring Leadership' seminars & survey carried out during the development phase of the project, the project has been able to assess interest in leadership development - 93% of participants were keen to participate. Following on from this beneficiaries will be recruited & the project promoted to all sections of eligible areas through the project partners'/ LECs networks (including SIPs & CVS).

A recruitment questionnaire will set out criteria for selection (based on attracting a range of beneficiarles from a wide range of organisations which meet the criteria of SMEs: (targeted services, intermediaries, smaller community-focussed, those organisations serving minority ethnic communities/women/ & services of support to disabled.) This will also give an outline of the programme together with key requirements & time demands which beneficiaries would need to commit to.

Written guidance will be provided for beneficiaries to negotiate & agree personal & organisational learning goals with the person they report to in the organisation. On this basis initial assessments & identification of learning needs & action planning will be carried out at the start of the programme. This will continue throughout the programme & will be used in the programme review at the end of the project.

3.5 Aftercare

Please describe and quantify, if possible, any aftercare involved in the project. (1625 characters) The website will be integral to effective communication during the course of the learning programme & will foster a formulable of learning programme.	\neg
foster a 'community of learners' amongst beneficiaries, project staff, pertners, external facilitators. It is one of the aims of the project to foster the development of a leadership network for the social economy sector. It is anticipated that participation in the leadership development will give confidence to beneficiaries & open up other leadership networks across sectors, promoted through contact with such organisations as Scottish Leadership Foundation & The Leadership Trust. This will promote continued involvement & interest in leadership development & sharing of practice beyond the delivery of the leadership development modules, enhancing further group interaction & peer support.	
The project will deliver two formal days of aftercare with all beneficiaries: - to benchmark progress against Personal & Organisational Action Plans (& to identify any further support/resources required)	
 - a follow-up visit to the beneficiaries organisation to identify & respond to any gaps in support/resources -Further aftercare will be provided through continued access to mentoring support available for as long as required through LEC mentoring support programmes.

3.7 Support Measures

Detail the support package available to beneficiaries. Why is this the most appropriate package for the beneficiaries concerned? (1625 characters)

The project will provide the following support:

- Child/dependent care allowance & Travel costs (evening/weekend delivery)
- Travel & subsistence (eithough most of the module delivery will take place at central venues in the beneficiaries' local area)
- Training materials
- Mentoring match up
- Peer Support (-A Conference to share outcomes of the pilot project with a wider audience, & canvas interest in a future mainstream project)

- Development Officer support

The project has endeavoured to strike a balance between unrealistic allowances, but provide adequate & appropriate support measures to combat the issue of retention. In most cases beneficiaries will be key personnel & the most senior decision-maker with supervisory duties. Although individual commitment from beneficiaries will be recorded at the outset, the project team, with support from the Leadership Advisory Group, will have a support/liaison role to maintain interest & engagement. Web enabled communication & resources will encourage group interaction/peer support.

It is anticipated that the capacity to participate in the leadership project amongst beneficiaries will vary considerably, both in terms of prior knowledge in this field & also in terms of practical arrangements. In the development phase cross-sectoral partners (based on previous experience of engaging SME employees), identified that needs would vary & an adequate level & support package would need to be met. Individual tearning & support assessments will be integral to identifying needs & to ensure that support (both learning & practical) is identified from the outset.

3.8 Partnership

Describe any partnership arrangements (including sub contract arrangements) for the delivery of the project. (1625 characters)

SCVO established a Leadership Advisory Group in the development phase to fine-tune the purpose & scope of the initiative. Key partner agencies across Western Scotland are supporting the need for this project & are represented on the Advisory Group. In addition the project will benefit from partnership involvement of leadership development practioners, both on the Advisory Group & in the delivery. Partners:

- SCVO lead partner with overall management responsibility for project implementation, recruitment, administration, financial management, monitoring/ evaluation & dissemination
- Scottish Enterprise Lanarkshire, Scottish Enterprise Renfrewshire, Scottish Enterprise Dunbartonshire & Scottish Enterprise Glasgow - funding partners, also providing Leadership Advisory Group support & venues
- Scottish Enterprise National funding partner
- North Lanarkshire Council & South Lanarkshire Council funding partners
- Social Entrepreneurs Network Scotland access to network consultation on leadership/entrepreneurial agenda
- The Leadership Trust, Scottish Leadership Foundation & Leaders et Work are crucial pertners & will give
 expertise in design & delivery of high quality leadership development courses (currently primarily accessed
 by private & public sectors) ref. section 3.2
- Ayrshire Management Centre partner responsible for delivering the accredited component of the programme.

