[Project Claret - Final scenario analysis report for SG - 19 October 2021.pdf](#)

Hi [REDACTED],

As discussed, please see attached a final version of our report. If you would like a redacted version of this report which can be shared with SE, please let me know.

Many thanks

Morning [REDACTED],

We're happy with the attached report and no further comments from ourselves (many thanks for all your work on this).

Could we have a final version today to share with Mr McKee ahead of Thursday's meeting?

Happy to discuss further.

All,

Further to our call yesterday, please see attached an updated draft report which incorporates SG's comments, where applicable. All changes have been highlighted in red text for ease of review, and I have also attached an updated table of comments to help signpost where changes were made.

I will send separately a version of this report which is suitable for sharing with SE – before this goes there are a few points that I would like to clarify with [REDACTED]

[REDACTED]
Many thanks

Hi [REDACTED],
I have received the attached template hold harmless letter from AG – clearly this would need to be tailored to this scenario before practical use, but in the meantime should hopefully provide you with enough to start getting T&Cs reviewed internally.

If you have any questions, please let me know.

Many thanks

Morning [REDACTED],

You're very welcome.

Does 1pm as a start time work for you to go over the comments on the report? In terms of duration would 30 minutes cover it as it does seem there are a lot of comments to go over. We can extend the meeting beyond 30 minutes if needed.

Thanks,

[REDACTED]

Hi [REDACTED]

Thanks for your time on the phone earlier.

As discussed, attached is an updated version of the comments document, which highlights where we have made updates to our report, and the points that we would like to discuss with you tomorrow before we process any changes.

Please let me know when you have availability tomorrow to walk through, I can be free any time after 10.

Many thanks

Hi [REDACTED]

Have just tried to call to update you re. the AG advice, please give me a call whenever you're free

this afternoon to discuss.

On a separate note – further to [REDACTED] email on Friday, we have worked through your comments and made some amends to our report. There are a few comments that we would like to discuss with you before making updates to the report, can you please let me know if you have availability for a call tomorrow? I can do any time after 10am.

Happy to also flag the areas to discuss in advance of the call as well if that would be helpful.

Many thanks

Hi [REDACTED]

As discussed yesterday, attached are SG's comments, questions and clarifications in relation to the draft [REDACTED] report received last week. We have collated into a table for ease but let us know if it is not clear. Some of it will require simple amendments and other parts may require some additional thought as to how best to incorporate what we are ideally looking for.

I'm on leave next week but I've asked [REDACTED] to liaise with you on this to try to get the report finalised.

Many thanks

[REDACTED]
Please find attached our draft scenario analysis for Project Claret. Once you have had chance to read through, if a call would be helpful to discuss any comments early next week then please let me know and I would be happy to arrange.

Many thanks

[REDACTED] do you have similar plans for Clydebridge, as we have appointed [REDACTED] to do some environmental survey work so they would be useful for that

Thanks [REDACTED]

Title passing directly from Tata to Liberty would certainly be preferable and would no doubt assist Registers of Scotland in managing the process. We are however interested in the extent of title at Dalzell and wish to ensure the title boundaries are tightly drawn to exclude the adjacent Ravenscraig site.

I can confirm that the £1 transaction cost should be used.

Regards
