These amounts show total emergency covid related payments made to Bus Operators (operators who did not receive Covid payments have been omitted from list) from March 2020 to 8 June 2022, and can be subject to change as further payments and settlements may take place up until approximately end of July 2022. The funding totals may contain awards of Covid Support Grant(CSG), Covid Support Grant -Restart (CSG-R) or Network Support Grant (NSG), or a combination of any of these grants, depending on which grants the operator has claimed. These amounts are subject to change:

- Where operators have been held in dispute, their figures may still be subject to change
- Reconciliation for CSG-R is still underway, therefore these figures will be subject to change
- Late data can still flow to the system, and can therefore result in changes to these figures