Describe the local or regional partnership arrangements in place. (1625 characters)
LEC partners provide the apportunity and resources to test a coordinated response to development needs of the social economy in the region. The pilot project involves four LEC areas Lanarkshira, Dunbartonshira, Renfrewshira & Glasgow partly in consideration of effective delivery & also because organisations in the SE Ayrshira area are currently involved in other initiatives. SEA was however fully consulted about involvement
& there is interest for involvement at a later stage. Partnership for this project has expanded to ensure targeted support across the area & to add value to existing support to the social economy. Partnership arrangements explored with CVS during the development phase will be strengthened during implementation. CVS will provide support throughout the project including recruitment.
Senior Executives of leading organisations in the social economy (One Plus & Kibble Education & Care Cantre) assisted in facilitating the development phase seminars & commented on leadership development. Overall partners will:
- provide expertise in respective areas re-leadership & management development programmes - build links across sectors & access to other leadership & management development networks beyond the social economy & information exchange - ensure mentoring match up to encourage cross-sectoral exchange
- support monitoring & avaluation - host meetings/ avents (ERDF venues)
3.9 Previous Experience
What is your organisation's previous experience of operating projects of this nature (1625 characters)
As the umbrella organisation for the voluntary sector / social economy in Scotland, SCVO has considerable experience in delivering projects of this type. SCVO has managed a number of successful programmes/interventions aimed at developing the capacity of the sector, and has direct experience of working with voluntary sector organisations and managers.
Professional and specialist development staff support a range of networks and organisations including SIP representatives network, Black and Minority Ethnic Minority-led organisations, New Deal consortia and the CVS Network.
SCVO is also experienced in operating successful partnership projects such as the Obj 3 Priority 4 partnership project with the Councils for Voluntary Service, a Community Chest partnership project with the Coalfields Regeneration Trust, and New Deal ESF projects.
SCVO has affective administrative procedures and robust financial systems in place to deliver a project of this nature and has a clear monitoring and evaluation process.

Outline your organisation's track record in operation of European Social Fund projects, including relative success in terms of achievement of financial spend, profile and outcomes. (1625 characters)
SCVO has a successful track record of managing ESF funded projects (Obj 3 Programme) -Obj 3 P4 partnership project with Councils for Voluntary Service Community Chest pertnership projects with Coalfields Regeneration Trust -SCVO also managed one of thirty European Commission pilot (£1m pilot) Local Social Capital Projects with the aim of enhancing social & economic cohesion across the West of Scotland. Following on this success SCVO is currently managing the Direct Grants Ob 3 programme & Development Partnership for EQUAL Theme D. SCVO is Development Partner for EQUAL Theme A
ESF funded projects managed by SCVO include: Objective3 Priority 4a – Big Picture Development ref 3M2000/1/4a.1/9 To date: achieved financial spend Achieved/exceeded targets on Nos trained, companies helped, No. of TNAs, materials developed.
Objective3 Priority 4b - Community Ventures Project
SCVO's New Deal projects in 2001 in O3 Measure 1.1 exceeded anticipated targets, achieving: 45% into employment 10% into self-employment or training 100 % receiving training
New Deal projects Objective3 Priority 1.1
Lanarkshire Work With Us 992075SO3 Qualifications (or modules towards) 100% Non-return to unemployment 30% Meeting target group on target with original application
Tayside Work With Us 992125SO3 Qualifications (or modules towards 100% Non-return to unemployment 61% Meeting target group on target with original application
Was your organisation funded by ESF or any other Structural Fund or Community Initiative to operate any similar project or (in the case of ERDF/EAGGF) projects with linkages to this or a similar project in 2000/2001?
If Yes, Dossier/Reference Number(s)
Project Title(s)

IMPACTS

increased knowledge and application of Leadership and Entrepreneurship

Cultural shift (personal/professional)
Enhanced sustainability of beneficiaries' social economy organisations
Enhanced sustainability of beneficiaries' social economy organisations
Increased confidence and strategic capacity of beneficiaries to enable more effective change management and innovative strategies for growth
Increased cross-sectoral working and sharing of best practice allowing cumulative learning/avoidance of resource duplication

Progress towards project autouts and outcomes for beneficiaries and social economy organisations will be measured by: Where appropriate, describe systems in place within your organisation to measure progression of individuals. (1625 characters)

Individual learning assessments and evaluation of same Ongoing auditing of sector profile Caqual Opportunity monitoring/ evaluation (recruitment, venues, location, accessibility of material) Follow up beneficiary contact to assass progress Monitoring of participation rates in all project activities Monitoring of beneficiary satisfaction SCVO's performance indicators SCVO's monitoring and evaluation strategy Annual membership survey (SCVO) Measured against SCVO Strategic and Operational Plans, in addition to project plans.

