Question 2.2.1

Tenderers must demonstrate a clear understanding of the public sector landscape in Scotland and the Framework Public Bodies who will use these services. You must also demonstrate that you understand the demand Framework Public Bodies have for the services and how public bodies will use those services.

Please note your response to this question is restricted to a maximum word limit of 1500 words. Tenderers should note that any words exceeding the 1500 limit will not be considered for evaluation purposes.

ASA Response

The aim of The Scottish Government's purpose is to:

"Create a more successful country with opportunities for all of Scotland to flourish through increased wellbeing, and sustainability and inclusive growth".

From the above purpose the public sector procurement aim is to ensure that the £billions spent on buying goods, services and works is spent in the best way to deliver benefit to society, using their collective spending power to deliver sustainable and inclusive economic growth aligned to the National Outcomes:

- Good for businesses and their employees – economy, education, fair work practice
- Good for society – human rights, children & young people, tackling poverty and health
- Open and connected – international,
- Good for places and communities – communities, environment, culture

ASA understand that Scottish Procurement is an organisation which has been set up to act in an "overarching capacity" across the public and third sector bodies to deliver best value for the spend across those bodies. Scottish Procurement is also realising the Scottish Government initiative to ensure that where public money is being spent, it should create opportunities and actions for the greater good, improving culture and communities as we go. The Scottish Procurement frameworks will focus on the delivery of the National Outcomes Framework to improve on the health and well-being of Scottish society and in sustainable, inclusive economic growth.

As part of this, the Fair Work Framework will be utilised to offer all individuals an effective voice, opportunity, security, fulfilment and respect. This will balance the rights and responsibilities of both employers and workers and realises the opportunity to deliver better labour market involvement

which in turn assists in stronger economic growth. Implementing the Fair Work Plan in particular, for groups of people facing barriers to entering the jobs market, will go some way to ensuring that the future of these groups is enhanced by ensuring they are encouraged to fully engage in economic activity. The payment of a living wage and secure employment are key bedrocks for this initiative.

Scottish Procurement and the Public Bodies all have a vested interest in the above points at a local level but also at central Government level to ensure value for money (cost, quality and sustainability) is achieved from the agreements awarded throughout the Country. By applying innovative and ambitious policy and processes, Scottish Procurement will;

- *Strengthen the role of procurement as an enabler of economic recovery*
- *Drive maximum savings, benefits and efficiencies of approach for the taxpayer and provide excellent stewardship of Scotland's resources*
- *Create a more joined up approach to procurement and property across the Scottish public sector*
- *Improve the capability of staff, systems and processes across the public sector*

Performance Management and Reporting is key to achieving the desired results and this is an approach ASA welcomes. Our company structure has been set up to enable us to deliver, manage and report on this agreement at both local and central level for the overarching agreement. The local level management is carried out via Account Team based in our Aberdeen office and the central team based in our head office producing reports on spend and performance of the agreements overall.

We anticipate that the demand for this framework will vary greatly between each public body. The framework will operate with a maximum of 4 suppliers on a tiered/mini competition basis.

Demand will be determined by factors such as sickness, maternity/paternity, holidays, permanent staff shortage, new initiatives or additional projects, service from other agency suppliers on the framework and public policy at the time. It is ASA's responsibility to review demand on an ongoing basis with the public bodies and develop our candidate pools accordingly in order that we provide value for money and sustainable service to each public body. Even within each public body the demand will vary for example, an administrator may be required to cover maternity leave or for 1 week to cover sickness/holidays whereas a Chef may only be required for 1 shift or Environmental Operatives required over the summer to assist with public garden maintenance. It is our responsibility to understand the demands and build resources around those to meet customer requirements.

REDACTED

Having an office **REDACTED**, interview and carry out employer's checks locally, having an established pool of candidates to meet demands. The Account Team responsible **REDACTED**.

Depending on where the candidates work there may be extra compliance required such as PVG/Disclosure Scotland, BPSS, and other security checks. This is discussed with the public body at the time and temporary workers have all the necessary checks in place prior to being assigned any work with the organisation. **REDACTED**.

