You can also find links to other collaborative contracts and dynamic purchasing systems (rather than frameworks) awarded by the Scottish Government at:

<https://www.gov.scot/publications/frameworks-and-contracts/>

Other information

The vast majority of the information you have requested is already reasonably accessible on the Scottish Government's contracts register, at the links in Annex A, or in public notices on Public Contracts Scotland or the Official Journal of the EU.

I have identified four Scottish Government frameworks, however, which are listed in our contracts register, but which do not have a web-page such as those contained in Annex A. You will still be able to find almost all of the information you requested in relation to these four frameworks at these other sources, but you will not easily be able to find information relating to your point number 4: "Framework Type (Direct Award, mini comp)".

In relation to these four frameworks, I have listed this information below:

- Temporary Crewing Framework – direct award.
- HR Assessment Centres – direct award.
- Inshore fisheries outreach and technical support framework – mini-competition.
- Regional managing agents for open market shared equity housing scheme – direct award.
