Subject: CHS Panel Member Association

[Redacted]

Katharina and I are keen to share this letter with you that was sent unsolicited to CHS Board members yesterday. The Associations membership is open to current and 'former' Panel Members and reported to have around 100 members.

Two things to observe and discuss.

Firstly, and notwithstanding their approach and motive, the issues that they raise are the same as we have been discussing in the context of our reform, risk and financial challenges. They are clearly unaware of the steps we're taking across a number of fronts to address the issues, but the narrative of risk – not crisis – remains.

The second is to discuss how we handle their aspiration to have a relationship with the SG, as per their aims. Interestingly, the previous version has engaging with The Promise, but this has been removed after their letter to engage with Sheriff Mackie was declined in favour of engaging via the CHS National Team.

[Redacted] – you have the bruises of the former iterations, so I'd be keen to seek your counsel. KK and I will prepare a response to them next week.

Any chance of a quick call next week?

Have a good weekend when it comes.

E
