

FOI Response:  
FOI reference: **202200311776**

### Information Requested

On Page 52 of the Scottish Government's 2021/22 Programme for Government, it says : 'Invest £240 million in an Energy Transition Programme – funding industry to play a leading role in the development and deployment of new, low carbon technologies, and support the development of hydrogen and carbon capture and storage'.

How much money has been allocated to the Energy Transition Programme in each financial year?

### Response

1. The £240 million Energy Transition Programme, includes funding from the £180 million Emerging Energy Technologies Fund (EETF) and the £75 million Energy Transition Fund (ETF).
2. The information you have requested on the £180 million Emerging Energy Technologies Fund (EETF) is available on page 23 of the Scottish Government Capital Spending Review 2021-2022 to 2025-2026 which published on 21 February 2021 and is available at: [Investing for jobs: Capital Spending Review 2021-2022 to 2025-2026 - gov.scot \(www.gov.scot\)](http://www.gov.scot)
3. The information you have requested on the £75 million Energy Transition Fund (ETF) is available in the published FOI reply:  
[Information relating to Energy Transition fund: FOI release - gov.scot \(www.gov.scot\)](http://www.gov.scot)
4. Additionally, the expansion of the Fund to £75 million is available in the publication:  
[Making Scotland a leading hydrogen producer - gov.scot \(www.gov.scot\)](http://www.gov.scot)
5. The breakdown of the ETF funding in each financial year is as detailed:

	Spend in £million					TOTAL
	2020/21	2021/22	2022/23	2023/24	2024/25	
TOTAL	4.550	5.800	21.435	23.486	16.791	72.062