ASA is a Scottish SME, operated by owners who are all active in the business and involved in local communities. We have made **REDACTED** maintain our reputation and add value both to the economy generally, and the local communities which serve.

Question 2.3.1

Tenderers must provide details of how they will deliver the service under this Framework Agreement as outlined in the Statement of Requirement at Schedule 1. Tenderers must also, include their organisational structure, details of key staff (and their roles) with designated responsibilities for ensuring successful delivery throughout the Framework period, and the minimum experience levels (not a CV) and a job specification(s) for the designated Account Manager(s). Tenderers must also provide details of the number of key personnel to be dedicated Nationally (to the whole of Scotland), how this number is calculated to be sufficient and set out the procedures for how any changes to these key personnel will be managed.

Please note your response to this question is restricted to a maximum word limit of 1500 words. Tenderers should note that any words exceeding the 1500 limit will not be considered for evaluation purposes.

Tenderers must achieve a moderated average score of "50%" or more against this question. Tenderers who fail to achieve a moderated average score of "50%" or more against this question will not have their Tender considered further and will not proceed to the Price/Quality ratio calculation.

Question 2.7.2

The Public Sector in Scotland is committed to building a workforce of people (including temporary and interim workers) with a wide range of backgrounds, perspectives and experiences. That means having a workforce that includes people of different age groups, socio-economic backgrounds, faith and beliefs. People who are trans, disabled, from minority ethnic backgrounds. People who identify as lesbian, gay or bisexual or another sexual orientation. A workforce that is representative of the people of Scotland.

We expect Tenderers to take a similarly positive approach and have a strategy and processes in place to ensure as best as possible a diverse range of temporary/interim workers.

To help us achieve our ambitions in advancing equality, we would like to understand your aspirations as an organisation in terms of diversity and the temporary/interim workers you put forward. For example, we would like to know:

- Do you have an established diversity related policy and practices?
- Do you have, or are you working towards, accreditations in any diversity aspects e.g. Disability Confident?
- How you attract and retain diverse temporary/interim workers, including any outreach work, to your organisation?
- How you select and verify your selection methods from a diversity perspective?
- How you carry out pre-employment occupational health checks?
- What adjustments are made (or how are they recommended) and how these are implemented effectively?
- What engagement do you have with representative organisations and what is the success of these relationships?

Answers need not be constrained to, or be reflective of, any examples given alongside this question.

ASA Response

ASA is aware the Scottish Government has set itself a clear purpose. "To focus government and public services on creating a more successful country, with opportunities for all of Scotland to flourish, through increasing sustainable economic growth."

ASA support this purpose and the requirement to deliver services in a way which aligns our business and the services we provide with this purpose. We must deliver this in an environmentally friendly way.

Our organisation exists by operating in markets experiencing skills shortages. We provide people work in roles where skills are hard to find and add to the productivity of the country. Providing opportunities, training and support to introduce people to these markets, allows the person who has perhaps been inactive or never considered such career options, an opportunity to better their lives and those of their families.

ASA's activities add value to the procurement spend of the local authorities. We create the opportunity for candidates to become or continue to be economically active. In so doing, we are delivering on Scotland's Economic Strategy. ASA feel our core activity, the supply of labour to contracts throughout the nation, aligns with the sustainable procurement model of the Scottish Ministers.

ASA are an office based provider of services and do not manufacture products resulting in increased carbon deposits or hazardous materials. Nor do we require scarce or innovative materials in the delivery of our activities. We must ensure though that at all times we have a focus on how we pass the sustainability test in the delivery of our services.

Carbon/Energy consumption

We minimise consumption by:

Encouraging staff to walk or use public transport to visit any of our client's premises, monitored by management team explaining the importance of using public transport and expense claim submissions.

When booking candidates into an assignment/arranging interviews we provide bus routes and timetable information to candidates on the most efficient way to get to Client's premises. When matching candidates we use postcode searches and can identify suitable candidates living closest to the client.

