Subject: RE: Draft SEND Presentation - 26th May 2022

Hi [Readacted]

Bullet points for SEND as requested below.

The proposed indicative timeline for implementation of the Health and Care (Staffing) (Scotland) Act 2019 is:

- Production of statutory guidance – June 2022 to August 2023. Contact has been made with a variety of stakeholders, including SEND, to invite them to participate in the working groups for the guidance chapters.
- Pre-implementation testing with three Health Boards – February 2023 to May 2024. This will allow any issues to be identified, guidance refined, and shared learning to promote successful roll-out across all Boards.
- Commencement of all provisions April 2024.
- First Health Board reports due May 2025.
- Subsequent Ministerial reports to Parliament before April 2026.

The implementation of the Act will form part of the wider programme of activities to reset, recover and reform, including workforce planning, recruitment campaigns, student numbers, eRostering, the Centre for Sustainable Delivery, Workforce Academy and Nursing Task Group.

Let me know if you need anything else.

Regards

Importance: High

[Readacted]

Can someone put together some bullet points for CNO to present to Send from the Cab Sec submission.

I think go with Guidance, proposed testing, implementation date and reporting date and part of a whole group of activities.

If someone could forward to CNO/[Readacted] for c.o.p. Tuesday thanks

Happy to discuss
