A very quick mock up of a complaint routemap and scenario diagrams.

I am going to a meeting until 3. But can catch up and then to improve this and add in your text if you need assistance with that.

Please note

- there are a lot of scenarios which you will want to strip some out no doubt – I've just for the full lot for now
- and a lot of potential text boxes but remember if each scenario has the same information we don't need to repeat the information in every line but can amalgamate information to keep it simpler and crisper

All,

Latest version – still working through. Will we get together in an hour or so to see where we are at?