ASA offices are situated near main train routes, within 15 minutes' walk from train stations, staff are encouraged to travel by train if commuting between offices. Train tickets are available in our offices for ease of use, promoting the use of public transport.

Conference calling or webinars are encouraged avoiding unnecessary travel. Where possible, multiple meetings are arranged and held on the same day avoiding duplication of travel for another meeting at the same location, on a different day.

Improving Scotland's Reputation.

By providing the individuals with a means of earning income, this enhances their position in life and that of those around them, improving the economy. Scotland's image will be improved and come to be known as a progressive and fair country to live. This is a long term strategy and will be achieved by providing fair pay, equality, good working conditions and career enhancement to the population of Scotland.

Improve the skill profile of the population.

Training provision by ASA allows candidates to enter the world of work with an enhanced suite of skills. This is relevant for those coming to the workplace for the first time having a long career ahead of them. It could be that they are either returning to work or wishing a change of occupation. Whatever the situation, ASA welcome them, provide training and supply work for them to continue their development.

Improve support for people with care needs.

Question 2.9.1

The Scottish Government is committed to contributing to the social, economic & environmental well-being of the people of Scotland. The Government has five objectives that underpin its core purpose - to create a more successful country, with opportunities for all of Scotland to flourish, through increasing sustainable economic growth.

Tenderers must provide details of their proposals to support Scottish Procurement to meet SG overall community benefits policy through this Framework Agreement.

Accordingly, while the following community benefit objectives will not be evaluated as part of the Tender process, the successful Tenderer will be expected to consider the following Community Benefit themes in the delivery of their services, for example:

- targeted recruitment & and training for “disadvantaged” persons unemployed for over 6 months;
- generate employment and training opportunities for priority groups;
- up-skill the existing workforce;
- equality and diversity initiatives;
- make any proposed sub-contracting opportunities available to SMEs, the third sector and supported businesses;
- build capacity in community organisations.

Please note your response to this question is restricted to a maximum word limit of 1500 words.

ASA Response

ASA is aware of and has read the draft Culture Strategy for Scotland document. Where public money is being spent, it ought to create opportunities and actions for the greater good, improving culture and communities as we go.

ASA has a small part to play in this ambitious plan. Our activities create income and careers, freeing families from a history of economic inactivity. Improvements are made in their present lives and that of their future generations. We assist in the improvement of a positive culture, improving health & wellbeing, economic activity, education (via training) and reducing inequality as a living wage service provider.

Improve the skills profile of the population.

Question 2.10.1

Tenderers must include a statement on their full consideration of whether the Transfer of Undertakings (Protection of Employment) Regulations 2006 will apply in respect of this Framework Agreement, including details of any perceived implications and/or risks and how these will be mitigated.

Tenderers must confirm whether their Tender has been submitted on the basis of TUPE being deemed to apply or not.

Please note your response to this question is restricted to a maximum word limit of 1500 words.

(Weighting 0%)

ASA Response

ASA's tender has been submitted on the basis of TUPE regulations not applying or relevant to this Framework.

ASA do not envisage TUPE will apply to the framework because;

- We understand that agency workers already in situ will remain with the current supplier until the natural end of their assignment.
- As the contract is not operated by a single supplier, ASA has been advised that TUPE rules will not apply to the internal staff of the supplier.
- ASA is a diversified business and as such would have other work for our internal staff on other projects. There would be no need to transfer our internal staff to any other body.

By putting in place a framework agreement with multiple suppliers acting on the framework, ASA understands that full TUPE risk is mitigated.

Question 2.2.1

Tenderers must demonstrate a clear understanding of the public sector landscape in Scotland and the Framework Public Bodies who will use these services. You must also demonstrate that you understand the demand Framework Public Bodies have for the services and how public bodies will use those services.

Please note your response to this question is restricted to a maximum word limit of 1500 words. Tenderers should note that any words exceeding the 1500 limit will not be considered for evaluation purposes.

(Weighting 100%)

ASA Response

The aim of The Scottish Government's purpose is to:

"Create a more successful country with opportunities for all of Scotland to flourish through increased wellbeing, and sustainability and inclusive growth".

