Subject: FW: WIN-170-2004 - North Lowther Energy Initiative Limited - Finalised report
Date: 21 October 2020 13:16:31
Attachments: [redacted]

[redacted]

Following the reporter's consideration of the above case, I now send you the finalised report in word and pdf version. I have attached a list of parties.

Please let me have a copy of the Scottish Ministers decision in due course.

Note: The reporter has advised us that the report contains descriptions of bird nesting locations or numbers in the ornithology section (paragraphs 4.24, 4.25 and 4.31 with bullets).

Regards

Hi both,

See attached decision letter for peer review (also in ERDM [Electricity Act 1989 Section 36: North Lowther Energy Initiative: 2015-2020 \(qA526553\)](#) with the inquiry report, decision letter and submission filed at the top). I will now align the contents of the submission with this version of the decision letter. Grateful if you could get back to me by the 18th December with comments/amendments (it would be to get this up as soon as possible to avoid having to deal with any further correspondence).

Thanks

Thanks all – I've updated taking account of both your views and provided a [bit](#) more detail in respect of those consultees, statutory or otherwise who raised objections or concerns in respect of topics that aligned with the objection from Dumfries and Galloway i.e. landscape, visual and cultural heritage settings etc. but I haven't laboured the point for those consultees who did not raise an objection.

I have also shortened the submission to align with our more recent referrals. Will be sending up shortly so if there are any showstoppers let me know in due course!

[redacted]

I've looked over the letter and made only very few minor changes. I like the brief, less is more approach - the report says anything more that needs to be said over and above the decision letter.

[redacted]

I have completed my peer review of the North Lowther Decision Letter. On the whole it is a really good decision letter and captures the report well. I have made a few comments/track changes but some of them you may wish not to accept/change as they relate to the framework of the decision rather than fundamental points.

I am going to take a break just now for a late lunch but happy to catch up if you have any comments.

Comments saved in eRDM.

Thanks
