

## 2019-20

Supplier	Project	Cost (Excluding VAT)
Resolver	Work on parcel delivery work and postcode gathering	£4,641.00
Alma Economics	Econometric analysis of postal delivery pricing in Scotland (July 2019) and Interactive map and data hub for parcel deliveries	£72,000.00
YouGov	Nuisance Calls and Scams Survey	£6,120.00
EKOS	Work on parcel deliveries - report - Review of the Statement of Principles for Parcel Deliveries	£18,000.00
We are Snook	Open Government Partnership: Scotland's National Action Plan 2018-20: Commitment 4 Public engagement programme	£56,512.80
Changeworks	Consumer Approach – heat decarbonisation research	£12,000.00
Cenex	Electric Vehicles Research into Consumer Behavioural Impacts of Future Policy	£17,817.00
Awesome Ninja	Consumer Scotland Data Strategy Research	£10,000.00
Pye Tait Consulting	The Regulation of Electricians in Scotland	£35,995.00
Bramble Hub	Public energy company outline business case	£27,043.75
Ricardo	Perennial energy crops and their potential in Scotland: evidence review	£39,554.80
Everoze	Good practice principles for grid-scale battery storage	£39,732.00
Ernst & Young LLP	Assessment of outcomes and lessons learned from Scottish Government funding for innovative low carbon energy projects	£25,000.00
Building Research Establishment (BRE)	Potential Sources of Waste Heat for Heat Networks in Scotland	£30,000.00
Mott MacDonald	IQ2-2020: Local Heat and Energy Efficiency Strategies: Phase 2 pilots - evaluation IQ2-2020	£28,636.83
Building Research Establishment (BRE)	IQ3-2020: Mapping district heating feasibility studies in Scotland	£30,000.00
Energy Systems Catapult	IQ6-2020: Public awareness of and attitudes to low carbon heating	£33,348.00
Craigforth HCAS Limited	Heat and Energy Efficiency Call for Evidence	£5,831.00
Element Energy Limited	Domestic low carbon heating research project.	£11,276.52
Energy Saving Trust	Heat Networks Research Project	£7,700.00

Craigforth Consultancy and Research (GB)	Analysis of responses to a call for evidence on 'The future of low carbon heat for off gas buildings'	£5,831.00
Alembic Research Limited	Scotland's Energy Efficiency Programme (SEEP): Review of Domestic and Non-Domestic Energy Performance Certificates (EPCS)	£3,850.00

## 2020-21

Supplier	Project	Cost (Excluding VAT)
Cenex	Electric Vehicles Research into Consumer Behavioural Impacts of Future Policy	£17,817
Changeworks	Consumer Approach Heat Decarbonisation Research	£10,602
Ipsos MORI	COVID-19 Vulnerable Consumer Research	£11,520
Ipsos MORI	Energy Consumers and COVID follow up boost survey	£11,520
We are Snook	Open Government Partnership: Scotland's National Action Plan 2018-20: Commitment 4 Public engagement programme	£8,400
Awesome Ninja	Scams Prevention, Awareness & Enforcement Strategy – Mapping the landscape	£27,750
Changeworks	Award of Provision of Energy Consumer Commission Research Energy Debt	£37,875
Changeworks	Award of Energy Consumer Commission Research PSRs and Improving Outcomes for Consumers in Vulne...	£25,200
Cenex	Energy Consumers Commission Research into Consumer Engagement with Decarbonisation	£30,300
Ipsos MORI	Energy Consumer Commission Survey of Consumer Experience of the Energy Landscape	£47,500
Energy Systems Catapult	Research into Heat as a Service as a route to decarbonisation for Scotland	£29,000
Cambridge Econometrics	Economic Impact of Heat Decarbonisation in Scotland to 2030	£33,875
Ipsos MORI	Public attitudes towards climate change policy and a green recovery	£29,600
Energy Systems Catapult	IQ6-2020: Public awareness of and attitudes to low carbon heating technologies – an evidence review. Supplementary analysis	£7,932
Mott MacDonald	IQ10-2020: Options for decarbonising heat in designated heritage assets	£29,730
Delta EE	IQ11-2020: Evidence review of hydrogen for heat in buildings	£42,024

Cornwall Insight	IQ15-2020: A review of the balance of gas and electricity levies and the impact on low-carbon and renewable heat deployment	£19,332
Ramboll	IQ18-2020: Zero-emissions new-build heating – understanding the costs	£33,660
Energy Systems Catapult	IQ20-2020: Heat as a service as a driver to decarbonise heat and tackle climate change - rapid review of evidence and practice	£34,800
Changeworks	IQ25-2020: Heat pump use in Scottish homes in practice: an evidence review	£27,831
KPMG	Evidence to Support a Financial Memorandum and Business Regulatory Impact Assessment	£39,848
Ramboll	LHEES DRAFT METHODOLOGY PEER REVIEW	£86,191
Reheat (Renewable Technologies) Limited	Evaluation of Scottish biomass supply chain in reaction to Covid-19	£5,500
Jump Research Limited	Home Energy Campaign – Research Proposal	£49,149

## 2021-22

Supplier	Project	Cost (Excluding VAT)
Awesome Ninja	Scams Prevention, Awareness & Enforcement Strategy – Mapping the landscape – Part 2	£9,000
Craigforth Consultancy and Research (GB)	Consultation Analysis - Draft Heat in Buildings Strategy	£24,563
Why Research (GB)	2024 New Build Heat Standard: Analysis of Scoping Consultation	£5,057
Arup (GB)	RESEARCH INTO DATA REQUIREMENTS FOR LOCAL HEAT AND ENERGY EFFICIENCY STRATEGIES	£43,357
Ricardo-AEA (GB)	RESEARCH INTO ELECTRICITY NETWORK CONSTRAINTS AND THE 2024 NEW BUILD HEAT STANDARD	£34,793
The Lines Between Ltd. (GB)	Home Energy Efficiency Equity Loan Pilot	£22,783
EKOS (GB)	Consultation Analysis - Scottish Skill Requirements & LCITP	£10,739
Locogen	Evaluation of RZEHS in affordable housing projects	£53,993
The Association for Decentralised Energy	Understanding emissions associated with heating technologies	£34,590