From the above purpose the public sector procurement aim is to ensure that the £billions spent on buying goods, services and works is spent in the best way to deliver benefit to society, using their collective spending power to deliver sustainable and inclusive economic growth aligned to the National Outcomes:

- Good for businesses and their employees – economy, education, fair work practice
- Good for society – human rights, children & young people, tackling poverty and health
- Open and connected – international,
- Good for places and communities – communities, environment, culture

ASA understand that Scottish Procurement is an organisation which has been set up to act in an "overarching capacity" across the public and third sector bodies to deliver best value for the spend across those bodies. Scottish Procurement is also realising the Scottish Government initiative to ensure that where public money is being spent, it should create opportunities and actions for the greater good, improving culture and communities as we go. The Scottish Procurement frameworks will focus on the delivery of the National Outcomes Framework to improve on the health and well-being of Scottish society and in sustainable, inclusive economic growth.

As part of this, the Fair Work Framework will be utilised to offer all individuals an effective voice, opportunity, security, fulfilment and respect. This will balance the rights and responsibilities of both employers and workers and realises the opportunity to deliver better labour market involvement which in turn assists in stronger economic growth. Implementing the Fair Work Plan in particular, for groups of people facing barriers to entering the jobs market, will go some way to ensuring that the

future of these groups is enhanced by ensuring they are encouraged to fully engage in economic activity. The payment of a living wage and secure employment are key bedrocks for this initiative.

Scottish Procurement and the Public Bodies all have a vested interest in the above points at a local level but also at central Government level to ensure value for money (cost, quality and sustainability) is achieved from the agreements awarded throughout the Country. By applying innovative and ambitious policy and processes, Scottish Procurement will;

- *Strengthen the role of procurement as an enabler of economic recovery*
- *Drive maximum savings, benefits and efficiencies of approach for the taxpayer and provide excellent stewardship of Scotland's resources*
- *Create a more joined up approach to procurement and property across the Scottish public sector*
- *Improve the capability of staff, systems and processes across the public sector*

Performance Management and Reporting is key to achieving the desired results and this is an approach ASA welcomes. Our company structure has been set up to enable us to deliver, manage and report on this agreement at both local and central level for the overarching agreement. The local level management is carried out via Account Teams based in our Glasgow, Edinburgh and Kirkcaldy offices and the central team based in our head office producing reports on spend and performance of the agreements overall.

We anticipate that the demand for this framework will vary greatly between each public body. The framework will operate with a maximum of 4 suppliers on a tiered/mini competition basis.

Demand will be determined by factors such as sickness, maternity/paternity, holidays, permanent staff shortage, new initiatives or additional projects, service from other agency suppliers on the framework and public policy at the time. It is ASA's responsibility to review demand on an ongoing basis with the public bodies and develop our candidate pools accordingly in order that we provide value for money and sustainable service to each public body. Even within each public body the demand will vary for example, an administrator may be required to cover maternity leave or for 1 week to cover sickness/holidays whereas a Chef may only be required for 1 shift or Environmental Operatives required over the summer to assist with public garden maintenance. It is our responsibility to understand the demands and build resources around those to meet customer requirements.

REDACTED

ASA is a Scottish SME, operated by owners who are all active in the business and involved in local communities. We have made REDACTED maintain our reputation and add value both to the economy generally, and the local communities which serve.

Question 2.3.1

Tenderers must provide details of how they will deliver the service under this Framework Agreement as outlined in the Statement of Requirement at Schedule 1. Tenderers must also, include their organisational structure, details of key staff (and their roles) with designated responsibilities for ensuring successful delivery throughout the Framework period, and the minimum experience levels (not a CV) and a job specification(s) for the designated Account Manager(s). Tenderers must also provide details of the number of key personnel to be dedicated Nationally (to the whole of Scotland), how this number is calculated to be sufficient and set out the procedures for how any changes to these key personnel will be managed.

Please note your response to this question is restricted to a maximum word limit of 1500 words. Tenderers should note that any words exceeding the 1500 limit will not be considered for evaluation purposes.

