

Fox control club records

Our records for the Fox Control Programme go back to 2013 and contain information on numbers of foxes killed but not the method of killing.

	2015	2016	2017	2018	2019
no. foxes killed by fox control clubs over spring control period (1 Feb to 30 June)	1406	380	1,232	635*	**

Note: The Fox Control Programme was established to prevent the predation of lambs and has been operating since 1978. The scheme in its current form has been operating since 1 April 1998 and is limited to activities undertaken during the spring control period (1 February to 30 June).

**the 2018 records are incomplete because some clubs are still in the process of submitting the relevant information*

***the 2019 control period is still underway*
