COUNTRY: Countries subject to transitional import arrangements (\*)

Aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities

II. Health information	II.a. Certificate reference no <b>EXP-3678IE</b>	II.b.UNN <b>IMP.GB.2021. 1111565-V1</b>
------------------------	---	--

~~and/or (\*)-[have been subject to quarantine under conditions at least equivalent to those laid down in Decision 2008/946/EC.]~~

**Notes**

References to Great Britain in this certificate include Channel Islands and Isle of Man.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018).

(\*) Those countries subject to the transitional import arrangements include: an EU member State; Liechtenstein; Norway; Iceland; Faroe Islands and Switzerland.

**Part I:**

- Box I.19: Use the appropriate Harmonised System (HS) codes of the World Customs Organisation of the following headings: 0301, 0306, 0307, 0308 or 0511.
- Box I.20 and I.28: As regards quantity, give the total number in kg, except for the ornamental fish.
- Box I.25: Use the option "Breeding" if intended for farming, "Relaying" if intended for relaying, "Pets" for ornamental aquatic animals intended for pet shops or similar businesses for further sale, "Circus/exhibition" for ornamental aquatic animals intended for exhibition aquaria or similar businesses not for further sale, "Quarantine" if the aquaculture animals are intended for an approved quarantine facility, and "Other" if intended for put and take fisheries.

**Part II:**

- (1) Keep as appropriate.
- (2) Parts II.2 and II.4 of this certificate only applies to species susceptible to one or more of the diseases referred to in the heading of the part concerned. Susceptible species are listed in Annex 1A to Regulation (EC) 1251/2008.
- (3) Consignments of wild aquatic animals may be imported regardless of the requirements in Parts II.2 and II.4 of this certificate if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.
- (4) Parts II.3 and II.5 of this certificate only applies to vector species to one or more of the diseases referred to in the heading of the point concerned. Possible vector species and the conditions, under which consignments of such species are to be considered vector species, are listed in Annex I to Regulation (EC) No 1251/2008. Consignments of possible vector species may be imported regardless of the requirements in Parts II.3 and II.5 if the conditions set out in Column 4 of the table in Annex I to Regulation (EC) No 1251/2008 are not fulfilled or they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.

(1) To be authorised into Great Britain one of these statements must be kept if the consignments contain susceptible or vector species to EHN, Bonamia exitiosa, Perkinsus marinus, Mikrocytos mackini, Taura syndrome and/or Yellowhead disease.

ood

COUNTRY: Countries subject to transitional import arrangements (\*)

Aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities

II. Health information	II.a. Certificate reference no <b>EXP-3678IE</b>	II.b.UNN <b>IMP.GB.2021. 1111565-V1</b>
------------------------	---	--

(2) To be authorised into Great Britain, zone or compartment declared free from VHS, IHN, ISA, KHV, Marteilia refringens, Bonamia ostreae, or Whitespot disease or with a surveillance or eradication programme equivalent to one drawn up in accordance with Decision 2008/896, one of these statements must be kept if the consignment contains susceptible or vector species to the disease(s) for which disease freedom or programme(s) apply(ies). Data on the disease status of each farm and mollusc farming area in the Great Britain are accessible at

<https://www.gov.uk/government/groups/fish-health-inspectorate#disease-status-of-fish-shellfish-and-crustacea-in-england-and-wales>  
<https://www.gov.scot/publications/registers-of-authorized-aquaculture-production-businesses-and-authorized-processing-establishments/>  
<https://www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/>

(3) Part II.7 of this certificate only applies to consignments intended for Great Britain or part thereof which is regarded as disease-free, or subject to a surveillance or eradication programme for SVC, BKD, IPN, SAV or GS, and the consignment comprises species listed in Schedule 1 to the Aquatic Animal Health (England and Wales) Regulations 2009 or the Aquatic Animal Health (Scotland) Regulations 2009 (as the case may be) as susceptible to the disease(s) for which the disease-free status or programme(s) apply(ies).

Part II.7 also applies to consignments of fish of any species originating from waters where species listed in Schedule 1 to the Aquatic Animal Health (England and Wales) Regulations 2009 or the Aquatic Animal Health (Scotland) Regulations 2009 (as the case may be) as species susceptible to Infection with GS, are present, where those consignments are intended for Great Britain or part thereof listed in Annex I to Decision 2010/221/EU as free of GS.

Consignments of wild aquatic animals for which SVC, IPN, SAV and/or BKD related requirements are applicable, may be imported regardless of the requirements in Part II.7 of this certificate if they are intended for a quarantine facility complying with the requirements laid down in Decision 2008/946/EC.

(8) Part II.8 of this certificate only applies to consignments intended for Great Britain or part thereof which is regarded as disease-free, or subject to a surveillance or eradication programme for OshV-1  $\mu$ var, and the consignment comprises species listed in Schedule 1 to The Aquatic Animal Health (England and Wales) Regulations 2009 or The Aquatic Animal Health (Scotland) Regulations 2009 as susceptible to OshV-1  $\mu$ var.

The requirements set out in part II.8 shall not apply to consignments intended for a quarantine facility complying with the requirements at least equivalent to those laid down in Decision 2008/946/EC.

- The colour of the stamp and signature must be different to that of the other particulars in the certificate.
