

## Annex A

Extract from a draft version of the job description for the Chief executive post which was developed by Scottish Covid-19 Inquiry and considered by Scottish Government officials:

- Be the most senior official point of liaison with the Secretary of the UK COVID Inquiry, ensuring positive official engagement to ensure the needs of the Scottish COVID Inquiry are fulfilled.

Comment on the above point by [Redacted@gov.scot](mailto:Redacted@gov.scot) provided to the [Scottish Covid-19 Inquiry on](#) 15 August 2022 08:23:

“This is a significant differentiation for this inquiry compared to others currently operating in Scotland, that there is a parallel UK process running at the same time and which will also operate in Scotland – I think therefore it probably merits being nearer the top of this list as it looks like an afterthought here.”
