9 August 2021

Dear Claire

**Allocation Letter to Tayside NHS Board for Band 8A funding in respect of the Health and Care (Staffing) (Scotland) Act 2019**

I hope that you are well.

Further to my letter of comfort on 31 March this allocation letter confirms your Board's Band 8A funding to support the implementation of the Health and Care (Staffing) (Scotland) Act 2019 (the Act) for the 2021/22 financial year. We appreciate that due to the need for Health Boards to redeploy staff and Scottish Government to support the response to Covid-19, work on the Act had to be paused in March 2020. However, it was agreed that the funding for the Band 8A role should be continued to ensure that Band 8A staff currently contracted to work on the Act's implementation in Boards, but currently redeployed or refocused for the reasons stated above, remain in place to support full implementation once work on it can fully restart. Accordingly, we propose that funding should continue to be provided to Tayside NHS Board to support the equivalent of 1.0 WTE Band 8A, with a funding allocation of £68,076. This will be distributed in the August allocation to cover the full year costs up to 31 March 2022, to help the Board to deliver the work required to support the implementation of the Act. Further funding for future years is still under consideration.

Due to the ongoing pandemic it is expected that the Act will not be fully implemented during the current financial year. However, in anticipation of the implementation, it will be necessary for Tayside NHS Board to put arrangements in place to support that process during the 2021/22 financial year. As such, the funding allocated is to ensure that Boards can continue to prepare for and have appropriate systems and processes in place to meet the requirements of the Act when enactment takes place. Given the challenges, changes in service provision and learning in relation to Covid, the restart of all programmes of work in relation to Health and Care staffing may need to be reviewed and adapted. Scottish Government Officials and the Healthcare Improvement Scotland (HIS) Healthcare Staffing Programme (HSP) Team are currently considering the steps required to support the Act's implementation process.

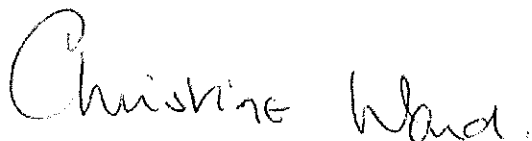

Details regarding funding and the activity required to support full implementation of the Act once preparation for it is able to restart, as well as Covid remobilisation activity, will be finalised and shared with Boards in due course, and we fully intend to keep you informed as much as is possible in this regard.

We will continue to require the completion of a quarterly monitoring template from each NHS Board, which will detail progress, key achievements, challenges and risks.

It is also intended to continue a National Hub for identified professional leads and SSTS managers. The purpose of this will be to ensure national approaches for implementation can be identified and aligned, activity co-ordinated and learning facilitated. We would therefore please ask that you provide confirmation of your named professional clinical lead and SSTS manager, so that we can continue to work together to support Covid re-mobilisation and the full implementation of the Act.

If you have any queries regarding the approach, or problems accessing the funding, in the first instance please contact the senior policy lead, [REDACTED]

I thank you for your continued expertise and support in working together with Scottish Government to drive this important agenda forward.

**CHRISTINE WARD**  
**DEPUTY DIRECTOR**  
**CHIEF NURSING OFFICER DIRECTORATE**
