

Attachment 4 – FOI – 202300360662

The data spreadsheet from which the below are sourced is published on the Active Scotland Outcomes Framework website: <https://scotland.shinyapps.io/sg-active-scotland-outcomes-framework-indicators/> and can be found under the Resources tab.

Sport participation (adults) (%)													
Active Scotland Indicator 15a: Percentage of adults who have participated in any sport (excluding walking) in the past four weeks.													
Source: Scottish Household Survey - Equality Group Topic Report (2012)													
Ethnicity			White, British	White, Irish	White, Other	Mixed	Asian, Indian	Asian, Pakistani	Asian, Chinese	Asian, Other	African, Caribbean or Black	Other	All
2008-11*			49	50	48	55	43	30	60	46	46	48	49
lower confidence interval**			48	41	43	43	30	20	42	32	32	35	48
upper confidence interval			50	58	54	68	56	40	78	60	61	61	50
<i>Weighted base</i>			26,709	224	814	104	148	188	82	105	134	122	28,758
* These figures are age standardised.													
** Confidence intervals provide an indication of the variability of the results within a subsample and indicate if the result is likely to be different from another subsample. Small subsamples lead to wide confidence intervals with less likelihood of detecting difference.													
					White Scottish	White other	Other ethnic	Asian, Asian Scottish or Asian British	All				

2013				50	59	56	48	52				
<i>Base</i>				8,030	1,630	102	160	9,920				
2014				50	56	--	49	51				
<i>Base</i>				7,794	1,754	98	148	9,799				
-- Result suppressed due to subsample size <100												

Sport participation (young people age 2-15 years) (%)										
Active Scotland Indicator 15b: Percentage of children age 2-15 years who have participated in sport in the past week.										
Source: Scottish Health Survey										
								White	Minority Ethic	All
2008-11								72	62	71
<i>Base (all)</i>								6,597	368	6,965
