Dear [REDACTED]

Sorry for not being back in touch. We will be on site at 2:30. Myself and [REDACTED] (both Scottish Forestry) will be on site. We are also meeting [REDACTED] (Scottish Woodlands).

I agree re your list of issues – these are what we discussed. The purpose of the visit is to view the issues for myself and consider what action is appropriate as a next step. There is obviously a great deal of history and frustration on behalf of the community. I'm keen to see if/where the UKFS has been breached.

The lack of community engagement is something we should discuss, learning lessons from the past and agreeing a way forwards for future works.

Separately, I have taken up the incident raised by a community member of a timber lorry driving along Station road during the agreement exclusion times. I've been in discussion with [REDACTED] about this – this is still ongoing.