Question 2.7.2

The Public Sector in Scotland is committed to building a workforce of people (including temporary and interim workers) with a wide range of backgrounds, perspectives and experiences. That means having a workforce that includes people of different age groups, socio-economic backgrounds, faith and beliefs. People who are trans, disabled, from minority ethnic backgrounds. People who identify as lesbian, gay or bisexual or another sexual orientation. A workforce that is representative of the people of Scotland.

We expect Tenderers to take a similarly positive approach and have a strategy and processes in place to ensure as best as possible a diverse range of temporary/interim workers.

To help us achieve our ambitions in advancing equality, we would like to understand your aspirations as an organisation in terms of diversity and the temporary/interim workers you put forward. For example, we would like to know:

- Do you have an established diversity related policy and practices?
- Do you have, or are you working towards, accreditations in any diversity aspects e.g. Disability Confident?
- How you attract and retain diverse temporary/interim workers, including any outreach work, to your organisation?
- How you select and verify your selection methods from a diversity perspective?
- How you carry out pre-employment occupational health checks?
- What adjustments are made (or how are they recommended) and how these are implemented effectively?
- What engagement do you have with representative organisations and what is the success of these relationships?

Answers need not be constrained to, or be reflective of, any examples given alongside this question.

Question 2.8.1

Tenderers must confirm that, where appropriate, they will support the Scottish Ministers policies on Sustainability and Corporate Social Responsibility in delivering the services required.

Please provide a statement which explains your sustainability policy and demonstrates how you will proactively support the delivery of the Framework Public Body(s) respective Sustainability (Social and Ethical) and Environmental Policies. This should include any measures you have in place to ensure, monitor and report sustainability across your supply chain.

Further details on Scottish Government's Sustainable Procurement Policy are available at:

ASA Response

ASA is aware the Scottish Government has set itself a clear purpose. "To focus government and public services on creating a more successful country, with opportunities for all of Scotland to flourish, through increasing sustainable economic growth."

ASA support this purpose and the requirement to deliver services in a way which aligns our business and the services we provide with this purpose. We must deliver this in an environmentally friendly way.

Our organisation exists by operating in markets experiencing skills shortages. We provide people work in roles where skills are hard to find and add to the productivity of the country. Providing opportunities, training and support to introduce people to these markets, allows the person who has perhaps been inactive or never considered such career options, an opportunity to better their lives and those of their families.

ASA's activities add value to the procurement spend of the local authorities. We create the opportunity for candidates to become or continue to be economically active. In so doing, we are delivering on Scotland's Economic Strategy. ASA feel our core activity, the supply of labour to contracts throughout the nation, aligns with the sustainable procurement model of the Scottish Ministers.

ASA are an office based provider of services and do not manufacture products resulting in increased carbon deposits or hazardous materials. Nor do we require scarce or innovative materials in the delivery of our activities. We must ensure though that at all times we have a focus on how we pass the sustainability test in the delivery of our services.

Carbon/Energy consumption

We minimise consumption by:

Encouraging staff to walk or use public transport to visit any of our client's premises, monitored by management team explaining the importance of using public transport and expense claim submissions.

When booking candidates into an assignment/arranging interviews we provide bus routes and timetable information to candidates on the most efficient way to get to Client's premises. When matching candidates we use postcode searches and can identify suitable candidates living closest to the client.

ASA offices are situated near main train routes, within 15 minutes' walk from train stations, staff are encouraged to travel by train if commuting between offices. Train tickets are available in our offices for ease of use, promoting the use of public transport.

Conference calling or webinars are encouraged avoiding unnecessary travel. Where possible, multiple meetings are arranged and held on the same day avoiding duplication of travel for another meeting at the same location, on a different day.

Employment – skills and training

Where it is possible for us to do so we will ask clients to accept people low on the skills required for the roles we are filling. We work with individuals with positive outcome on disclosures checks to get them into suitable work and return to economic activity.

