Hi [redacted]

I'm getting in touch to seek your input ahead of a 5 nations meeting on prisoner healthcare which is taking place next week. The 5 nations meetings bring together colleagues from Scotland, England, Wales, Northern Ireland, and the Republic of Ireland to share best practice and learning in relation to healthcare in prisons.

The National Prison Care Network [redacted] are sending a representative to the meeting and have asked for any input that will help them to contribute more fully to the meeting.

One of the items on the agenda is 'Hep C Elimination across the 5 nations' and I wondered if you might be able to provide some background information and lines in relation to Hep C elimination in prisons that can be used during the meeting?

If possible, it would be helpful to have a contribution by COP this Friday.

Happy to have a chat if it would be helpful.

Many thanks,
[redacted]

Subject: 5 Nations Agenda - Dublin 17/18 May

Hi Everyone

I hope you are all well, following the invite to Dublin for the in-person meeting of the 5 Nations, I believe I am the only person at present who is able to attend the meeting? [REDACTED] and I [REDACTED] know you are still looking into the option of attending, so thank you for your continued efforts. The agenda is very focused on Health Protection, however If partners would like to contribute to the meeting, I am happy to present on all our behalf's and would welcome summary highlight reports from yourselves (giving the caveat I am not clinical), ensuring that Scotland can contribute more fully at the meeting. I have highlighted suggested key areas below where highlight reports would be most beneficial.

- i. *[redacted]*
- ii. *[redacted]*
- iii. *[redacted]*
- iv. **Hep C Elimination across the 5 Nations – Programmes and progress**
- v. *[redacted]*

If anyone else is planning on attending could you please let me know and I look forward to hearing from you all

Best wishes – [REDACTED]
