RE: Forrest Estate/Dundeugh STTS Road

[Redacted]

By sheer coincidence I had been nagging Dumfries and Galloway Council last week and finally received details of the works they carried out as part of the project. Everything has now has been completed.

Please find attached the final claim plus the auditors report. The final claim simply updates the second claim and is now finalised.

Please let me know if you need any further information.

Do you need the hard copy?

Apologies for the delay.

Regards

[Redacted]

[Redacted]

My apologies, just after I sent the email below one of our forest managers was in a horrendous traffic accident and I am afraid the claim was overlooked in the aftermath.

I have put it back on my "to do" list and will try and get it to you over the next week or so.

Regards

Further to our conversation it is just to confirm that all the work has now been done. My incessant nagging of D&GC finally paid off and they have completed the bellmouth. Likewise, the legal agreement has been completed.

I will now prepare the final claim and get the final auditor's report to you as soon as possible. I checked the previous claims and we are already over the amount needed to justify the grant. We realise there is no further grant due to Forrest Estate but likewise there will be no need for a reclaim.

Regards

Please can you update me on this.

We need to tie up the STTS budget next week, so can you get me a likely value for a final claim and make sure that is in by end of month. If there is likely to be an stts reclaim then can you ensure that is prepared.

I understand that you are still awaiting the bellmouth works by the council.
10/10/2012

We will require that the STTS contract for this project be closed at the end of February 2012 and will require an accountants report and final claim by then.

Any costs falling beyond this period will not receive STTS grant funding and will need to be met by the other partners.

Yours

That's good news[Redacted]

I think where things stand are as follows:

STTS paid out the full award of £110,480 in advance, This being the £109480 of the original contract plus £1000. (The extra £1000 was 25% of the £4000 you spent upgrading the middle section of track). At that point there was a total of £164,156.50 outstanding (STTS £41,039.12). I understand STTS has since received evidence of £69,441. So the remaining sum requires evidence presumably for expenditure on signage, bellmouth and legals? The cost of the accountants report is also an eligible cost which can be claimed at the intervention rate of 25%

There must be something else that you still require evidence of – bellmouth, legals and signs will not add up to the difference. I will need to go back and check the claims to see what it might be.

Subject: RE: Forrest Estate/Dundeugh STTS Road

That's good news Redacted
I think where things stand are as follows:
STTS paid out the full award of £110,480 in advance, This being the £109480 of the original contract plus £1000. (The extra £1000 was 25% of the £4000 you spent upgrading the middle section of track). At that point there was a total of £164,156.50 outstanding (STTS £41,039.12). I understand STTS has since received evidence of £69,441. So the remaining sum requires evidence presumably for expenditure on signage, bellmouth and legals? The cost of the accountants report is also an eligible cost which can be claimed at the intervention rate of 25%

D&GC expect to be in a position to complete the bellmouth and signage within the next month.

I'll let you know when it is finished and I will then have the final audited carried out.

Was that all the outstanding points?

FC seemed to think that D&GC were responsible for the tarmac but it was quite clear in the original budget and application it was one of their deliverables – so no answer on that one at present. D&GC haven't given me a date for signs but I will chase them. I have a few other bits and pieces to put together for you as well which I need to finalise.

I am quite happy to meet you if you let me know when you are going to be in the area.

We may have discussed this at the end of March but have you any ideas when the tarmac and signage will be done?
I am to go down that way at some point in the next month or so to inspect council roads we put money into (at Carsphairn – which I know you are all too familiar with, and another on the B714 at Cairnderry). I could do a final drive through inspection to sign off Forrest Estate at the same time. I could do it on my own if I can get hold of the key!

Subject: Forrest Estate - Dundeugh Link Road

[Redacted]

Please find attached our final claim form. I have not sent an Accountants Report this time as there are fewer vouchers and a number of items are to follow as we discussed and as listed below.

Overall costs are higher than budgeted, mainly road construction and in-forest haulage. The increases take the total spend above that allowed in the grant claim and I understand that the grant will be limited to the approved offer of grant.

On that subject I realised that I had not returned the Amended Acceptance Offer of Grant following our meeting on 1st March. I will send a copy by separate email due to the file size and the hard copies will be in the post. I hope it is not too late to return this?

All work is complete apart from the following:

- Legals still awaiting FCS to instruct solicitors;
- D&GC will not be able to supply signage until 2011/2012;
- FCS to tarmac bellmouth in 2011/2012;
- Additional works subject of the amendment will be completed within the next couple of days;
- Final audit Accountants Report.

I presume we will hold back on forwarding any of the above until all are to hand and the Accountant has completed their final report?

Regards

I am chasing up Forrest Estates now for final claim and an updated accountant's report.

Before I do, do you know the current state of play with this one? There were unanswered questions regarding the tarmac and signage.

They were paid the full STTS award of £110,480 in advance, of which we had received evidence of this element for £69,441. There is a total of £164,156.50 outstanding (STTS £41,039.12) - all these sums are giving me a sore head today!
Thanks,

Cc[Redacted]; [Redacted]
Subject: R8/4/2008 Forrest Estate

[Redacted]-
Regarding Forrest Estate. We should pay out all the grant allocated to this project against Claim 1 (which provided evidence for total expenditure of £277763).

Total grant to pay will be the £109480 of the original contract plus £1000. The extra £1000 is 25% of the £4000 (item73) that [Redacted] now says he has spent on the additional work (not the £12500 extra he had asked for and that we allocated in the amended contract).

The second claim requires additional evidence before it can count as acceptable co-financing including:

In forest haulage. Ask[Redacted] to provide a more detailed explanation of what is valued – i.e. the email should specify what information the hauliers have been asked to consider [Redacted] should aim for three 'quotes' (responses) from hauliers to justify this – as it is a substantial amount of in kind contribution.

The accountant's report will need to provide validation of the admin/overhead costs provided.

Also there is other outstanding evidence for this claim – e.g. the bridge invoice.

We can accept the stone valuation.

While we can pay out the full grant against claim 1 before the end of the financial year, we should ask [Redacted] to provide the evidence for Claim 2 so that it can be processed as soon as possible.
A further claim will be required for all outstanding thereafter – e.g. legal costs. Again this should be progressed as swiftly as possible in the coming weeks.

Dear [Redacted]

STTS Forrest Estate Dundeugh Link Road

Thank you for your claim of 17 February 2011 for the work to date on the Forrest Estate Dundeugh Link Road R8-4-2008.
We understand there are further costs which shall be evidenced in a further claim.
You will receive a BACS payment against your latest claim which shall pay the full amount of grant allocated to this project that is outstanding (in accordance with paragraph 12 of the standard conditions of contract). In this case £110,480.
You are required to continue to submit further grant claims showing evidence of the outstanding expenditure on the project.
In the event evidence of additional expenditure is not submitted we shall require to recover any overpayment of grant in accordance with paragraph 29g of the standard conditions of contract.

Yours sincerely
