Your ref: 75/333/0024
Our ref: WHMR Replace with CPP27s
1 June 2018

Dear Auchencheyne Limited,

Replacement of the Notice Restricting the Movement of ALL Cattle off the Holding CPP28s with Notice Restricting the Movement of Individual Cattle CPP27s.

Further to the issuing of a CPP28s on the 26th March 2018, I am now able to replace the Whole Herd Movement Restriction CPP28s with a Notice restricting the Movement of Individual Cattle CPP27s.

The 249 cattle which were found at inspection to have identification and registration discrepancies (and subsequently had their passports uplifted) will be moved from a CPP28s restriction to being issued with Notice of Registration documentation in the next two weeks. Please read the Notice of Registration information on receipt of the documentation so you are aware of the movement restrictions placed on these animals.

You can now move animals with valid passports; the **exception being the cattle referred to in the attached CPP27s Notice Restricting the Movement of Individual Cattle.**

The animals detailed on the CPP27s have outstanding identification and registration discrepancies which require further action to allow the individual cattle restriction to be lifted.

The cattle are detailed on the CPP27s and CPP27s annex. They are summarised below;

31 cattle passports remain to be surrendered to RPID by the business for cattle on farm with outstanding Date of Birth discrepancies. Please surrender the passports to the SGRPID Dumfries office.

1 new born calf registered with a date of birth 18/06/2017 requires a Notice of Registration as at inspection in 2018 it was confirmed as a new born calf.

12 cattle were found to be missing both official ear tags and were identified by other means. These cattle have a discrepancy code 'TG1' on the CPP27s and I need to re inspect these

INVESTOR IN PEOPLE
POSITIVE ABOUT DISABLED PEOPLE

cattle to ensure you the cattle are retagged with two official tags. Once these are inspected at the re-visit these will be resolved and the restriction for these animals removed.

1 unidentified animal tagged temporarily with a green BCMS tag BCMS 002552 will be processed through the Notice to Identify procedure by BCMS.

10 cattle found at inspection with no birth information registered with BCMS within the 27 days from birth regulatory requirement. The CPP27s restriction can be lifted once you receive a Notice of Registration from BCMS for each animal.

4 cattle notified to BCMS as having moved off the holding were found to be on farm with no passport. The CPP27s restriction will remain until further checks have been completed.

1 LU heifer notified to BCMS as having moved off farm found on farm with no passport however CTS records the animal as CHX male. The CPP27s restriction will be lifted once you receive a Notice of Registration from BCMS for this animal

1 newly purchased bull where the record and passport have not yet been inspected. The CPP27s restriction will be lifted once the record and passport have been inspected.

5 calves confirmed as registered with a false date of birth to obtain a cattle passport and their 4 Dams still on farm.

The 47 cattle requiring to be re-inspected for correctness of tagging, identification and registration are;

At the conclusion of the cattle identification inspection [redacted] left you details of all the cattle found to not be tagged in line with the cattle identification and registration legislation. The letter explained the requirement for you to retag these cattle within the period of 28 days from the date entered on that letter.

I have to carry out a re inspection of the cattle on the above list and I am providing notice that RPID will visit your holding at Auchencheyne on **Thursday, 7th June 2018 at 1 p.m.** Please arrange for the cattle listed above to be presented for inspection.

BCMS have informed me they have issued the following 6 cattle passports to you in error. Please return these passports to RPID. These have also been added to the CPP27s restricting them to your holding.

BCMS act as agents for and on behalf of the Scottish Ministers

These animals must not be moved off the holding unless:

- the discrepancies listed in the table above are resolved and BCMS have been informed, or
- you have been issued with an appropriate licence by an officer of the Scottish Ministers.

This notice will remain in force for each animal until it fully complies with the Regulations above or dies. The death of the animal must be notified to BCMS in writing and by return of the passport within 7 days of its death.

This animal restriction is not self lifting. You must inform BCMS when you have taken action to correct these discrepancies. Correction of these discrepancies must be reported to BCMS either by calling 0845 050 1234 or by completing form CPP 29(s), which has been left with you for this purpose. Cattle with identification queries on the Cattle Tracing System (CTS) will not be eligible for export.

Data Protection Act 1998: Any personal data provided is protected under the Data Protection Act 1998.

Dear [redacted]

Whole Herd Movement Restriction – CPH 75/333/0024

Thank you for notifying us of the action you have taken to resolve the problems that were found during the Cattle Identification Inspection (CII) carried out on your holding on **29th January 2017**

As a result of the action you have taken, I am pleased to inform you that the Whole Herd Movement Restriction that was served on your holding has now been lifted.

As you may know the local Animal Health and Welfare Enforcement Department also have responsibilities for monitoring the maintenance of your farm and animal records. I am sending them copies of this letter for their information, as well as your local Scottish Executive Rural Payments and Inspections office.

If you have any questions, please contact us by phone or email and quote our reference number at the top of this letter.

Yours sincerely

[redacted]

Notice Restricting the Movement of Individual Cattle

Cattle Identification Regulations 2007 (as amended)

For Official Use	

This Notice is issued to:

1. Name [redacted]
2. Address [redacted] Postcode [redacted]
3. CPH No. [redacted]

I, being an authorised officer of the Secretary of State for the Department for Environment, Food and Rural Affairs give you notice that the cattle detailed below fail to comply with the above Regulations for reasons stated and may not be removed from the holding.

Official Animal identification number	Age	Breed	Sex	Nature of discrepancy	Action required to lift restriction
[redacted]	[redacted]	[redacted]	[redacted]	[redacted]	[redacted]

This Notice relates to cattle inspected at your holding at:

[redacted]

Issued by signature: [redacted]

Officer of the Secretary of State for the Department for Environment, Food and Rural Affairs

Name in BLOCK letters [redacted]

Address [redacted]

Number of continuation sheets attached [redacted]

Telephone No [redacted]

These animals must not be moved off the holding unless:

- the discrepancies in the above table are resolved and BCMS have been informed, or
- you have been issued with an appropriate licence by an officer of the Secretary of State.

This notice will remain in force for each animal until it fully complies with the Regulations above or dies. The death of an animal must be notified to BCMS in writing and by return of the passport within 7 days of its death.

This animal restriction is not self-lifting. You must inform BCMS when you have taken action to correct these discrepancies. Correction of these discrepancies must be reported to BCMS either by calling **0345 050 1234** or by completing form CPP29, which has been left with you for this purpose. Cattle with identification queries on the Cattle Tracing System will not be eligible for export.

Data Protection Act 1998. Any personal data provided is protected under the Data Protection Act 1998.

Notice received by:

Signature [redacted]

Name in BLOCK letters [redacted]

Position [redacted]

Date [redacted] Time [redacted]

If you need further information about this Notice please contact:
