3: List all/any fishery measures implemented in each year by Marine Scotland arising directly out an RIFG/IFG management plan/stock recovery plan.

Some elements of IFG/RIFG management plans lead directly to implementation of fisheries management measures by Marine Scotland – these are listed below.

It is worth noting that there are also instances where discussion and co-working by the IFG/RIFG committee and sub-groups feed into wider Marine Scotland policy development. Between 2008 and the current time, these have included things such as:

- Annual planning for inshore pelagic fisheries.
- Trialling of other inshore pelagic fisheries.
- Development of voluntary agreements to separate mobile and static gear fishers..
- Development of voluntary closures to protect spawning and juvenile stocks.
- Proposals for fisheries diversification.
- Annual modifications to the Shetland Regulating Order.

Year	Management Measure Implemented
2009	The Inshore Fishing (Prohibition of Fishing for Cockles) (Western Isles) (Scotland) Order 2009.
2011	(Prohibition of Fishing for Cockles) (Solway Firth) Order 2011
2012	Shetland Islands Regulated Fishery (Scotland) Order 2012
2015	Gear Conflict Task Force Outcome Report
2015	EFF Sustainable Inshore Fisheries Project (7 work streams including, AIS, catch monitoring, information display, maximising economic return and IFG management plans).
2016	The Orkney Islands (Landing of Crabs and Lobsters) Order 2016
2017	Mull Inshore Fisheries Pilot
2017	Regulation of Scallop Fishing (Scotland) Order 2017
2017	The Inshore Fishing (Prohibition of Fishing and Fishing Methods) (Outer Hebrides) Order 2017
2018	Gear Marking Best Practice Guide
2018	Landing Controls For Crab and Lobster Fisheries in Scotland
2018	Outer Hebrides Blue Fin Tuna Catch and Release Programme
2018	Spur dog By-Catch Management Programme
2019	Outer Hebrides Inshore Fisheries Pilot
2019	Scottish Inshore Fisheries Integrated Data System Project
2020	Gear Marking Order 2020