SECTION 4 - COMPLIANCE

4.1 Equal Opportunities

Does the project applicant have an Equal Opportunities Policy?

Does the project applicant understand its responsibility to ensure that Policy?

Does the project applicant understand its responsibility to ensure that Policy?

What equal opportunities considerations have been made in terms of the design and proposed implementation of this project? Your answer should include the focus of the project, planned recruitment process, project design and materials used.

At an organisational level, SCVO has reviewed and updated its Equal Opportunities policy. This work is spearheaded by an internal Equality and Diversity group, which is in the process of rolling out equalities training to SCVO staff, including staff employed on this project. All partners involved in the project are committed to Equal Opportunities and have well established policies and practice.

The Leadership for Change project will consult with staff from SCVO's Developing Equalities in the Voluntary Sector staff, funded through Obj 3, to ensure that best practice has been incorporated into the design and delivery. Equal Opportunities policy and practice will be incorporated into the training component of the programme. This will include elaments to combat prejudice and discrimination and family friendly policies.

Recruitment onto the Leadership for Change programme will actively take into consideration equalities issues around participation in the project relating to all minority groups, including the format of training materials in workshops and appropriate support through guidance and support. The project will pro-actively encourage involvement from societal groups that traditionally face barriers to participation in the labour market, increase skills of women and will address the specific needs of people with disabilities, black and minority ethnic-led organisations and womem-led/focussed organisations. The project will adopt family friendly policies and practices, use of accessible venues and ensure that they are conveniently located for public transport links.

4.2 Sustainable Development

How does this project contribute to the aim of sustainable development? Your answer should refer to the means by which the project will raise awareness of, and promote, sustainability and assist the integration of sustainable development at an organisational level, and in particular how it addresses the 12 core criteria detailed in the guidance (4925 characters)

The aim of the project is to promote the introduction and implementation of sustainable strategies through effective leadership. The project will focus on different aspects of sustainability as a key issue to be explored during the training.

RESOURCE EFFICIENCY: At an organisational level, SCVO are about to undertake an environmental audit and have introduced recycling and energy saving. The project communication through ICT (administration database, email, Website) reduces paper consumption resulting in resource savings in paper, postage and travel costs.

ENVIRONMENTAL IMPACT. The project minimises negative environmental impact as activities will take place within existing organisations with no direct need for increased use of resources. Travel by public transport will be encouraged.

ADDITIONAL JOBS Jab retention will be enhanced for managers and staff within voluntary organisations participating in the project and implementing sustainability strategies. One FTE SCVO job will be created as a result of the project.

ACCESS & OPP The project will pro-actively tackle all forms of discrimination. The project will adopt good practice itself, and promote the importance of providing accessible, inclusive and supportive services. Child and dependent care will be provided where necessary for beneficiaries and flexibility of delivery will be built into the design where possible.

LOCAL ADDED VALUE The range of support from local partners (LECs) across the programme area represents added value. The project also provides value by supporting third sector managers to identify and target service gaps within their organisations. It will enable beneficiaries to generate innovative responses to these gaps, and access new funding opportunities, partnerships, networks, and Local Authority Initiatives. CAPACITY BUILDING A main objective of the programme is to build the capacity of beneficiaries to engage fully with new approaches to leadership, management, including the use of models based on social entrepreneurship. This will enhance beneficiaries' capacity to access local funding apportunities and service level agreements. These new approaches will enhance participating organisations capacity to support the most excluded groups to access training/employment opportunities.

