

FOI 3rd Sector Org Funding – 202200325259 – Final Response

A climate emergency wasn't officially declared in Scotland until 28 April 2019, therefore the first two financial years have been excluded. For clarity we have reflected your request for a carbon cost-benefit evaluation of the funding by updating the heading in the supplied table by adding 'Carbon' in front of 'Cost-Benefit Analysis / Evaluation undertaken'. We have used the guidance for the third sector laid out on the gov.scot website at the following link: <https://www.gov.scot/policies/third-sector/#:~:text=The%20third%20sector%2C%20which%20includes,communities%20at%20a%20local%20level>
