

## Notes

The spreadsheet presents aggregated information about the duration of the assessment presentations for AY2017-18.

The statistics for the full year include all presentations that lasted a minimum of 10 minutes and a maximum of 120 minutes.

The rationale for these limitations is as follows:

- \* a presentation of less than 10 minutes is unlikely to have been a serious attempt;

- \* a presentation of more than 120 minutes is likely to have included substantial pauses, which would make the 'duration' figure misleading .

The tab <**Duration Summary AY2018-19**> shows average duration per assessment for SNSA presentations across AY2017-18.

The following 11 tabs - <**Duration P1N**>, <**Duration P1L**> etc. - show duration statistics for each of the 11 assessments respectively, including

- \* mean, standard deviation and number for each local authority; and

- \* mean, median, standard deviation, minimum and maximum duration, and duration by percentile for the national cohort.

The final sheet <**Duration Summary to 22.03.18**> presents an earlier extract, showing summary information on duration per assessment for all

assessments taken in AY2017-18 up to 22/03/18. Please note that the time limitations for duration statistics recorded on this sheet is a minimum of 10 minutes and a maximum of 180 minutes.

**Duration Summary**

<b>Form</b>	<b>Average duration per form (in minutes)</b>	<b># of valid cases (completed in minimum of 10 min and maximum of 120 min)</b>	<b>total # of cases</b>	<b>% of those who completed within this duration ( minimum of 10 min and maximum of 120 min)</b>