SOCIAL INCLUSION. The voluntary sector provides a variety of services to excluded communities and has a tradition of developing innovative solutions to inclusion and reganeration issues. Participating organisations and beneficiaries of this project, their managers, will be no exception. Through learning and implementing new approaches, these organisations will become more sustainable and be able to develop innovative, accessible, flexible, targeted and supportive services for excluded individuals and groups.

accassible, flexible, targeted and supportive services for excluded individuals and groups. STRATEGIC INTEGRATION The project complements the Scottish Executive's Skills for Scotland by upskilling managers from a growth sector, as well as Scottish Enterprise National strategies. The project will strengthen the ability of the social economy managers and organisations to participate in local, regional and national strategies to promote social inclusion, social entrepreneurship and economic regeneration. DURABILITY & FEASIBILITY The project is designed to be a pilot, which will produce a model for a Leadership for Change programme of activities responding to the needs of the sector, that can be used by social economy organisations. The project will use a combination of community development / empowerment approaches and social entrepreneurship mpdel to encourage local organisations who work with excluded groups to become active participants in strategic partnership and policy development work at alla levels. Experience and skills gained by benaficiaries will be recorded (Personal and Organisational Action Plans) and will impact on beneficiaries and organisations beyond the life of the project. At an organisational level SCVO, though not dependent on Structural Funds for all services delivered, is entering into discussions with other strategic partners (Scottish Executive, Communities Scotland and Scottish Enterprise etc) on continuation strategies, where appropriate, for various projects/programmes supporting the voluntary sector. INFRASTRUCTURE IMPACT The project will impact positively on the region's infrastructure by making use of existing buildings, encouraging the use of public transport.

LEVERAGE Without ESF the project would not go ahead. If this application is successful, the project will lever in a minimum of £48,000 from partners.

EVIDENCE OF DEMAND Demand has been identified through the initial consultation with the social economy in the development phase and workshops in Glasgow, Clydebank and Paisley.

4.3 Information Society

What aspects of the project will promote the dissemination and application of information and Communications Technology? Your answer should outline (as applicable) the means by which the project will raise awareness of ICT opportunities, increase the number of individuals engaging with ICT (e.g. through ICT related training information and guidance), support the wider dissemination of ICT by Scottish enterprises and research into the impact of ICT upon the Scottish economy. (1625 characters)

The project will rais awareness emongst beneficiaries of the growing need to become ICT literate in order to effectively share information, resources, knowledge and skills.

Specifically through the web pages, beneficiaries will identify and engage with the emerging knowledge-based economy through provision of ICT / web access to learning opportunities, social entrepreneurial network bulletins, enhanced communication with partners and other agencies.

Project staff will be actively encouraged to use, learn and develop ICT skills on a progressive basis. Communication between partners and with beneficiaries will be through the use of ICT wherever possible. Presentations and training will also make use of ICT.

The project will raise awareness of ICT related skills training and information by connecting each project beneficiary to the workwithus portal. The portal will develop ICT skills by providing the information context for a sizeable portion of beneficiaries work, learning and development needs.

ICT will be provided directly through:

- * One to one suppoprt
- * Small group development actions focusing on network development

4.4 Lifelong Learning

How does this project contribute to the advancement of lifelong learning? Your answer should refer to the extent to which the project will increase the demand for learning and promote lifelong learning at an organisational level. (1625 characters)

SCVO has been responsible during the last 5 years for implementing the work of the Voluntary Sector National Training Organisation (VSNTO) in Scotland. The work included informing the sector about lifelong learning policy and practice generally through regular briefings and newsletters as well as the special VSNTO website. We are regularly consulted on policy initiatives related to lifelong learning. SCVO recently gave written and oral evidence to the Scotlish Parliament's Enquiry into Lifelong Learning and were invited to co-ordinate the voluntary sector contingent of 15 participants to its consultation on the Interim Report in Edinburgh on 15 April.

The NTO last year carried out various projects relating to lifelong learning including work on national occupational standards. S/NVQs and accrediting training. We have also run a two-day lifelong learning convention for the voluntary sector during the last 4 years.

This project will enable participants to angage with a range of learning opportunities by adopting the following measures:

- Building the capacity of local voluntary organisations by supporting managers through a training programme responding to identified needs
- * Facilitating information exchange, discussion, networking and peer support
- * Promoting links between sectors
- Developing a Leadership for Change model/framework that can be used by the social economy and raise awareness of leadership and social entrepreneurial approaches.

4.5 Support for Local Initiatives

How does this project contribute to the provision of support for local initiatives? Your answer should refer (as applicable) to how the project will support existing local initiatives and / or develop new initiatives where a lack of provision currently exists.(1625 characters)

Linking with local initiatives is an integral part of the project which is designed to enhance local activities and services provided by social economy organisations. The project is delivered in partnership with Local Enterprise Companies and intermediary organisations and specifically targeted organisations in the Glasgow, Lanarkshire, Dunbertonshire and Renfrewshire areas. Training events, seminars and network meetings will be held locally.

The project will enable beneficiaries and their organisations to:

- * Source locally produced materials * Identify local training providers
- * Identify local information services
- * Identify local organisations for networking/partnership opportunities

The project will aim to tackle social exclusion and pockets of rural deprivation through promoting links with SIPs, Local Authorities, Health Boards, LECs, and Local Businesses and encourage meaningful participation in relevant programmes such as:

- * Local Authority Community Learning Plans
- * New Deal/Welfare to Work
- * Childcare Partnerships
- Community Care
- * Local Economic Initiatives
- Equality issues Development
- * Health Education and Promotion

The project will support the development of new initiatives through the promotion of community leadership/social entrepreneurship as a model for social economy working. It will enable beneficiaries to identify their organisations as SMEs and tro develop flexible, competitive, innovative projects in response to gaps identified by personal/organisational assessment.

4.6 Tendering Arrangements		
Please confirm that all Public Procurement and Supplies Directives have been, or will be, complied with.	🐠 Yes	⊘No
For contracts or groups or service contracts with a forecast final costs aver 214,3. Have the contracts been advertised in the Official Journal of the European Communities?	26 euros	⊛ No

4.10 Publicity Requirements
NOTE TO APPLICANTS: It is a condition of grant that the ESF contribution to this project is publicised in accordance
Please indicate which of the following forms of publicity will be implemented:
▼ a. Permanent Piaque on the Premises
▶ b. Specific Press and Media Releases
⊽ c. Acknowledgement in all Media ⊽ d. Acknowledgement in all Project
♥ e. Awareness as part of Beneficiary
P f. Acknowledgement in all Learning
g. Other (please specify)
Outline the publicity strategy for the project. (1625 characters)
A publicity strategy will be designed with planned implementation throughout the life of the project. The startegywill
observe published EC Guidelinas and will incorporate a range of activities to promote the project and the role of
The state of the s
Activities: * All communication and promotional material will carry the EC agreed logo. Logos will be copied to partners
with guidance on appropriate usage
* Both interal and external dissemination will always acknowledge ESF funding. Wider dissemination at local level to secondary beneficiaries, ESF target groups, local partners, stafeholders and the wider public will
further cascade this message
* Regular update reports may be published through Third Force News (weekly newspaper published by SCVO) * The communications strategy will incorporate public relations activities such as media releases, articles in
partners' publications and relevant media
* Plannad events * Project information on SCVO website and Leadership for Change web pages
* calendar of planned activities circulated
* A media database will be collated
Implementation will be monotored at regular intervals to benchmark progress and review priorities.

4.12 Certification by Applicant Organisation

To be signed by a Designated Officer of the Applicant Organisation.

PROJECT TITLE Endering for Change

I certify that the information contained in this Application is correct and confirm that this project will be carried out as described, and that the grant requested is the minimum necessary for the project to proceed.

I confirm that this organisation will undertake regular monitoring of the project to ensure it conforms to the application and the Regulations and that adequate management and financial safeguards, including internal audit procedures, exist.

I will inform the Programme Management Executive and the Scottish Executive immediately and within the life of the project of any significant changes to the project.

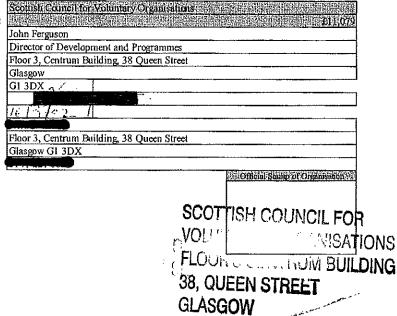

I acknowledge that this project will be subject to regular monitoring and undertake to keep adequate records for this purpose. I also acknowledge that the European Commission, the European Court of Auditors, and/or the Scottish Executive may carry out on the spot checks.

I undertake to repay on demand, to the Scottish Executive, any grant paid, if the European Commission, the European Court of Auditors and/or the Scottish Executive decide after investigation that the project has not been carried out in accordance with the application and/or the European Social Fund Regulations.