Fair work REDACTED

Fairly and ethically traded

ASA does not exploit our worker's rights and conditions. This is evidenced by our Gangmasters & Labour Abuse Authority registration and Modern Slavery Policy available on our website. We ensure our supply chain mirrors this stance. REDACTED.

Physical/mental health and wellbeing

ASA's service provides the individual worker with a means of earning income which enhances their position in life and that of those around them. We feel this provides purpose and pride for the individual and it has a positive impact. REDACTED.

Security and crime impacts

Our industry is known for and is open to risk from gangmaster exploitation. ASA became a member of the Gangmaster licencing organisation as soon as it was formed and will remain a member.

Improving Scotland's Reputation.
By providing the individuals with a means of earning income, this enhances their position in life and that of those around them, improving the economy. Scotland's image will be improved and come to be known as a progressive and fair country to live. This is a long term strategy and will be achieved by providing fair pay, equality, good working conditions and career enhancement to the population of Scotland.

Improve the skill profile of the population.
Training provision by ASA allows candidates to enter the world of work with an enhanced suite of skills. This is relevant for those coming to the workplace for the first time having a long career ahead of them. It could be that they are either returning to work or wishing a change of occupation. Whatever the situation, ASA welcome them, provide training and supply work for them to continue their development.

Improve support for people with care needs.

Question 2.9.1

The Scottish Government is committed to contributing to the social, economic & environmental well-being of the people of Scotland. The Government has five objectives that underpin its core purpose - to create a more successful country, with opportunities for all of Scotland to flourish, through increasing sustainable economic growth.

Tenderers must provide details of their proposals to support Scottish Procurement to meet SG overall community benefits policy through this Framework Agreement.

Accordingly, while the following community benefit objectives will not be evaluated as part of the Tender process, the successful Tenderer will be expected to consider the following Community Benefit themes in the delivery of their services, for example:

- targeted recruitment & and training for “disadvantaged” persons unemployed for over 6 months;
- generate employment and training opportunities for priority groups;
- up-skill the existing workforce;
- equality and diversity initiatives;
- make any proposed sub-contracting opportunities available to SMEs, the third sector and supported businesses;
- build capacity in community organisations.

ASA Response

ASA is aware of and has read the draft Culture Strategy for Scotland document. Where public money is being spent, it ought to create opportunities and actions for the greater good, improving culture and communities as we go.

ASA has a small part to play in this ambitious plan. Our activities create income and careers, freeing families from a history of economic inactivity. Improvements are made in their present lives and that of their future generations. We assist in the improvement of a positive culture, improving health & wellbeing, economic activity, education (via training) and reducing inequality as a living wage service provider.

Improve the skills profile of the population.

ASA assists candidates to enter the world of work with an enhanced suite of skills. Candidates could be a first time worker, returning to work or wishing a change of occupation.

Targeted Recruitment & Training for unemployed persons.

REDACTED

ASA’s care division supports the Government strategy in improving support for people with care needs. This is done in order that we have people working in this market who are going to represent us and themselves well but ultimately so that the service provider the candidate is working with has the best possible experience during their later years. Question 2.10.1

Tenderers must include a statement on their full consideration of whether the Transfer of Undertakings (Protection of Employment) Regulations 2006 will apply in respect of this Framework Agreement, including details of any perceived implications and/or risks and how these will be mitigated.

Tenderers must confirm whether their Tender has been submitted on the basis of TUPE being deemed to apply or not.

Please note your response to this question is restricted to a maximum word limit of 1500 words.

(Weighting 0%)

ASA Response

ASA's tender has been submitted on the basis of TUPE regulations not applying or relevant to this Framework.

ASA do not envisage TUPE will apply to the framework because;

- We understand that agency workers already in situ will remain with the current supplier until the natural end of their assignment.
- As the contract is not operated by a single supplier, ASA has been advised that TUPE rules will not apply to the internal staff of the supplier.
- ASA is a diversified business and as such would have other work for our internal staff on other projects. There would be no need to transfer our internal staff to any other body.

By putting in place a framework agreement with multiple suppliers acting on the framework, ASA understands that full TUPE risk is mitigated.
