Hi [Redacted]

Many thanks for your email.

I can confirm that there were no significant changes to the content of the recommendations. Unfortunately, due to the size of the report with changes tracked we are unable to share it via email, but we will talk through these at the Steering Group meeting. The changes were predominantly around framing the report to ensure that it met BEIS' standards for independently commissioned research, in terms of the writing style guide for the department.

Best wishes

Hi [Redacted]
[Redacted]

Is there a way to easily see the small changes?
It has been some time since the last version.

Kind regards
